Lenin on War and Peace Vladimir I. Lenin, 1970 **Lenin on War and Peace** Vladimir Il'ich Lenin, 1970 Lenin on war and peace Vladimír Il'ich Lenin, 1966 **The War Against the Working Class** Will Podmore, 2015-05-29 This book traces the history of revolutions and counterrevolutions since 1917 in Russia Korea Vietnam China the countries of Eastern Europe and Cuba I present the evidence of their achievements and describe the wars they were forced to fight in self defence We can learn from the efforts and the errors of the pioneers even though their conditions of being pre industrial and dependent societies were very different from Britains today The hope is that this book will provoke thought about the future of our nation in order to help us to decide what we need to do not to copy but to create *Ethical Marxism* Bill Martin Jr., 2008-04-28 Argues for a revised Marxism that takes ethics rather than political economy and scientific investigation as its core Provided by publisher **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace, 1969 *Self-Determination, Statehood, and the Law of Negotiation* Robert P. Barnidge, Jr., 2016-01-28 From the Madrid Invitation in 1991 to the introduction of the Oslo process in 1993 to the present a negotiated settlement has remained the dominant leitmotiv of peacemaking between Israel and the Palestinian people That the parties have chosen negotiations means that either side s failure to comply with its obligation to negotiate can result in an internationally wrongful act and in response countermeasures and other responses This monograph seeks to advance our understanding of the international law of negotiation and use this as a framework for assessing the Israeli Palestinian dispute with the Palestinian people s unsuccessful attempt to join the United Nations as a Member State in autumn 2011 and the successful attempt to join the same institution as a non Member Observer State in November 2012 providing a case study for this The legal consequences of these applications are not merely of historical interest they inform the present rights and obligations of Israel and the Palestinian people This work fills a significant gap in the existing international law scholarship on the Israeli Palestinian dispute which neither engages with this means of dispute settlement generally nor does so specifically within the context of the Palestinian people s engagements with international institutions Based on primary research this book explores materials that were not analyzed before It treats a highly political issue with scientific objectivity that strikes a balance between various points of view The book will be an essential reading to all those involved in peace studies international negotiations and Israeli Palestinian conflict Mutaz M Qafisheh Associate Professor of International Law Hebron University A compelling and innovative account of the legal aspects of the Palestinian Israeli conflict a must read Efraim Karsh King s College London and Bar Ilan University author of *Palestine Betrayed* A superbly imagined and executed study on Palestine that puts the negotiation imperative at the heart of its narrative fully interrogating the involvement of public international law at each step of the long and layered history that is vigorously brought to life in these pages A study that also promises texture nuance and depth to the legal analysis it offers and it

delivers handsomely on each of these fronts Dino Kritsiotis Chair of Public International Law Head of the International Humanitarian Law Unit University of Nottingham

Why War? Ideology, Theory, and History Keith L. Nelson, Spencer C. Olin, 2023-09-01 Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories about which they are not always conscious or consistent and 3 we can better understand compare and evaluate what historians are saying when we comprehend their ideological and theoretical perspectives They attempt then to classify historical interpretations of war according to their ideological theoretical orientations however covert Perspective Nelson and Olin are concerned with enhancing history's social utility by advancing its capacity to produce generalizations that can explain or predict events and are subject to empirical testing Their exploration of historical generalization focuses on an issue itself of the highest importance the causes of war but their aim is also to create a model for historical generalization applicable to other issues They argue that to understand generalizations in history one must recognize their roots in theory and that historians theories in turn proceed from their own ideologies To demonstrate they survey theories about the causes of war that have come out of conservative liberal and radical ideologies any historian will profit from this rigorous approach to the problem Choice Learned and suggestive this book clarifies much of what is already known and points toward new ways of understanding Library Journal

The Psychology of War and Peace Fred van Houten, 2013-06-29 Can a Baby Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This

volume forms a welcome part of that process. Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger. But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futurity, moral deterioration and a fatalistic decline in the will to struggle to protect our home, the Earth.

Lenin on War and Peace Vladimir Il'ich Lenin, 1966 *Anti-Parliamentary Communism* Mark Shipway, 2016-07-27 The book explores the ideas and activities of the anti-parliamentarians in Britain between 1917 and 1945 from the ex-suffragettes based around Sylvia Pankhurst's Workers Dreadnought newspaper to the Clydeside based Anti-Parliamentary Communist Federation and its offshoots.

Society and Change, 1989 *Peace by Negotiation* J. Telek, 1981 **A Short History of Sino-Soviet Relations, 1917-1991** Zhihua Shen, 2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials, this history of Sino-Soviet relations in the 20th century sheds new light on key events during this period. It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two countries but also their respective Communist Parties. The chapters on the normalization of bilateral ties provide an in-depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union. The book argues that 20th-century Sino-Soviet relations reflected both long-standing and emerging political and geopolitical challenges facing members of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter-party relations and inter-state relations. This makes for a valuable addition to the reading lists of all those interested in the development of the relationship between two of the world's most important countries.

Boris Eikhenbaum Carol Joyce Any, 1994 This is the first book-length study of Boris Eikhenbaum, 1886-1959, a leading Russian Formalist and a pathbreaking Tolstoy scholar. The author carefully traces Eikhenbaum's intellectual trajectory from his pre-Formalist philosophical criticism through Formalism to his later biographical criticism of Tolstoy and Lermontov. Eikhenbaum's contribution to Formalism has not heretofore received clear definition and the author shows that his ideas and influence were even greater than previously supposed. His shift away from Formalism with its emphasis on purely literary analysis toward a criticism that emphasized the writer as a cultural figure is seen as a response to both political exigency and personal need. Although by the late 1910s Formalism had become poetics non grata in the Soviet Union, the author demonstrates that Eikhenbaum also had compelling intellectual reasons to move away from Formalism, which had reached a dead end. The author asserts that Eikhenbaum prolonged his scholarly life by concentrating on nineteenth-century Russian authors whose moral opposition to mainstream Russian intellectual thought served as a model for his own ethical stance in Stalin's Russia. This is particularly true of his monumental three-volume work on Tolstoy, which in its own way has been as influential as his Formalist writings. Throughout, the author relates Eikhenbaum's critical thinking to such current literary

issues as intention perception meaning reader reception deconstruction and the New Historicism *Mao and the Sino-Soviet Split, 1959-1973* Danhui Li,Yafeng Xia,2018-09-15 In the twenty first century students of Cold War history are fortunate to have the fruits of several major works on the Sino Soviet split by European and American scholars What is lacking in English literature however is a book based on international documentation especially Chinese archival documents that tell the story from the Chinese perspective Based on archival materials from several countries particularly China and more than twenty years of research on the subject two prominent Chinese historians Danhui Li and Yafeng Xia offer a comprehensive look at the Sino Soviet split from 1959 when visible cracks appeared in the Sino Soviet alliance to 1973 when China s foreign policy changed from an alliance with the Soviet Union to oppose the United States to aligning with the United States to oppose the Soviet Union *Mao and the Sino Soviet Split 1959 1973 A New History* is a reevaluation of the history of the Sino Soviet split and offers the first comprehensive account of it from a Chinese perspective This book together with its prequel *Mao and the Sino Soviet Partnership 1945 1959 A New History* is important because any changes in Sino Soviet relations at the time affected and to a great extent determined the fate of the socialist bloc More importantly it directly impacted and transformed the international political situation during the Cold War These two books promise to be a reevaluation of the history of the Sino Soviet alliance from its birth to its demise These fascinating books will be a crucial resource for all those interested in the topic and will stand as the definitive work on the Sino Soviet alliance for years to come *Africana Critical Theory* Reiland Rabaka,2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois s Dialectics Reiland Rabaka s *Africana Critical Theory* innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois s rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aime Cesaire and Leopold Senghor Frantz Fanon and Amilcar Cabral *Africana Critical Theory* endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in *Africana Critical Theory* contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide

range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy Sino-Soviet Dialogue on the Problem of War S. Yin, 2012-12-06

The author has spent upwards of ten years in working on this book. His objective is to clarify the military aspect of the Moscow-Peking dialogue which has not yet received its deserved treatment. The apogee of that dialogue seems to have been passed toward the end of the rule of Khrushchev. Yet the Vietnam war spawns fresh contention. Our coverage will span the development from 1956 to the present. The beginning of the dispute with regard to the origins of war in general is taken up in the first two chapters. The next three chapters discuss the several types of war with the frame of reference set in what now appears to be a quondam era. But the principle differences between the disputants are just as outstanding today as they were then. The penultimate chapter is somewhat wide in scope in order to deal with the larger and more intensely bitter polemics evolving after Khrushchev left office. There have been many new and startling views held by both sides since then, views splitting them poles apart. Obviously at issue now is the question of Sino-Soviet peaceful coexistence. Our work obviously cannot wait until that question is answered to be finished. The final chapter concludes our study. To write of subjects as dynamic as this one is a challenge because they are current affairs. Due to the swift change of events, no sooner is our typescript put to press than it needs a revision. *Peking Review*, 1978
