Lenny Lefty And The Chancellor:

Lenny, Lefty, and the Chancellor C. Fraser Smith, 1991 Lenny, Lefty, and the Chancellor: the Len Bias Tragedy and the Search for Reform in Big-time College Basketball C. Fraser Smith, 1992-01-15 Where were you on June 19 1986 That's the day when Len Bias one of the greats of the college basketball game a player seemingly destined for NBA stardom died of a cocaine overdose For the next several months millions followed the continuing unfolding tragedy at the University of Maryland at College Park Six years later where is big time basketball the big money game whose vulnerabilities began to come to life with Bias's death How far has it come in reforming itself against the abuses that contributed to the Bias tragedy In **Lenny Lefty and the Chancellor** Baltimore Sun reporter C Fraser Smith answers those questions through the microcosm of the University of Maryland He demonstrates how despite numerous obstacles the University of Maryland has been reforming its program during the five years since Bias's death actually transforming it from sinkhole to national model In so doing Smith provides the first book to look at the problems of intercollegiate sports from the college president's perspective a point of view crucial to getting balance instilled in such programs From 1929 the year the Carnegie Commission issued its report on the subject through 1991 when the Knight Commission released its report every analyst has said that university presidents are the ones who must solve the problems of intercollegiate athletics says Smith My book more than any available carefully analyzes what presidents such as former UM Chancellor John Slaughter have to work with and what they are up against Reliance on the presidents Smith concludes is illusory and unrealistic In **Lenny Lefty and the Chancellor** Smith gets at the central issues through three main characters each of them extraordinary and compelling Clearly Len Bias captured the imagination of the sporting world says Smith People still remember where they were when they heard the seemingly impossible news that Bias just drafted the day before by the Boston Celtics had died Lefty Driesell though now at James Madison University and thus somewhat out of the national spotlight is vividly remembered by college basketball followers nationwide as a uniquely charismatic and successful coach Chancellor John Slaughter a black college president is less well known but just as interesting His core experience as UM chancellor was built around a dead basketball superstar and a problem plagued college basketball program but his story is important well beyond that because it delves into such important areas as race relations in America today Fully textured and crisply written sober yet gripping **Lenny Lefty and the Chancellor** is a people and issue book that brings the problems of big time college basketball down to the understandable level of the individual That says Smith is something you can't get from a year's worth of reading dry texts and graduation statistics Though the book offers an insider's look at the University of Maryland and at Maryland politics it fits snugly into a larger and timely framework With the Knight Commission refocusing attention on big time basketball the NCAA enacting new reforms pioneered at UM and NCAA teams headed into another season the lessons of the Len Bias tragedy at Maryland are important at the national level as well University basketball says Smith permeates the American culture **Portraits in Leadership**

Arthur Padilla, 2005-01-01 Leading complex organizations is never easy or simple In this book Padilla uses the university as the organizational vehicle through which to examine the phenomenon of leadership and followership in complex entities The unique characteristics of universities as organizations are discussed and the leadership experiences of six well known university presidents are analyzed within an original framework of leadership Just as John Kennedy's Profiles in Courage considered the notion of political courage within the institutional setting of Congress this book explores leadership within the context of the modern American university The roles of persuasion and communication are highlighted as the author weaves the principal patterns from each of the six case studies to the situational conditions that faced these extraordinary individuals Padilla offers valuable suggestions on how to improve selection of leaders and increase organizational effectiveness The author's plan follows three circles that overlap to form its basic framework 1 The university as a complex organization 2 Leadership its patterns theories and commonalities and 3 Case studies of exemplary leaders which highlight their early experiences and actions The overlap of the three circles defines the conclusions and synthesis Each leader's story covers four areas Childhood background formal schooling education senior leadership roles and major defining events successes and failures and forecasts for higher education and its leadership The book includes an assortment of public and private universities which provides a diversity of leaders who face significant differences in terms of control financing and oversight This diversity allows for more useful comparisons and contrasts The author explains the enormous role that persuasion rather than domination or power plays in successful leadership It is clear that persuasion is effective in many settings and not just in the university environment but it is particularly effective

Capital Kings Josh Barr, 2015-10-16 The President might live at 1600 Pennsylvania Avenue in the heart of Washington D C but in the nation's capital there is no question that basketball is king For more than half a century local standouts have gotten in their run first at the local playgrounds and now in air conditioned gyms And for just as long the debate has raged Who are the best players to come out of this fertile basketball ground The conversation dates back to Elgin Baylor and Dave Bing who starred at Spingarn High in the 1950s and eventually were selected to the 50 Greatest Players in NBA History when the league celebrated its 50th anniversary in 1996 Then there were standouts like Adrian Dantley and Danny Ferry of DeMatha High in the 1970s and 1980s respectively and Grant Hill at South Lakes in the 1990s The first decade of the new century brought Montrose Christian phenom Kevin Durant who already has put together a splendid career in a short time Throughout the years the discussion has remained fervent as local hoops aficionados wonder where each sensation belongs on the list of Capital Kings This book attempts to sort things out
