Hipparchias Choice An Essay Concerning Women Philosophy Etc:

Hipparchia's Choice Michèle Le Doeuff, 2007 To be a philosopher and to be a feminist are one and the same thing A feminist is a woman who does not allow anyone to think in her place from Hipparchia's Choice A work of rare insight and irreverence Hipparchia's Choice boldly recasts the history of philosophy from the pre Socratics to the post Derrideans as one of masculine texts and male problems The position of women therefore is less the result of a hypothetical femininity and more the fault of exclusion by men Nevertheless women have been and continue to be drawn to the exercise of thought So how does a female philosopher become a conceptually adventurous woman Focusing on the work of Sartre and Beauvoir specifically his sexism and her relation to it Michèle Le Doeuff shows how women philosophers can reclaim a place for feminist concerns Is *The Second Sex* a work of philosophy and if so what can it teach us about the relation of philosophy to experience Now with a new epilogue Hipparchia's Choice points the way toward a discipline that is accountable to history feminism and society Hipparchia's Choice Michèle Le Doeuff, 1990 Hipparchia's Choice Michèle Le Doeuff, 1991-01

Corporeal Generosity Rosalyn Diprose, 2012-02-01 Rosalyn Diprose contends that generosity is not just a human virtue but it is an openness to others that is critical to our existence sociality and social formation Her theory challenges the accepted model of generosity as a common character trait that guides a person to give something they possess away to others within an exchange economy This book places giving in the realm of ontology as well as the area of politics and social production as it promotes ways to foster social relations that generate sexual cultural and stylistic differences The analyses in the book theorize generosity in terms of intercorporeal relations where the self is given to others Drawing primarily on the philosophy of Nietzsche Merleau Ponty and Levinas and offering critical interpretations of feminist philosophers such as Beauvoir and Butler the author builds a politically sensitive notion of generosity *Love and Vulnerability* Pelagia Goulimari, 2021-05-15 *Love and Vulnerability* Thinking with Pamela Sue Anderson developed out of the desire for dialogue with the late feminist philosopher Pamela Sue Anderson's extraordinary previously unpublished last work on love and vulnerability The collection publishes this work for the first time with a diverse multidisciplinary international range of contributors responding to it to Anderson's oeuvre as a whole and to her life and death Anderson's path breaking work includes *A Feminist Philosophy of Religion* 1998 and *Re-visioning Gender in Philosophy of Religion Reason Love and Epistemic Locatedness* 2012 Her last work critiques then attempts to rebuild concepts of love and vulnerability Reason critical self reflexivity emotion intuition and imagination myth and narrative all have a role to play Social justice friendship conversation dialogue collective work are central to her thinking Contributors trace the emergence of Anderson's late thinking extend her conversations with the history of philosophy and contemporary voices such as hooks and Butler and bring her work into contact with debates in theology Continental and analytic philosophy feminist queer and transgender theory postcolonial theory African American studies Discussions engage with the Me Too movement and sexual violence

Gendered Community Penny A. Weiss, 1995-04 Rousseau s writings reflect paradoxes and apparent inconsistencies with his principled commitments to freedom and equality In this engrossing work Penny Weiss wrestles with issues of gender in the works of Rousseau Weiss attempts to resolve apparent inconsistencies by placing them within the context of Rousseau s political philosophy while avoiding the impulse to attribute his remarks on the sexes to the sexist times in which he wrote or to his personal idiosyncracies A significant contribution to feminist theory this book addresses the debates concerning Rousseau s understandings of gender justice freedom community and equality She also examines how Rousseau s political strategies give rise to a range of important contemporary questions regarding families citizens and communities This new more complete picture of Rousseau s work will challenge scholars and students of philosophy politics and women s studies to look at and understand Rousseau in a whole new way Penny A Weiss addresses the apparent male

female contradictions that run through the work of the eighteenth century philosopher Jean Jacques Rousseau She argues that Rousseau s defense of sexual differentiation is based on the contribution he perceives it can make to the establishment of community not on an appeal to some version of natural sex differences Weiss convincingly demonstrates that Rousseau s political strategy is ultimately unworkable undermining the very community it was meant to establish Poststructuralism and Critical Theory's Second Generation Alan D. Schrift,2014-09-11 Poststructuralism and Critical Theory s Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960 1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory *Feminist Interpretations of Simone de Beauvoir* Margaret A. Simons,2010-11-01

Feminism and Christian Ethics Susan Frank Parsons,1996-02-29 Feminists are aware of the diversity of thinking within their own tradition and of the different approaches to moral questions in which that is manifest This book describes and analyses that diversity by distinguishing three distinct paradigms of moral reasoning to be found within feminism Using the writings of feminists the major strengths and weaknesses of each theory are considered so that creative dialogue between them can be encouraged Three common themes are drawn out which are also on the agenda of new developments in philosophical and Christian ethics the search for an appropriate universalism the possibility of a redemptive community and the development of a new humanism Feminists may be encouraged through this account of their considerable scholarship in ethical thinking to contribute to these changes with their special concern for the lives and the fulfilment of women

Articulating Difference Sophie Salvo, 2024-10-08 Enriches contemporary debates about gender and language by probing the histories of the philosophy and sciences of language Drawing on a wide range of texts from understudied ethnographic and scientific works to canonical literature and philosophy Sophie Salvo uncovers the prehistory of the inextricability of gender and language Taking German discourses on language as her focus she argues that we are not the inventors but rather the inheritors and adapters of the notion that gender and language are interrelated Particularly during the long nineteenth century ideas about sexual differences shaped how language was understood classified and analyzed As Salvo explains philosophers asserted the patriarchal origins of language linguists investigated women s languages and grammatical gender and literary Modernists imagined feminine sign systems and in doing so they not only deemed sex based divisions to be necessary categories of language but also produced a plethora of gendered tropes and fictions which they used both to support their claims and delimit their disciplines Articulating Difference charts new territory revealing how gendered conceptions of language make possible the misogynistic logic of exclusion that underlies arguments claiming for example that women cannot be great orators or writers While Salvo focuses on how male scholars aligned language study with masculinity she also uncovers how women responded highlighting the contributions of understudied nineteenth century works on language that women wrote even as they were excluded from academic opportunities *Essays on Ethics and Feminism* Sabina Lovibond, 2015 *Essays on Ethics and Feminism* is a selection of the shorter writings of Sabina Lovibond one of the most distinctive voices in contemporary philosophy since the 1980s This work lays claim to a broad thematic unity based on its affiliation to the realist or rationalist traditions in moral philosophy Some of the essays seek to clarify the relation of feminism to these traditions and to current anti rationalist tendencies especially important here are the status and prospects of normativity autonomy purposive action and other conceptual resources for critical thinking which were called into question over roughly the last third of the twentieth century not least by feminist writers heedful of continental

European developments All of the essays are concerned with fundamental ethical questions including but not restricted to questions of feminist ethics such as the nature of value and the good life moral requirements and their associated epistemology character formation and the ideological critique of the processes by which this is effected The essays deploy ideas drawn both from Platonic Aristotelian and from Kantian ethics as well as from the later philosophy of Wittgenstein However they also attempt to respond to the destabilizing impact of Nietzschean and postmodernist thought The writing is addressed to those engaged in or with some interest in academic philosophy and draws on a wide range of philosophical source materials but avoids unnecessary technicality In the same way it should appeal to those with a pre existing interest in academic feminism and in some forms of feminist activism but could also serve to draw new readers into the domain of feminist thought
