Williams, Haitian Lu, Chin Aun Ong, 2010-10-14 This book examines systematically the current systems of secured lending in China and Hong Kong where companies or individuals offer personal property as security for credit advanced by a lender. Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower. However the Hong Kong system being largely derived from English law is highly complex and in need of root and branch reform. The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered. In China on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in Hong Kong.

*The Structure of Property Law* Ben McFarlane, 2008-07-09 Shortlisted for the Peter Birks Prize for Outstanding Legal Scholarship 2009. In its essence property law has to provide answers to two very difficult questions: who is entitled to use property and how are they entitled to use it? Property law is therefore inherently difficult but not impossibly so. It consists of an ordered and logical system which aims to take the sting out of fierce disputes. This book provides a new perspective on property law. By setting out an underlying structure it allows the reader to understand the fundamental principles of this difficult subject. By providing detailed coverage of individual topics it shows how those principles apply in practice and provides a comprehensive resource for anyone studying, teaching, researching or practising in property law. The book is written in an accessible style with frequent summaries and in both its pages and companion web site it makes use of helpful visual aids. It is ideal reading for law students seeking a rock solid understanding of how property law and land law work and contains sufficient detail for use as a course book in Property Law, Land Law, Personal Property Law. The book also provides detailed analysis of core topics in Equity, Trusts, Commercial Law, Unjust Enrichment, Restitution.
