Credit And Socioeconomic Change In Colonial Mexico Linda

Greenow, 2019-03-08 This book based on a study of the credit market in Nueva Galicia during 1720 1820 reveals a number of the social characteristics of colonial Mexico including social status the role of women the church ethnicity and the complexity of the family network in economic affairs

Earth Shapers Maxim Samson, 2025-10-13 The

globetrotting story of how humans have harnessed the geographical landscape and written ourselves onto our surroundings

Mountains meridians rivers and borders these are some of the features that divide the world on our maps and in our minds

But geography is far less set in stone than we might believe and as Maxim Samson's *Earth Shapers* contends in our relatively

short time on this planet humans have become experts at fundamentally reshaping our surroundings From the Qhapaq an the

Inca's great road and Mozambique's colonial railways to a Saudi Arabian smart city and from Korea's sacred Baekdu daegan

mountain range and the Great Green Wall in Africa to the streets of Chicago Samson explores how we mold the world around

us And how as we etch our needs onto the natural landscape we alter the course of history These fascinating stories of

connectivity show that in our desire to make geographical connections humans have broken through boundaries of all kinds

conquered treacherous terrain and carved up landscapes We crave linkages and though we do not always pay attention to

the in between these pathways these ways of earth shaping in Samson's words are key to understanding our relationship

with the planet we call home An immense work of cultural geography touching on ecology sociology history and politics

Earth Shapers argues that far from being constrained by geography we are instead its creators

Empires between Islam and Christianity,

1500-1800 Sanjay Subrahmanyam, 2018-12-27 A wide ranging consideration of early modern Muslim and Christian empires

covering the Iberian Ottoman and Mughal worlds including questions of political economy images and representations and

historiography *Empires Between Islam and Christianity 1500 1800* uses the innovative approach of connected histories to

address a series of questions regarding the early modern world in the Indian Ocean the Mediterranean and the Atlantic The

period between 1500 and 1800 was one of intense inter imperial competition involving the Iberians the Ottomans the

Mughals the British and other actors Rather than understand these imperial entities separately Sanjay Subrahmanyam reads

their archives and texts together to show unexpected connections and refractions He further proposes in this set of closely

argued studies that these empires often borrowed from each other or built their projects with knowledge of other competing

visions of empire The emphasis on connections is also crucial for an understanding of how a variety of genres of imperial and

global history writing developed in the early modern world The book moves creatively between political economic intellectual

and cultural themes to suggest a fresh geographical conception for the epoch Sanjay Subrahmanyam the preeminent practitioner of connected histories offers yet another set of fascinating encounters of peoples objects ideas and practices between the Ottoman Mughal and British empires As always he stays close to the archive but is nonetheless able to spin a wonderfully imaginative web of pictures and stories A delightful read Partha Chatterjee Columbia University

Dictatorship in Fact and in Fiction Keith Ellis,2023-12-19 Dictatorship in Fact and in Fiction focuses on independence movements led by dictadores in Latin America and the Caribbean It presents theses and antitheses concerning the intellectual determinants and social conditions that give rise to and sustain what many call dictatorships It also considers the false attribution of dictatorship relying sometimes on the stigma produced by the word and its cognates to refer to such figures as Jos Mart Sim n Bol var Fidel Castro and Hugo Ch vez Paraguayans named their dictator Jos Gaspar Rodr guez de Francia El supremo Dictador Perpetuo Unlike his fellow dictadores such as Sim n Bol var who achieved Independence by daunting deeds of physical and intellectual leadership Francia ensured Paraguay s independence by enhancing its unity and productivity And yet Sarmiento despite his ethnic cleansing is more widely admired This example points to our moral duty to define dictatorship and by extension to the indispensability of the present volume **The Phenomenon of Money**

(Routledge Revivals) Thomas Crump,2011-01-31 First published in 1981 this book concerns itself with the different ways in which money is used the relationships which then arise and the institutions concerned in maintaining its various functions Thomas Crump examines the emergence of institutions with familiar and distinctive monetary roles the state the market and the banking system However other uses of money such as for gambling or the payment of fines are also taken into account in an exhaustive encyclopedic treatment of the subject which extends far beyond the range of conventional treatises on money

Taking Power John Foran,2005-11-17 Taking Power analyzes the causes behind some three dozen revolutions in the Third World between 1910 and the present It advances a theory that seeks to integrate the political economic and cultural factors that brought these revolutions about and links structural theorizing with original ideas on culture and agency It attempts to explain why so few revolutions have succeeded while so many have failed The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910 China 1949 Cuba 1959 Iran 1979 and Nicaragua 1979 the anticolonial revolutions in Algeria Vietnam Angola Mozambique and Zimbabwe from the 1940s to the 1970s and the failed revolutionary attempts in El Salvador Peru and elsewhere It closes with speculation about the future of revolutions in an age of globalization with special attention to Chiapas the post September 11 world and the global justice movement **Exile Economics** Ben Chu,2025-05-06 THE MUST READ GUIDE TO THE TRADE WAR A smart vivid and humane account of the way the world really works TIM HARFORD This is the book to read if you want to understand what might be about to hit the world economy EVAN DAVIS The dangerous race for self sufficiency has begun Be warned Nations are turning away from each other Faith in globalisaton has been fatally undermined by the pandemic the energy crisis

surging trade frictions and swelling great power rivalry A new vision is vying to replace what we've known for many decades This vision Exile Economics entails a rejection of interdependence a downgrading of multilateral collaboration and a striving for greater national self sufficiency The supporters of this new order argue it will establish genuine security prosperity and peace But is this promise achievable Or a seductive delusion Through the stories of globally traded commodities from silicon to steel and from soybeans to solar panels economics journalist Ben Chu illustrates the intricate web of interdependence that has come to bind nations together and underlines the dangers of this new push to isolationism Exile Economics is an essential guide to this new world in all its promise and peril

Latin American Peasants Tom Brass, 2004-08-02 The essays in this collection examine agrarian transformation in Latin America and the role in this of peasants with particular reference to Bolivia Peru Chile Brazil and Central America Among the issues covered are the impact of globalization and neo liberal economic policies

Enslaving Spirits José C. Curto, 2003-12-01 Long recognized as having played many important roles in the slave export trade of western Africa foreign alcohol and its various functions within this context have nevertheless escaped systematic analysis This volume focuses on the topic at Luanda and its Hinterland where the connections between foreign alcohol and the slave export trade reached their zenith Here following the mid 1500s an extremely close relationship developed between imported intoxicants and slaves exported by the thousands in any given year into the Atlantic World first fortified Portuguese wine and following 1650 Brazilian rum emerged as crucial trade goods for the acquisition of slaves But the significance of Luso Brazilian intoxicants goes far beyond this singular fact they also served a number of other functions some of which were directly tied to slave trading and others indirectly underpinned the business The volume addresses the

problem of alcohol in African history historicizes indigenous alcoholic beverages in West Central Africa at the time of contact analyzes the introduction and increasing use of foreign intoxicants for the acquisition of exportable slaves ponders the profits that such transactions generated within the Atlantic world reconstructs the other uses of imported alcohol in directly and indirectly underpinning the export slave trade of Luanda and assesses the impact of foreign alcohol upon West Central African consumers

Columbus Laurence Bergreen, 2012-09-25 He knew nothing of celestial navigation or of the existence of the Pacific Ocean He was a self promoting and ambitious entrepreneur His maps were a hybrid of fantasy and delusion When he did make land he enslaved the populace he found encouraged genocide and polluted relations between peoples He ended his career in near lunacy But Columbus had one asset that made all the difference an inborn sense of the sea of wind and weather and of selecting the optimal course to get from A to B Laurence Bergreen's energetic and bracing book gives the whole Columbus and most importantly the whole of his career not just the highlight of 1492 Columbus undertook three more voyages between 1494 and 1504 each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity By their conclusion Columbus was broken in body and spirit a hero undone by the tragic flaw of pride If the first voyage illustrates the rewards of exploration this book shows how the subsequent voyages illustrate the costs political moral and economic

Watering the Revolution Mikael D. Wolfe, 2017-06-22 In *Watering the Revolution* Mikael D Wolfe transforms our understanding of Mexican agrarian reform through an environmental and technological history of water management in the emblematic Laguna region Drawing on extensive archival research in Mexico and the United States Wolfe shows how during the long Mexican Revolution 1910 1940 engineers distribution of water paradoxically undermined land distribution In so doing he highlights the intrinsic tension engineers faced between the urgent need for water conservation and the imperative for development during the contentious modernization of the Laguna's existing flood irrigation method into one regulated by high dams concrete lined canals and motorized groundwater pumps This tension generally resolved in favor of development which unintentionally diminished and contaminated the water supply while deepening existing rural social inequalities by dividing people into water haves and have nots regardless of their access to land By uncovering the varied motivations behind the Mexican government's decision to use invasive and damaging technologies despite knowing they were ecologically unsustainable Wolfe tells a cautionary tale of the long term consequences of short sighted development policies
