Hispanic New York Claudio Iván

Remeseira, 2010 Over the past few decades a wave of immigration has turned New York into a microcosm of the Americas and enhanced its role as the crossroads of the English and Spanish speaking worlds Yet far from being an alien group within a mainstream and supposedly pure Anglo America people referred to as Hispanics or Latinos have been part and parcel of New York since the beginning of the city's history They represent what Walt Whitman once celebrated as the Spanish element of our nationality *Hispanic New York* is the first anthology to offer a comprehensive view of this multifaceted heritage Combining familiar materials with other selections that are either out of print or not easily accessible Claudio Iván Remeseira makes a compelling case for New York as a paradigm of the country's Latinoization His anthology mixes primary sources with scholarly and journalistic essays on history demography racial and ethnic studies music art history literature linguistics and religion and the authors range from historical figures such as José Martí Bernardo Vega or Whitman himself to contemporary writers such as Paul Berman Ed Morales Virginia Sánchez Korrol Roberto Suro and Ana Celia Zentella This unique volume treats the reader to both the New York and the American experience as reflected and transformed by its Hispanic and Latino components

The Heart of the Mission Cary Cordova, 2017-05-04 An illustrated in depth examination of the avant garde and politically radical Latino art of San Francisco s Mission District In The Heart of the Mission Cary Cordova combines urban political and art history to examine how the Mission District a longtime bohemian enclave in San Francisco has served as an important place for an influential and largely ignored Latino arts movement from the 1960s to the present Well before the anointment of the Mission School by art world arbiters at the dawn of the twenty first century Latino artists writers poets playwrights performers and filmmakers made the Mission their home and their muse The Mission home to Chileans Cubans Guatemalans Mexican Americans Nicaraguans Puerto Ricans and Salvadorans never represented a single Latino identity In tracing the experiences of a diverse group of Latino artists from the 1940s to the turn of the century Cordova connects wide ranging aesthetics to a variety of social movements and activist interventions The book begins with the history of the Latin Quarter in the 1940s and the subsequent cultivation of the Beat counterculture in the 1950s demonstrating how these decades laid the groundwork for the artistic and political renaissance that followed Using oral histories visual culture and archival research she analyzes the Latin jazz scene of the 1940s Latino involvement in the avant garde of the 1950s the Chicano movement and Third World movements of the 1960s the community mural movement of the 1970s the transnational liberation movements in Nicaragua and El Salvador and the AIDS activism of the 1980s Through these different historical frames Cordova links the creation of Latino art with a flowering of Latino politics

discuss the common characteristics of three types of Hispanic communities those that have always been predominantly Hispanic those that have become Anglo dominated and those in which Hispanics are just becoming a significant portion of the population
