

Que se passe-t-il quand :

- un homme réussit à faire tomber un dé selon les chiffres de son choix?
- deux êtres, séparés par des milliers de kilomètres, communiquent entre eux?

Face à ces phénomènes, certains parlent de trucage et d'imposture, d'autres invoquent un mystère inaccessible à l'homme et qui doit le demeurer.

Pour la première fois, un scientifique de réputation mondiale — Lyall Watson est biologiste, anthropologue — jette un pont entre la Science et l'Occulte. Selon lui, la plupart des phénomènes dits supranormaux sont, en réalité, parfaitement normaux : ils appartiennent à une «nature» plus vaste que celle que nous connaissons ou croyons connaître : la *Sumature*.

Étudiant ici les pouvoirs de la psychokinésie et même de l'ancienne magie, dévoilant les fluides magnétiques et les stimuli cosmiques qui nous entourent, c'est le champ de la *Sumature* que Lyall Watson explore ici avec une étonnante clarté.

«La Tomba» de Robert Blake, gravure de Louis Schiavonetti d'après William Blake (T. Bensley, Londres, 1902)

Can Planning Replace Politics? R. Bilski, I. Galnoor, D. Inbar, Y. Manor, G. Sheffer, 2012-12-06 Much hope has been placed in the potential of planning to solve social and economic problems In the East and the West in developed and less developed countries planning has become widespread It has been praised and ridiculed used and misused both as a catch word for a better future and as a scapegoat for bitter failure Planning has been interpreted differently by every society giving rise to a wide range of styles and approaches Fascination with the phenomenon has yielded a variety of definitions of planning each of them influenced by the actual problems facing the planners on the one hand and by the imagination ideology and aspirations of the theorists on the other However the variety of approaches and definitions has almost obscured the phenomenon itself and blurred its specific meaning This fact coupled with disappointment with the practical achievements of planning has created much criticism of the social and political value of planning in the West In this volume we do not intend to answer the question whether planning in Western countries has been successful nor to suggest specific ways of improving it We shall limit ourselves to presenting a case study of national planning in one country The title of this book suggests that the crucial question regarding planning efforts in Israel and perhaps in other countries is the tension between images of planning processes systematic comprehensive structured etc and political processes improvised fragmented diffused etc
