Déclics** Christine De Bray, 2007 *Création d'entreprise : Trouver les bonnes idées* Robert Papin, 2017-01-25 On ne présente plus Robert Papin Fondateur et dirigeant de HEC Entrepreneurs pendant vingt ans il a formé plusieurs milliers de dirigeants et futurs dirigeants Créateur de plusieurs entreprises il est aussi l'auteur des 16 éditions du best-seller La Création d'entreprise livre de référence Ces nouveaux petits livres couvrant chaque tape de la création d'entreprise sont rédigés dans un langage simple et très accessible Ils valent la fois le cueil des livres de conseils psychologiques trop larges laissant entendre que la création d'

entreprise serait facile et l'cueil des livres trop techniques poussant les lecteurs se tourner vers des spécialistes Dans Cr
ateur d'entreprise trouver les bonnes idées toute la pédagogie Papin est mise en œuvre pour montrer que trouver des idées c'est
facile en utilisant les clés de la réceptivité et de l'agilité mentale Une idée n'est une bonne idée que si elle attire suffisamment de
clients pour cela des techniques s'imposent Enfin une idée n'est bonne que si sa mise en œuvre comble les attentes du créateur
pour mieux se connaître et donc mieux réussir des conseils et tests guident le lecteur vers cette découverte De nombreuses
histoires de grands et moins grands entrepreneurs permettent au lecteur de suivre des inspirations variées et de trouver son

Entrepreneurship Development Robert A. Blackburn,2016-04-22 Recent decades have seen substantial growth in the range of assistance programmes for SMEs and entrepreneurs across the world Once regarded as peripheral to the economy and public policy the role of small firms and of entrepreneurship is now recognized as of key importance in the economic growth and development strategies of many nations The range of interventions and support focused on promoting SMEs and entrepreneurship is substantial and expanding so Government SMEs and Entrepreneurship Development asks what are some of the main policy instruments being used and how effective are they It considers policies in different countries examines key interventions and tools used to promote entrepreneurship and SME development and concludes with contributions on how to best evaluate their effectiveness The contributor chapters by academics and practitioners from businesses enterprise development agencies and governments are empirical or evidence based and use both quantitative and qualitative

approaches Drawing on experience from a wide range of both developed and emerging countries and economies the contributions focus on the broad strategies that different governments and communities have adopted to foster entrepreneurship and SMEs the policy tools and instruments that can be used to promote small business and entrepreneurship and on the outcomes of policy instruments and the methods used to evaluate interventions Their findings will help researchers policy makers economic development officers civil servants elected officials and business associations to better understand the issues in this important field **Renaissance[s] : le plaisir d'entreprendre** APM,2014-12-11
