**Women's Rights and Women's Lives in France 1944-1968** Claire Duchén, 2003-09-02 Women's Rights and Women's Lives In France 1944 1968 explores key aspects of the everyday lives of women between the Liberation of France and the events of May 68 At the end of the war French women believed that a new era was beginning and that equality had been won The redefined postwar public sphere required women's participation for the new democracy and women's labour power for reconstruction but equally important was the belief in women's role as mothers Over the next two decades the tensions between competing visions of women's proper place dominated discourses of womanhood as well as policy decisions and had concrete implications for women's lives Working from a wide range of sources including women's magazines prescriptive literature documentation from political parties government reports parliamentary debates and personal memoirs Claire Duchén follows the debates concerning womanhood women's rights and women's lives through the 1944 1968 period and grounds them in the changing reality of postwar France

*The Women's Liberation Movement* Kristina Schulz, 2017-07-01 For over half a century the countless organizations and initiatives that comprise the Women's Liberation movement have helped to reshape many aspects of Western societies from public institutions and cultural production to body politics and subsequent activist movements This collection represents the first systematic investigation of WLM's cumulative impacts and achievements within the West Here specialists on movements in Europe systematically investigate outcomes in different countries in the light of a reflective social movement theory comparing them both implicitly and explicitly to developments in other parts of the world

*Daughters Of 1968* Lisa Greenwald, 2019 Daughters of 1968 is the story of French feminism between 1944 and 1981 when feminism played a central political role in the history of France The key women during this epoch were often leftists committed to a materialist critique of society and were part of a postwar tradition that produced widespread social change revamping the workplace and laws governing everything from abortion to marriage The May 1968 events with their embrace of radical individualism and antiauthoritarianism triggered a break from

the past and the women's movement split into two strands. One became universalist and intensely activist; the other particularist and less activist, distancing itself from contemporary feminism. This theoretical debate manifested itself in battles between women and organizations on the streets and in the courts. The history of French feminism is the history of women's claims to individualism and citizenship that had been granted their male counterparts at least in principle in 1789. Yet French women have more often donned the mantle of particularism, advancing their contributions as mothers to prove their worth as citizens than they have thrown it off, claiming absolute equality. The few exceptions, such as Simone de Beauvoir or the 1970s activists, illustrate the diversity and tensions within French feminism as France moved from a corporatist and tradition-minded country to one marked by individualism and modernity.

**The Existential Phenomenology of Simone de Beauvoir** Wendy O'Brien, Lester Embree, 2013-06-29

While earlier research considered Simone de Beauvoir in the perspectives of Existentialism or Feminism, this work is the first to emphasize her reflective and descriptive approach and the full range of issues she addresses. There are valuable chapters and sections that are historical and/or comparative, but most of the contents of this work critically examine Beauvoir's views on old age, whereon she is the first phenomenologist to work biology, gender, ethics, ethnicity, where she is among the first, and politics, again among the first. Besides their systematic as well as historical significance, these chapters show her philosophy as on a par with those of Merleau-Ponty and Jean-Paul Sartre in quality, richness, and distinctiveness of problematics and the penetration of her insight into collective as well as individual human life within the socio-historical world.

**Politicizing Rape and Pornography** Trine Røgg

Korsvik, 2020-10-24. This book examines how feminist movements in Norway and France have politicized rape, pornography, and sexual exploitation of women from the 1970s to the present. Through a cross-national comparison, it provides insights into why the fight against rape became top priority for French feminists in the 1970s, what kind of strategies the feminist movements used when politicizing sex and violence, who the opponents of the feminist mobilizations were and who the allies were, as well as what the feminist movements achieved and what the costs of the battles were. This book provides historical context for contemporary and contentious debates about the tension between feminism and sexual freedom, about sexual liberation and abuse, and about the limits of freedom of expression. This text is relevant for students in history, sociology, health, political science, comparative politics, and interdisciplinary gender studies. It is also relevant for researchers and activists who are concerned with the history of feminism, feminist politics, and sexual politics.

*Hipparchia's Choice* Michèle Le Dœuff, 2007 To be a philosopher and to be a feminist are one and the same thing A feminist is a woman who does not allow anyone to think in her place from Hipparchia s Choice A work of rare insight and irreverence Hipparchia s Choice boldly recasts the history of philosophy from the pre Socratics to the post Derrideans as one of masculine texts and male problems The position of women therefore is less the result of a hypothetical femininity and more the fault of exclusion by men Nevertheless women have been and continue to be drawn to the exercise of thought So how does a female philosopher become a conceptually adventurous woman Focusing on the work of Sartre and Beauvoir specifically his sexism and her relation to it Mich le Le Doeuff shows how women philosophers can reclaim a place for feminist concerns Is *The Second Sex* a work of philosophy and if so what can it teach us about the relation of philosophy to experience Now with a new epilogue Hipparchia s Choice points the way toward a discipline that is accountable to history feminism and society

*From Revolution to Ethics, Second Edition* Julian Bourg, 2017-11-28 Winner CHOICE Outstanding Academic Book Award CHOICE Magazine 2008 Winner Morris D Forkosch Prize for the best book in intellectual history Journal of the History of Ideas 2008 The French revolts of May 1968 the largest general strike in twentieth century Europe were among the most famous and colourful episodes of the twentieth century Julian Bourg argues that during the subsequent decade the revolts led to a remarkable paradigm shift in French thought the concern for revolution in the 1960s was transformed into a fascination with ethics Challenging the prevalent view that the 1960s did not have any lasting effect *From Revolution to Ethics* shows how intellectuals and activists turned to ethics as the touchstone for understanding interpersonal institutional and political dilemmas In absorbing and scrupulously researched detail Bourg explores the developing ethical fascination as it emerged among student Maoists courting terrorism anti psychiatric celebrations of madness feminists mobilizing against rape and pundits and philosophers championing humanitarianism *From Revolution to Ethics* provides a compelling picture of how May 1968 helped make ethics a compass

for navigating contemporary global concerns In a new preface for the second edition published to mark the fiftieth anniversary of the events Bourg assesses the worldwide influence of the ethical turn from human rights to the return of religion and the new populism *Women as Veterans in Britain and France after the First World War* Alison S.

Fell, 2018-07-12 This is the story of how women in France and Britain between 1915 and 1933 appropriated the cultural identity of female war veteran in order to have greater access to public life and a voice in a political climate in which women were rarely heard on the public stage The veterans covered by this history include former nurses charity workers secret service agents and members of resistance networks in occupied territory as well as members of the British auxiliary corps What unites these women is how they attempted to present themselves as female veterans in order to gain social advantages and give themselves the right to speak about the war and its legacies Alison S Fell also considers the limits of the identity of war veteran for women considering as an example the wartime and post war experiences of the female industrial workers who led episodes of industrial action *Reproductive Rights in Modern France* Maud Anne Bracke, 2025-07-09 The introduction of the principle of women's reproductive liberty in France tentatively by the family planning movement after 1960 and explicitly by the women's liberation movement after 1970 marked a deep shift transforming public discourses Yet this principle remained fiercely contested and moderate and conservative actors responded by foregrounding notions of reproductive responsibility or the expectation that individuals perform the right sexual and family making behaviour benefiting not only themselves and their families but the nation at large Such responsabilisation underpinned the legal reforms of the 1960s 70s framing a notion of reproductive citizenship based on a tension between individual rights and social norms This book breaks new ground by taking an intersectional approach to the defining moments of this period the legalisation of contraception the laws of 1967 and 1974 and the liberalisation of abortion 1975 1979 Drawing on a wide range of sources and actors including feminist and family planning movements government actors demographers medical professional organisations disability rights groups and key actors in the overseas departments Maud Bracke demonstrates how the discourse of responsabilisation allowed actors to distinguish between citizens worthy of reproductive rights and those seen as less worthy Bracke analyses the distinct regulations regarding contraception in the overseas departments of Guadeloupe and Martinique framed by racialised anti natalism The book also demonstrates that disability rights organisations contributed to the discrediting of the notion of eugenic abortion used among experts and policy makers until the early 1970s Furthermore Bracke goes on to highlight the silence in the feminist movement around both disability rights and race as part of its universalisation of women's conditions of oppression and analyses the emergence of Black Feminism in late 1970s France In so doing the book offers a major contribution to the history of sex gender family life healthcare demography and political debate in post war France and more generally **May 68 in French Fiction and Film** Margaret Attack, 1999 This is the first study of May 68 in fiction and in film It looks at the ways the events themselves were represented

in narrative evaluates the impact these crucial times had on French cultural and intellectual history and offers readings of texts which were shaped by it The chosen texts concentrate upon important features of May and its aftermath the student rebellion the workers strikes the question of the intellectuals sexuality feminism the political thriller history and textuality Attention is paid to the context of the social and cultural history of the Fifth Republic to Gaullism and to the cultural politics of gauchisme The book aims to show the importance of the interplay of real and imaginary in the texts of May and the emphasis placed upon the problematic of writing and interpretation It argues that re reading the texts of May forces a reconsideration of the existing accounts of postwar cultural history The texts of May reflect on social order on rationality logic and modes of representation and are thus highly relevant to contemporary debates on modernity **Routledge**
