Jones, 2019-05-01 In this volume Nicholas R Jones analyzes white appropriations of black African voices in Spanish theater from the 1500s through the 1700s when the performance of Africanized Castilian commonly referred to as *habla de negros* black speech was in vogue Focusing on Spanish Golden Age theater and performative poetry from authors such as Calder n de la Barca Lope de Rueda and Rodrigo de Reinosa Jones makes a strong case for revising the belief long held by literary critics and linguists that white appropriations and representations of *habla de negros* language are racist buffoonery or stereotype Instead Jones shows black characters who laugh sing and shout ultimately combating the violent desire of white supremacy By placing early modern Iberia in conversation with discourses on African diaspora studies Jones showcases how black Africans and their descendants who built communities in early modern Spain were rendered legible in performative literary texts Accessibly written and theoretically sophisticated Jones s groundbreaking study elucidates the ways that *habla de negros* animated black Africans agency empowered their resistance and highlighted their African cultural retentions This must read book on identity building performance and race will captivate audiences across disciplines      *The Indies of the Setting Sun* Ricardo Padr n, 2020-07-29 Padr n reveals the evolution of Spain s imagining of the New World as a space in continuity with Asia Narratives of Europe s westward expansion often tell of how the Americas came to be known as a distinct landmass separate from Asia and uniquely positioned as new ground ripe for transatlantic colonialism But this geographic vision of the Americas was not shared by all Europeans While some imperialists imagined North and Central America as undiscovered land the Spanish pushed to define the New World as part of a larger and eminently flexible geography that they called *las Indias* and that by right belonged to the Crown of Castile and Le n *Las Indias* included all of the New World as well as East and Southeast Asia although Spain s understanding of the relationship between the two areas changed as the realities of the Pacific Rim came into sharper focus At first the Spanish insisted that North and Central America were an extension of the continent of Asia Eventually they came to understand East and Southeast Asia as a transpacific extension of their empire in America called *las Indias del poniente* or the Indies of the Setting Sun The Indies of the Setting Sun charts the Spanish vision of a transpacific imperial expanse beginning with Balboa s discovery of the South Sea and ending almost a hundred years later with Spain s final push for control of the Pacific Padr n traces a series of attempts both cartographic and discursive to map the space from Mexico to Malacca revealing the geopolitical imaginations at play in the quest for control of the New World and Asia      *A Companion to Latin American Literature* Stephen M. Hart, 2007 The evolution of Latin American literature *A Companion to Latin American Literature* offers a lively and informative introduction to the most significant literary works produced in Latin America from the fifteenth century until the present day It shows how the press and its product the printed word functioned as the common denominator binding together in different ways over time the complex and variable relationship between the writer the reader and the state The meandering story of the evolution of Latin
