Historian And His World:

A Historian and His World Christina Scott, As a historian of ideas Christopher Dawson was one of the most distinguished Catholic thinkers of the twentieth century He was a scholar of immense erudition a writer of great style and fluency and the first Stillman Professor of Roman Catholic studies at Harvard It is in the field of the history of ideas that he achieved his most lasting influence This biography by Christina Scott Dawson s daughter is a sensitive portrait of a complex and fascinating scholar The author s first hand knowledge and her access to unpublished family memoirs has enabled her to paint a convincing picture of the basic personal security provided by Dawson s private life his friendships and his deep Christian faith a personal security all too often required as a bulwark against the vicissitudes and disappointments of his public life Dawson s Catholicism proved a problem to advancement in his academic career and when public recognition of his true stature finally came in the form of the Stillman Chair it came late in life and in a country other than his own Christina Scott shows that Dawson is best understood as he himself interpreted his historical subjects in the context of the spiritual world in which he lived the ideas that moved him and the faith that inspired his action Dawson was not a historian of ideas for their own sake he had a passionate belief in their liberating power *A Historian and His World* will be of interest to intellectual historians historians of religion and students of modern Catholic thought This is the first publication of the Dawson biography in the United States It is graced by a postscript written by Christopher Dawson reflecting upon the meaning of his work

Steedman Robert A Rosenstone Carlos Eire Luisa Passerini Elisabeth Roudinesco Gerda Lerner and Sheila Fitzpatrick and to interventional historians such as Geoff Eley Jill Ker Conway Natalie Davis and Gabrielle Spiegel Using a comparative approach to these texts this book identifies six historical autobiographical styles humanistic biographic ego historical monographic postmodern and interventional By privileging historians autobiographies this book proposes a renewed history of historiography one that engages the theoretical evolution of the discipline the way history has been interpreted by historians and the currents of thought and ideologies that have dominated and influenced its writing in the 20th and 21st centuries *Special Bibliographic Series US Army Military History Research Collection,1972* The Historian's Heart of Darkness Mark D. Larabee,2018-01-04 Fiction has power to portray historical truth This book presents Joseph Conrad s Heart of Darkness to students and general readers as an insightful guide to the history of Europe and Africa in the late nineteenth and early twentieth centuries The phrase heart of darkness has become a term commonly used to conjure an ominous sense of hidden or deeply rooted evil How did these words become so evocative The answer lies in the richness and acute insight of Heart of Darkness Joseph Conrad s story based on his 1890 journey on the Congo River Conrad s novella illustrates many crucial themes of European and world history through the last two centuries civilization exploration colonialism and imperialism race and conflict based on race trade and globalization commercial exploitation and the impact of changing technology especially for communication and transport Heart of Darkness deserves to be studied today for its value as social and cultural history In this edition Conrad s story is shown to reveal important truths not only about Europe and Africa a century ago but also about the historical forces that shape the world we live in now Featuring the texts of both Heart of Darkness and Conrad s autobiographical Congo Diary along with more than 200 annotations this book enables readers to appreciate the connections between Conrad s writing and its historical context Introductory essays explain how Conrad was uniquely positioned to chronicle history provide critical background information on how Europeans partitioned Africa and created the Congo Free State and describe how the ivory and rubber trades brutalized the natives Readers will learn how Conrad contributed to European awareness of the atrocities committed and understand how the story s literary qualities form an essential part of its historical meaning The numerous illustrations and maps depicting the historical Congo Free State provide a visual element to the story of Heart of Darkness a fictionalized tale that can be interpreted as history and that can help us interpret today s postcolonial globalized world Manuscript Holdings of the Military History Research Collection US Army Military History Research Collection,Richard J. Sommers,1972 **William Hunter and his Eighteenth-Century Cultural Worlds** Helen McCormack,2017-10-12 The eminent physician and anatomist Dr William Hunter 1718 1783 made an important and significant contribution to the history of collecting and the promotion of the fine arts in Britain in the eighteenth century Born at the family home in East Calderwood he matriculated at the University of Glasgow in 1731 and was greatly influenced by some of the most important philosophers of the Scottish Enlightenment

including Francis Hutcheson 1694-1746 He quickly abandoned his studies in theology for Medicine and in 1740 left Scotland for London where he steadily acquired a reputation as an energetic and astute practitioner he combined his working life as an anatomist successfully with a wide range of interests in natural history including mineralogy conchology botany and ornithology and in antiquities books medals and artefacts in the fine arts he worked with artists and dealers and came to own a number of beautiful oil paintings and volumes of extremely fine prints He built an impressive school of anatomy and a museum which housed these substantial and important collections William Hunter's life and work is the subject of this book a cultural anthropological account of his influence and legacy as an anatomist physician collector teacher and demonstrator Combining Hunter's lectures to students of anatomy with his teaching at the St Martin's Lane Academy his patronage of artists such as Robert Edge Pine George Stubbs and Johan Zoffany and his associations with artists at the Royal Academy of Arts the book positions Hunter at the very centre of artistic scientific and cultural life in London during the period presenting a sustained and critical account of the relationship between anatomy and artists over the course of the long eighteenth century

Then and Now Floyd C. Watkins, 2021-12-14 Taking a new approach to the study of Robert Penn Warren's imposing and still growing poetic canon Floyd C Watkins has found in the poems what he describes as a poetic autobiography unparalleled in American letters Drawing on interviews with Warren members of his family and contemporaries from his hometown but keeping the poetry itself constantly at the center of his vision Watkins shows how the poetry has grown from the experience of the boy and man and from his contemplation of his family's and his country's history He traces through the poems a family chronicle moving from the frontier to the late twentieth century and set in a landscape that is clearly derived from the Kentucky of Warren's boyhood The little town of Guthrie divided by railroad tracks with its two burial grounds for whites and blacks becomes in the poems a town of both memory and imagination peopled by characters many of whom are recognizable to Warren's contemporaries The images of a black man fleeing through swampy woods outside the town of a grayfaced man who led a lynch mob of a mad druggist making a list of people to poison all have counterparts in Guthrie's history *Then and Now* is a revealing and provocative study of the poetic process in a poet who is thought of as the originator of the biographical fallacy
