Flying and Preserving Historic Aircraft David Frederick Ogilvy, 2023-11-23 David Ogilvy has spent more than a full working life in aviation. As a schoolboy he was sent out with a bugle and binoculars to blow a warning if a V1 flying bomb appeared. Soon after this he joined the Royal Air Force and served for six years as a pilot flying types ranging from the Tiger Moth to the Mosquito and Meteor. As a civilian he spent fourteen years involved in pilot training and became Chief Instructor of the Air Schools group with responsibility for three establishments. He was a keen display and racing pilot and competed in many events flying several historic types. At an early age David realised the need for owners and operators of flyable pre war machines to have a representative organization to look after their concerns and interests so in 1951 when 22 and still serving in the RAF he was a co founder of the Vintage Aeroplane Club. He was also a founding member and now a Vice President of the Historic Aircraft Association. In 1966 David was appointed general manager of the famous Shuttleworth Collection at Old Warden. During this time he brought in several historic aircraft including initiating the retrieval of a 1935 Hawker Hind from Afghanistan. He flew many of the Collection's remarkable airplanes organizing and participating in the displays. As well as outlining his remarkable career the main focus of this book is on David Ogilvy's descriptions of many of the historic aircraft he helped rescue and preserve and what it was like to be at their controls. It therefore provides a unique compendium of the flying characteristics of a range of historic aircraft for one or two of which he unashamedly admits he is possibly the last man alive to have flown. Away from the cockpit David has been associated with many organizations including being a founder member of the UK Aircraft Owners and Pilots Association serving for 45 years in the roles of editor, Executive Chairman and President. He is also President of today's Vintage Aircraft Club and is a Fellow of the Royal Aeronautical Society. David was awarded the OBE for services to aviation in 1996.

Historic Aircraft Wrecks of San Diego County G. Pat Macha, 2016-08-29 Clear weather and a natural harbor made San Diego an early aviation hub but success in flight came with devastating tragedies. The remains of more than four hundred aircrafts lie scattered across the county's deserts and mountains. Experts estimate that dozens more are on the ocean floor off the coast. In 1922 army pilot Charles F Webber's DeHavilland biplane went missing over Cuyamaca Rancho State Park. In 1978 Pacific Southwest Airlines Flight 178 collided midair over San Diego and crashed in the residential North Park neighborhood claiming the lives of 144 people in what was the worst airline disaster of the era. Author and aircraft accident research specialist G Pat Macha recounts these and other stories of astonishing survival, heroism and heartbreaking fatality.

Historic Aircraft Wrecks of Los Angeles County G. Pat Macha, 2014-11-18 A century of aviation research and military flights over Los Angeles County has left the San Gabriel Mountains, Mojave Desert and the near shore Pacific Ocean strewn with more than 1 500 aircraft crash sites. Barnstormers and test pilots too often made unexpected final landings. Accidents occurred on a nearly daily basis during World War II training maneuvers. Private planes a sign of 1950s prosperity also met tragic ends. These epic incidents include the 1971

tragedy of Flight 706 in which an airliner collided with a marine fighter jet above Mount Bliss killing fifty people. Renowned aircraft crash search specialist G. Pat Macha recounts dozens of sorrowful, triumphant, and surprising true stories of those who lived through these ordeals while offering touching tributes to those who did not.

Historic Aircraft Wrecks of San Bernardino County G. Pat Macha, 2013-09-24. Weather, darkness, and twists of fate have contributed to more than three hundred airplane crashes in San Bernardino County, California. Many of these accidents occurred in the vast Mojave Desert, others on the cloud-shrouded snow-capped mountains of the largest county in the lower forty-eight states. Searches often were labored yet fruitless, even for the privileged. Frank Sinatra's mother perished here in a downed plane. The quest for an aircraft containing \$500,000 in cash has become the stuff of legend. Tales of survival in uninhabited rugged landscapes have been especially harrowing. Join renowned aircraft crash search specialist G. Pat Macha for dozens of sorrowful, triumphant, touching, and surprising true stories of those who lived through the ordeals of plane crashes and others who didn't.
