Regions and National Integration in Thailand, 1892-1992 Volker Grabowsky, 1995 Contains the papers presented at the Sixth International Symposium on Southeast Asia Studies at Passau University in June 1992 Pref Turbulent Times and Enduring Peoples Jean Michaud, Jan Ovesen, 2013-12-16 Scattered across the South East Asian massif a few dozen ethnic groups numbering around 50 million maintain highly original cultural identities and political and economic traditions against pressure from national majorities They face the same challenges The means by which social change has been imposed by the lowlanders are similar from country to country and the results are comparable The originality of this book lies in the combination of multi disciplinary mixing of social anthropology history and human geography multi culturality grouping together several cultural contexts trans nationality straddling five countries and bridging the traditional divide between South China and Mainland South East Asia and history reaching back 300 years Mien Relations Hjørleifur

Jonsson, 2018-07-05 Thailand's hill tribes have been the object of anthropological research cultural tourism and government intervention for a century in large part because these groups are held to have preserved distinctive ethnic traditions despite their contacts with modern culture Hjørleifur Jonsson rejects the conventional notion that the worlds of traditional peoples are being transformed or undone by the forces of modernity Among the Mien people of northern Thailand he finds a complex highlander identity that has been shaped by a thousand years of interaction in a multiethnic contact zone In Mien Relations Jonsson suggests that as early as the thirteenth century the growing influence of Chinese and Thai state authority had led to a peculiarly urban understanding of the hinterlands the forests and the mountains as an area beyond state control and the rhetoric of civilization Mountain peoples became understood as a distinct social type an idea elaborated by government classification systems in the late nineteenth and early twentieth centuries Their discovery by Western anthropologists is he suggests merely one more episode influencing Mien identity Jonsson questions traditional ethnography's focus on fieldwork and personal observation and its concomitant blindness to political manipulation and to historical formation Throughout Mien Relations he revisits long neglected connections between China and Southeast Asia combines ancient history and contemporary ethnography engages with the serious politics of representation without abandoning the quest to write ethnographically about particular communities and keeps state control in view without assuming its success or coherence

Living at the Edge of Thai Society Claudio Delang, 2004-03-01 The Karen are one of the major ethnic minority groups in the Himalayan highlands living predominantly in the border area between Thailand and Burma As the largest ethnic minority in Thailand they have often been in conflict with the Thai majority This book is the first major ethnographic and anthropological study of the Karen for over a decade and looks at such key issues as history ethnic identity religious change

the impact of government intervention education land management and gender relations **The Lisu** Michele Zack,2017-12-01 This book brings the ironic worldview of the Lisu to life through vivid often amusing accounts of individuals communities regions and practices One of the smallest and last groups of stateless people and the most egalitarian of all Southeast Asian highland minorities the Lisu have not only survived extremes at the crossroads of civil wars the drug trade and state sponsored oppression but adapted to modern politics and technology without losing their identity The Lisu weaves a lively narrative that condenses humanity s transition from border free tribal groupings into today s nation states and global market economy Journalist and historian Michele Zack first encountered the Lisu in the 1980s and conducted research and fieldwork among them in the 1990s In 2014 she again traveled extensively in tribal areas of Thailand Myanmar and China when she documented the transformative changes of globalization Some Lisu have adopted successful new urban occupations in business and politics while most continue to live as agriculturists far from the ruler The cohesiveness of Lisu culture has always been mysterious they reject hierarchical political organization and traditionally had no writing system yet their culture provides a particular skillset that has helped them navigate the terrain of the different religious and political systems they have recently joined They ve made the transition from living in lawless self governing highland peripheries to becoming residents and citizens of nation states in a single generation Ambitious and written with journalist s eye for detail and storytelling The Lisu introduces the unique and fascinating culture of this small Southeast Asian minority Their path to national and global citizenship illustrates the trade offs all modern people have made and their egalitarian culture provides insight into current political choices in a world turning toward authoritarianism Transnational Dynamics in Southeast Asia Nathalie Fau,Sirivanh Khonthapane,Christian Taillard,2014 Since the 1990s regional organizations of the United Nations and international financial institutions have adopted a new dynamic of transnational integration within the framework of the regionalization process of globalization In place of the growth triangles of the 1970s a strategy based on transnational economic corridors has changed the scale of regionalization *Male and Female in Developing South-East Asia* Karim Wazir Wazir,2021-03-10 This provocative book seeks to redress inaccuracies in Western perceptions of gender relations in Southeast Asia by bringing to the fore the area s ethnic and cultural variance and showing how women and men explain the informal and psychological dimensions of relationships as vital in holding family neighbourhood and kinship ties together Although there are differences between male and female perceptions of sex roles in society women perceive their situation as disadvantaged rather than less significant Male female interpretations of power and status tend to converge usually towards the understanding that the contributions of men and women are equally important in the formation of family and society *Historical Dictionary of the Peoples of the Southeast Asian Massif* Jean Michaud,Margaret Byrne Swain,Meenaxi Barkataki-Ruscheweyh,2016-10-14 Dwelling in the highland areas of Northeast India Bangladesh Southwest China Taiwan Burma Myanmar Thailand Cambodia Vietnam Laos and Peninsular Malaysia are hundreds of peoples Together

their population adds up to 100 million more than most of the countries they live in Yet in each of these countries they are regarded as minorities This second edition of Historical Dictionary of the Peoples of the Southeast Asian Massif contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on about 300 groups the ten countries they live in their historical figures and their salient political economic social cultural and religious aspects This book is an excellent access point for students researchers and anyone wanting to know more

Cross-sectoral Policy Developments in Forestry Yves C. Dubé, Franz Schmithüsen, 2014-05-14 Forestry practices are closely linked to decisions that address measures on climate change biodiversity and the institutional framework for sustainable development This book documents the progress made in creating the political economic and social conditions that are necessary for a sustainable and multifunctional use of forest resources Forest Recollections Tiyanich Kamala, 1997-03-01 I stayed in the forest for two nights The first night nothing happened The second night at about one or two in the morning a tiger came which meant that I didn't get any sleep the whole night I sat in meditation scared stiff while the tiger walked around and around my umbrella tent klot My body felt all frozen and numb I started chanting and the words came out like running water All the old chants I had forgotten now came back to me thanks both to my fear and to my ability to keep my mind under control I sat like this from 2 until 5 a m when the tiger finally left A forest monk During the first half of this century the forests of Thailand were home to wandering ascetic monks They were Buddhists but their brand of Buddhism did not copy the practices described in ancient doctrinal texts Their Buddhism found expression in living day to day in the forest and in contending with the mental and physical challenges of hunger pain fear and desire Combining interviews and biographies with an exhaustive knowledge of archival materials and a wide reading of ephemeral popular literature Kamala Tiyanich documents the monastic lives of three generations of forest dwelling ascetics and challenges the stereotype of state centric Thai Buddhism Although the tradition of wandering forest ascetics has disappeared a victim of Thailand's relentless modernization and rampant deforestation the lives of the monks presented here are a testament to the rich diversity of regional Buddhist traditions The study of these monastic lineages and practices enriches our understanding of Buddhism in Thailand and elsewhere *A History of the Hmong* Thomas S. Vang, 2008 This is the first completely up to date Hmong history book ever written by a member of the Hmong people It describes the earliest civilizations of the Hmong and Miao in China and why some of the Hmong migrated into Southeast Asia in the early 19th century particularly to Vietnam Laos and Thailand and how the Hmong of Laos were involved with the Lao civil war especially the secret war from 1962 to 1975 that caused almost a hundred thousand Hmong to flee to Thailand and Western countries as political refugees after the Communists takeover This book includes the forcible repatriation of the Lao Hmong asylum seekers at Nam Khao refugee camp in Thailand back to Laos in late 2009 and the arrest and discharge of former General Vang Pao by the U S authorities It is full of fascinating materials and a wonderful book Congratulations commented by Dr Nicholas C T Tapp
