Hippo Leaves Home Roger Hargreaves, 1981-01-01 Tired of being taken for granted by Potto and Mouse Hippo decides to leave home

Ogilo and the Hippo Asenath Odaga, 1991 First published in Dholuo in 1983 this is the first English language edition of this story for children One morning Ogilo and his two friends discover a pregnant hippo stuck in a muddy hole The story centres around the boys secrecy to protect the hippo being killed by grown ups for meat and their efforts to save the hippo The fate of the poacher contains a moral tale

Last Horizons Peter Hathaway Capstick, 1988-12-15 Peter Hathaway Capstick first earned a name as an outdoor writer in the pages of such magazines as *Guns* describes the heart stopping sensation of sharing the immediate bush with several sickle clawed lions that most certainly were prone to argue and recounts his adventures bow fishing for exotic species in the piranha filled rivers of Brazil Capstick s experiences painfully gained and almost lost with the most dangerous of game are the yardsticks against which most modern exotic and hunting adventures are gauged The finely rendered drawings by Dino Paravano do justice to the text

A Hippo Love Story Karen Paolillo, 2014-05-02 When the threads that hold human society together unravel the animal kingdom suffers Karen Paolillo discovered this first hand in Zimbabwe when she developed a close connection with thirteen hippos in their natural habitat the Turgwe River Her mission to save these exceptional animals after they came under threat of drought land invasions and poachers developed into a beautiful African love story It is also the stirring tale of how one woman faced personal and financial adversities while ensuring the survival of a family of hippos with Bob a three ton bull as their leader With the establishment of the Turgwe Hippo Trust Karen has triumphed as guardian of the hippos and the animals have prospered ever since A Hippo Love Story shares this heroic journey of a nature lover who became an ally of one of Africa s most fearsome animal species

The Whole Story John E. Simkin, 1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences

The Pygmy Hippo Story Phillip T. Robinson, Gabriella L. Flacke, Knut M. Hentschel, 2017 Though the pygmy hippopotamus has been designated as a flagship species of West African forests meaning that by raising conservation efforts for a single species an entire ecological region could benefit very little research has been published on the animal They are solitary nocturnal and highly evasive and until recent developments in camera trap technology they were considered the least photographed large mammal species in the world The information currently available on this endangered species is scattered limited redundant and often inaccurate and no major volume exists as a resource for those interested in the conservation effort for the species until now Phillip Robinson and his coauthors provide a treatment of the natural history biology and ecology of the pygmy hippo along with a discussion of the rare animal s taxonomic niche and a summary of the research initiatives involving it up to this point The authors show the ways in which the pygmy hippo has come into contact with people in West African countries both in terms of ecological and cultural impact This creature has been the subject of local folktales and is treated as almost mythic in some regions

Information on issues related to captivity breeding and zoos is provided The book is heavily illustrated with original photographs and anatomic drawings The project should be of use to conservation biologists zoologists and natural history readers and will be the definitive single volume account of an animal that the scientific community has designated to be ecologically significant to West Africa ZooBorns! Andrew Bleiman,Chris Eastland,2011-04-05 A Classic Board Book edition of the bestselling and irresistible ZooBorns Pulled from the pages of the wildly popular ZooBorns blog this board book presents the most charming critters ever baby animals ranging from the adorable to the zany Featuring full color photographs on every page and a cozy text perfect for reading aloud this book is sure to become a must have for animal lovers of all ages especially perfect for small hands **Hippopotamus** Edgar Williams,2017-06-15 They are famously fat cumbersome lethargic and oddly charming for the way they lounge around half submerged in muddy pools all day Hippos are gregarious herbivores that don't much like the heat but as Edgar Williams shows in this colorful book they can also be quite ill tempered and their huge mouths sharp tusks and powerful jaws can cut a small boat right in half Taking readers into the swampy lands of Africa as well as a few other surprising places Hippopotamus tells the story of these iconic lumbering beasts As Williams recounts while Hippos are only found in Africa today they actually originated in Asia They are closer relatives to whales than to pigs or horses as previously thought And until the last Ice Age you could find them as far north as Europe Today the common hippo is confined to south central and east Africa and its mysterious cousin the Pygmy Hippo is only found in the forests of Sierra Leone From these natural confines Williams explores how hippos have lived in much wider regions of the human imagination from the hippo deity Taweret in Ancient Egypt to Obaysch the first living hippo exhibited in the London Zoo in the nineteenth century whom Charles Dickens called our illustrious stranger A fascinating history of the hippo in natural and human history this book also serves as a call for conservation efforts to protect this vulnerable animal

Folktales Volume 1: All About Tortoise Emma Umana Clasberry,2018-09-20 This book contains sixty five old time bedtime stories Two opposite faces of Tortoise's character are revealed here the good and the bad Tortoise once loved and respected for his kindness hard work persistence patience wisdom and super intelligence to dig out and solve the toughest puzzles or the most difficult and mysterious problems is the same Tortoise who lost all that to lying tricking selfishness revengefulness greed stealing jealousy and exploiting others weaknesses under the pretense of helping when he is actually out to hurt those he claims to help so as to achieve his goals Parents teachers or others who use these stories for moral and life skills education should emphasize genuine moral values or virtues and also point out that how one gets to one's goal should be as morally sound as the goal itself So their discretion is crucial when addressing moral relativism if any is obvious
