## EXPANDING FRONTIERS OF SETTLEMENT IN LATIN AMERICA—A PROSPECT FOR FUTURE STUDY\*

The part of America in which Latin culture predominates is, in general, not densely populated. In fact, Latin America which makes up about seventeen per cent of the land area of the world is occupied by only about six per cent of the world's population. For students of statistics, including historians and geographers, two problems are more fundamental than those related to an understanding of these facts of human distribution. Why are there not more people in Latin America? Why are there no few frontiers of expanding settlement? Why are most of the pioneer colonists of the southern continent recruited either directly from overseas, or in such numbers from the older areas of settlement that the latter suffer a decline in population?

Of great significance to the problems of population density are the few regions of expanding frontiers of settlement. Excluding the West Indian, where island populations create special problems, there are four parts of mainland Central and South America where pioneer expansion is taking place essentially without support from foreign immigration and also without the accompanying depopulation in the older settlements—in other words, there are four frontiers which are not hollow. These regions include the highlands of Costa Rica, the highlands of Antioquia in Colombia, Middle Chile, and the three southern states of Brazil.

The factors which have combined to produce the phenomenon of expanding settlement in these four regions are not

Wilber A. Chaffee, Beecher C. Ellison, 1980 *Creating A World Economy* Alan K. Smith, 2019-04-02 This is an exploration in world history that examines complex and intriguing questions concerning the origins of the first truly global economy centered in Europe which served in turn as a solid basis for the later emergence of the modern world system Professor Smith first examines the remarkable progress achieved by many cultures around the world achievements that for some time far exceeded anything then found in Europe The study then probes beyond traditionalism as a sufficient explanation of the inability of these societies to maintain the economic momentum that had begun so auspiciously and carefully examines the experience of European societies by way of comparison finding that remarkably similar processes tended to unfold at first regions of Europe that made the earliest gains in material progress were like other parts of the world unable to sustain these advances Still in some parts of Europe particularly the Netherlands and England a new alignment of social forces was yielding the social system that would eventually evolve into capitalism This breakthrough allowed for continued dynamic material progress particularly for the English Able to establish an unprecedented commercial dominance in vast reaches of the world the British found themselves at the hub of a new world economy much more complex than any earlier intercultural commercial system The book delineates the systemic roles assumed by the various regions of the world and by European merchant capital and explains the tensions within this system that ensured its continued dynamism and eventual transformation into the current world economic system *Creating a World Economy* combines an epic sweep with a mastery of historical detail and is sure to stimulate discussion among sociologists and historians interested in questions of a global nature

**The Cyborg Caribbean** Samuel Ginsburg, 2023-08-11 *The Cyborg Caribbean* examines a wide range of twenty first century Cuban Dominican and Puerto Rican science fiction texts arguing that authors from Pedro Cabiya Alexandra Pagan Velez and Vagabond Beaumont to Yasmin Silvia Portales Erick Mota and Yoss Haris Durrani and Rita Indiana Hernandez among others negotiate rhetorical legacies of historical techno colonialism and techno authoritarianism The authors span the Hispanic Caribbean and their respective diasporas reflecting how science fiction as a genre has the ability to manipulate political borders As both a literary and historical study the book traces four different technologies electroconvulsive therapy nuclear weapons space exploration and digital avatars that have transformed understandings of corporality and humanity in the Caribbean By recognizing the ways that increased technology may amplify the marginalization of bodies based on race gender sexuality and other factors the science fiction texts studied in this book challenge oppressive narratives that link technological and sociopolitical progress

Frontier Road Simón Uribe, 2017-05-25 *Frontier Road* uses the history of one road in southern Colombia known

locally as the trampoline of death to demonstrate how state building processes and practices have depended on the production and maintenance of frontiers as inclusive exclusive zones often through violent means Considers the topic from multiple perspectives including ethnography of the state the dynamics of frontiers and the nature of postcolonial power space and violence Draws attention to the political environmental and racial dynamics involved in the history and development of transport infrastructure in the Amazon region Examines the violence that has sustained the state through time and space as well as the ways in which ordinary people have made sense of and contested that violence in everyday life Incorporates a broad range of engaging sources such as missionary and government archives travel writing and oral histories **Themes**

**in International Economics** Mats Lundahl,2018-12-07 First published in 1998 this collection of essays deals with four different areas of international economics the theory of international trade trade and development protectionism and factor movements notably migration and foreign aid These themes explore the determinants of trade patterns the relation between these patterns and those of underdevelopment and development the failure of protectionism to increase welfare and finally the impact of emigration on the source country and that of foreign aid on the recipient country **Materials of Culture**

Liedeke Plate,László Munteán,Airin Farahmand,2023-06-12 While the so called material turn in the humanities and the social sciences has inspired a vibrant discourse on objects things and the concept of materiality in general less attention has been paid to materials particularly in cultural studies scholarship With each of its chapters taking a particular material as its point of departure this volume offers a palette of fresh approaches to materials within the realm of cultural studies The contributors call for a materials based perspective on culture which has become all the more pertinent in times of climate change energy crisis conflict migration and the lingering coronavirus pandemic *The Economic Aspects of Spanish*

*Imperialism in America, 1492-1810* John Fisher,1998-06-01 This is the 2nd English edition of John Fisher s acclaimed book The study examines economic relations between Spain and Spanish America in the colonial period and their implications for the economic structures of both parties from the beginning of Spanish imperialism until the outbreak of the Spanish American revolutions for Independence Originally published in Spanish in 1992 the text has been fully revised for this first English edition Fisher begins with a general overview of the economic aspects of Spanish imperialism in America until the mid sixteenth century before considering what America was able to offer Spain and through her Europe as a whole in terms of products and resources A detailed explanation of imperial commercial policy follows and a close examination is made of inter colonial trade explaining ways in which it was articulated both directly and indirectly towards trans Atlantic structures The final four chapters of the book deal exclusively with the Bourbon era inaugurated in 1700 Issues tackled include the Spanish defeat at the hands of the British the impact of commercial reform upon economic life in America and Spanish Spanish American relations on the eve of the revolutions for Independence *The British Textile Trade in South America in*

Dictatorships in the Era of Fascism focuses on the reverse wave of dictatorships that emerged in Latin America during the 1930s and the transnational dissemination of authoritarian institutions in the era of fascism Ant nio Costa Pinto revisits the

study of authoritarian alternatives to liberal democracy in 1930s Latin America from the perspective of the diffusion of corporatism in the world of inter war dictatorships The book explores what drove the horizontal spread of corporatism in Latin America the processes and direction of transnational diffusion and how social and political corporatism became a central set of new institutions utilized by dictatorships during this era These issues are studied through a transnational and comparative research design to reveal the extent of Latin America s participation during the corporatist wave which by 1942 had significantly reduced the number of democratic regimes in the world This book is essential reading for students studying Latin American history 1930s dictatorships and authoritarianism and the spread of corporatism      **Sexuality and the**

**Unnatural in Colonial Latin America** Zeb Tortorici, 2016-02-09 The essays in this book examine how the unnatural came to inscribe certain sexual acts and desires as criminal and sinful including acts officially deemed to be against nature sodomy bestiality and masturbation along with others that approximated the unnatural hermaphroditism incest sex with the devil solicitation in the confessional erotic religious visions and the desecration of holy images      **Global Legal History** Joshua

C. Tate, José Reinaldo de Lima Lopes, Andrés Botero-Bernal, 2018-12-07 This collection brings together a group of international legal historians to further scholarship in different areas of comparative and regional legal history Authors are drawn from Europe Asia and the Americas to produce new insights into the relationship between law and society across time and space The book is divided into three parts legal history and legal culture across borders constitutional experiences in global perspective and the history of judicial experiences The three themes and the chapters corresponding to each provide a balance between public law and private law topics and reflect a variety of methodologies both empirical and theoretical The volume highlights the gains that may be made by comparing the development of law in different countries and different time periods The book will be of interest to an international readership in Legal History Comparative Law Law and Society and History      Routledge Handbook of Afro-Latin American Studies Bernd Reiter, John Antón Sánchez, 2022-11-08 This

Handbook provides a comprehensive roadmap to the burgeoning area of Afro Latin American Studies Afro Latins as a civilization developed during the period of slavery obtaining cultural contributions from Indigenous and European worlds while today they are enriched by new social configurations derived from contemporary migrations from Africa The essays collected in this volume speak to scientific production that has been promoted in the region from the humanities and social sciences with the aim of understanding the phenomenon of the African diaspora as a specific civilizing element With contributions from world leading figures in their fields overseen by an eminent international editorial board this Handbook features original authoritative articles organized in four coherent parts Disciplinary Studies Problem Focused Fields Regional and Country Approaches Pioneers of Afro Latin American Studies The Routledge Handbook of Afro Latin American Studies will not only serve as the major reference text in the area of Afro Latin American Studies but will also provide the agenda for future new research      Latin American State Building in Comparative Perspective Marcus J. provides an account of long run institutional development in Latin America that emphasizes the social and political foundations of state building processes      *Capitalism from Above and Capitalism from Below* T. Byres, 1997-01-12 The distinction between capitalism from above and capitalism from below is important in the analysis of the agrarian question in poor countries The Prussian path and the American path are here examined against existing historical scholarship Their unfolding from their earliest roots to the point of final agrarian transition in the nineteenth and twentieth centuries is considered The dialectic between social relations and productive forces mediated as it was by the state is treated and the implications for capitalist industrialisation scrutinised      **The Japanese Community in Brazil, 1908 - 1940 S.** Lone, 2001-10-31 On the eve of the Pacific war 1941-45 there were 198 000 Japanese in Brazil the largest expatriate body outside East Asia Yet the origins of this community have been obscured The English language library is threadbare while Japanese scholars routinely insist that life outside of Japan was filled with shock and hardship so that as one historian asserted their bodies were in Brazil but their minds were always in Japan This study redraws the world of the overseas Japanese Using the Japanese language press of Brazil it explains the development of a community with its own often aggressively independent or ironic views of identity institutions education leisure and on Japan itself Emphasising the success of Japanese migrants and the openness of Brazilian society it challenges the perceived wisdom that contact between Japanese and other peoples was always marked by hostility and racism
