**Byzantine Art** Robin Cormack, 2018-03-10 The opulence of Byzantine art with its extravagant use of gold and silver is well known. Highly skilled artists created powerful representations reflecting and promoting this society and its values in icons, illuminated manuscripts and mosaics and wallpaintings placed in domed churches and public buildings. This complete introduction to the whole period and range of Byzantine art combines immense breadth with interesting historical detail. Robin Cormack overturns the myth that Byzantine art remained constant from the inauguration of Constantinople its artistic centre in the year 330 until the fall of the city to the Ottomans in 1453. He shows how the many political and religious upheavals of this period produced a wide range of styles and developments in art. This updated colour edition includes new discoveries, a revised bibliography and in a new epilogue a rethinking of Byzantine Art for the present day

**The Sainte-Chapelle and the Construction of Sacral Monarchy** Meredith Cohen, 2015 This book offers a novel perspective on one of the most important monuments of French Gothic architecture the Sainte Chapelle constructed in Paris by King Louis IX of France between 1239 and 1248 especially to hold and to celebrate Christ's Crown of Thorns. Meredith Cohen argues that the chapel's architecture, decoration and use conveyed the notion of sacral kingship to its audience in Paris and in greater Europe thereby implicitly elevating the French king to the level of suzerain and establishing an early visual precedent for the political theories of royal sovereignty and French absolutism. By setting the chapel within its broader urban and royal contexts this book offers new insight into royal representation and the rise of Paris as a political and cultural capital in the thirteenth century
