Histoire Des Stimulants:

Histoire des stimulants Wolfgang Schivelbusch, 1991 **A History of Fatigue** Georges Vigarello, 2022-10-14 Stress burn out mental overload the twentieth and twenty first centuries have witnessed an unrelenting expansion of the meaning of fatigue The tentacles of exhaustion insinuated themselves into every aspect of our lives from the workplace to the home from our relationships with friends and family to the most intimate aspects of our lives All around us are the signs of a burn out society a society in which fatigue has become the norm How did this happen This pioneering book explores the rich and little known history of fatigue from the Middle Ages to the present Vigarello shows that our understanding of fatigue the words used to describe it and the symptoms and explanations of it have varied greatly over time reflecting changing social mores and broader aspects of social and political life He argues that the increased autonomy of people in Western societies whether genuine or assumed the positing of a more individualized self and the ever expanding ideal of independence and freedom have constantly made it more difficult for us to withstand anything that constrains or limits us This painful contradiction causes weariness as well as dissatisfaction Fatigue spreads and becomes stronger imperceptibly permeating everything seeping into ordinary moments and unexpected places Ranging from the history of war religion and work to the history of the body the senses and intimacy this history of fatigue shows how something that seems permanently centered in our bodies has over the course of centuries also been ingrained in our minds in the end affecting the innermost aspects of the self **The Epoch of Universalism 1769-1989 / L'époque de l'universalisme 1769-1989** Franck Hofmann, Markus Messling, 2020-11-23 2019 witnessed the 30th anniversary of the German reunification But the remembrance of the fall of the Berlin Wall coincided with another event of global importance that caught much less attention the 250th anniversary of Napoleon Bonaparte's birth There is an undeniable historical and philosophical dimension to this coincidence Napoleon's appearance on the scene of world history seems to embody European universalism soon thereafter in the form of a modern imperial project whilst scholars such as Francis Fukuyama saw in the events of 1989 its historical fulfilment Today we see more clearly that the fall of the Berlin Wall stands for an epistemic earthquake which generated a world that can no longer be grasped through universal concepts Here we deal with the idea of Europe and of its relation to the world itself Picking up on this contingency of world history with an ironic wink the volume analyses in retrospect the epoch of European universalism It focusses on its dialectics polemically addressing and remembering both 1769 and 1989 L'anné e 2019 a t marqu é par le 30e anniversaire de la r unification de l Allemagne clipsant un autre v nement d envergure mondiale le 250e anniversaire de Napolé on Bonaparte La dimension philosophico historique de cette co ncidence ne peut pourtant pas tre n glig é si l arriv é de Bonaparte sur la sc ne de l histoire mondiale semble incarner l av nement de l universalisme europ é n bient t amen prendre sa forme moderne et imp riale certains penseurs ont sugg é r avec Francis Fukuyama que 1989 marquait son accomplissement historique Aujourd'hui il appara t au contraire que la chute du mur de Berlin a t un v ritable
