Histoire Du Montsaintmichel:

Histoire du Mont Saint-Michel et de l'ancien diocèse d'Avranches Jean Jacques Desroches, 1838 **Dictionnaire des Batailles navales franco-anglaises** Jean-Claude Castex, 2012 **Histoire du Mont-Saint-Michel au péril de la mer et du Mont-Tombelaine** Deschamps du Manoir, 1877 **How France Built Her Cathedrals** Elizabeth Boyle O'Reilly, 1921 *Barricades* J. Harsin, 2002-07-18 Between 1830 and 1848 Paris was rocked by two successful revolutions three failed insurrections and seven serious assassination attempts against King Louis Phillippe and his sons The June Days of 1848 the worst urban insurrection in history until that time finally brought this period to a close Using a wide variety of sources including detailed court records and hundreds of depositions of witnesses and suspects Jill Harsin examines revolutionary republicanism during the violent underground movement of the July Monarchy and describes these events in vivid detail The lives of ordinary men are captured in their own words as Harsin illuminates the political aspirations of the working class Harsin s original writing style and compelling discussions shed new light on the particular turbulence of this era a period of disruption that stemmed from the contemporary working class codes of masculinity and honour **The Architecture of Mont.-St.-Michel (1203-1228) ...** Edward Francis Hunt, 1928 *Abbayes et prieures de l'ancienne France* Beaunier (Benedictine monk), 1914 **Archives de la France monastique** , 1914 *Abbayes et prieurés de l'ancienne France* Charles Beaunier, 1914 *Abbatial Authority and the Writing of History in the Middle Ages* Benjamin Pohl, 2023-08-22 This book argues that abbatial authority was fundamental to monastic historical writing in the period c 500 1500 Writing history was a collaborative enterprise integral to the life and identity of medieval monastic communities but it was not an activity for which time and resources were set aside routinely Each act of historiographical production constituted an extraordinary event one for which singular provision had to be made workers and materials assigned time carved out from the monastic routine and licence granted This allocation of human and material resources was the responsibility and prerogative of the monastic superior Drawing on a wide and diverse range of primary evidence gathered from across the medieval Latin West this book is the first to investigate systematically how and why abbots and abbesses exercised their official authority and resources to lay the foundations on which their communities historiographical traditions were built by themselves and others It showcases them as prolific authors patrons commissioners project managers and facilitators of historical narratives who not only regularly put pen to parchment personally but also and perhaps more importantly enabled others inside and outside their communities by granting them the resources and licence to write Revealing the intrinsic relationship between abbatial authority and the writing of history in the Middle Ages with unprecedented clarity Benjamin Pohl urges us to revisit and revise our understanding of monastic historiography its processes and its protagonists in ways that require some radical rethinking of the medieval historian s craft in communal and institutional contexts **The New Historians of the Twelfth-century Renaissance** Peter Damian-Grint, 1999 Examination of the striking new style of writing

history in the twelfth century by men such as Gaimar Wace and Ambroise The mid twelfth century saw the sudden appearance of a remarkable group of writers the new historians authors such as Geffrei Gaimar Beno t de Sainte Maure Wace Jordan Fantosme and Ambroise who were the earliest historicalwriters to use French Each had his own style and authorial persona yet together despite their considerable differences they pioneered a common form of historical writing which is quite distinct from the styles of previous vernacular writers This book studies some of the more characteristic elements of the common style used by the vernacular historians Their detached and self conscious authorial presentation is particularly notable it is seen both in the prologues and epilogues to their works where they present their source materials as reliable themselves as serious scholars and their works as worthy of belief and constantly throughout the text as the historians direct audience response to their work The author shows how this historical style fits into both the vernacular and the Latin literature current in the period the vernacular historians borrowed elements from both the learnedand the popular traditions to produce their own successful and vigorous hybrid one which was still producing new shoots as late as the fifteenth century and which was widely copied and imitated by both writers of courtly romanceand by writers of prose history Dr PETER DAMIAN GRINT teaches at Brasenose College Oxford
