**Les Livres de L'année**, 1922 Les courants historiques en France François Dosse, Patrick Garcia, Christian Delacroix, 2005-07-01 2e édition L'opération historique ne peut plus tenir. Depuis un certain nombre d'années l'histoire fait retour sur elle-même pour interroger les notions en usage ce qui implique de la part de l'auteur comme du lecteur d'histoire de s'interroger sur ce que faire de l'histoire veut dire. De plus en plus on ressent la nécessité du détour historiographique afin de mieux s'approprier ce qui constitue l'originalité la singularité de la pratique historienne. On comprend alors l'irréductible pluralité de l'histoire en faisant passer Clio de l'autre côté du miroir dans une approche essentiellement réflexive. L'objet de cet ouvrage est donc d'inviter son lecteur à un parcours qui le conduit à s'interroger sur la place centrale attribuée à l'histoire depuis la discontinuité majeure que symbolise la Révolution française de 1789 jusqu'à nos jours. Ce parcours se tend sur deux siècles le 19e et le 20e siècle et fait apparaître l'histoire comme se situant à la croisée des trois dimensions elle est le produit d'une part d'un lieu social marqué par l'institution historique et plus largement par sa relation au corps social d'autre part l'histoire est médiatisée par une technique des procédures d'analyse et des pratiques scientifiques enfin l'histoire est critiquée ce qui implique d'être attentif aux règles discursives de ses sources et de son nonciation sans pour autant s'enfermer dans la seule dimension du langage. Ce parcours veut ainsi rendre compte d'un processus d'autonomisation théorique professionnelle institutionnelle de la discipline historique en France dans ses avancées comme dans ses incertitudes. Ce processus est aussi celui de l'incessant combat des historiens pour défendre la visée de vérité d'un faire de l'histoire pluriel toujours plus confronté aux pressions des demandes sociales et aux exigences renouvelées de leur responsabilité sociale. Christian Delacroix agrégé d'histoire enseigne l'histoire contemporaine à l'université de Marne La Vallée François Dosse agrégé d'histoire professeur des universités IUFM de Versailles Patrick Garcia agrégé d'histoire maître de conférences à l'IUFM de Versailles. Tous trois co-animent la revue *Espaces Temps* et sont chercheurs associés à l'IHTP Institut d'histoire du temps présent. La naissance de l'histoire contemporaine. Le moment méthodique. Le moment de l'histoire science sociale des années 1920 aux années 1940. L'histoire sociale la française son apogée. Labrousse Braudel Expansion et fragmentation la nouvelle histoire. Une crise de l'histoire. Les années 1980 1990.

**Heidegger and French Philosophy** Tom Rockmore, 2002-09-11 Martin Heidegger s impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger s thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the

master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken Sartre, Self-formation, and Masculinities Jean-Pierre Boulé, 2005 Published on the occasion of Sartre's Centenary this book helps to understand the man behind the work offering a psycho social analysis of Jean Paul Sartre with an emphasis on his masculinity It sets out to contextualize Sartre in terms of his psycho sexual formation and processes of self constitution in view of his childhood The main period under detailed study is 1905-1945 before Sartre became the Sartre It concentrates on his early childhood his teenage years in La Rochelle the years at the Ecole Normale and the first few years of his adulthood with specific attention on the war years An analysis of Sartre's relationships follows with Simone de Beauvoir and other women and men including love and sex before a postscript covering the period 1973-1980 This essay is not a reductive account It tells the story of Jean Paul Sartre from the inside out so that the achievements of one of the major intellectuals of the 20th Century can be measured against his own internal struggles The End of Empires and a World Remade Martin Thomas, 2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal empire and the acceleration of global integration market reorganization cultural exchange and migration The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North-South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade Thomas offers a masterful analysis of the greatest process of state making and empire unmaking in modern history *British Film Institute Film Classics* Rob White, Edward Buscombe, 2003 The Dative William van Belle, Willy van Langendonck, 1998-01-01 This book is the second part of a two volume reader on the Dative In the first part which appeared in 1996 eleven papers were presented providing a syntactic and semantic description of the category Dative in eleven languages The aim of this second part is to discuss several aspects of the Dative in greater detail It contains eight
