Historian History:

In Retrospect: the History of a Historian Arthur M. Schlesinger, 1963 **The Historians' Paradox** Peter Charles Hoffer, 2008-11

How do we know what happened in the past? We cannot go back and no amount of historical data can enable us to understand with absolute certainty what life was like then. It is easy to demolish the very idea of historical knowing but it is impossible to demolish the importance of historical knowing. In an age of cable television pundits and anonymous bloggers dueling over history the value of owning history increases at the same time as our confidence in history as a way of knowing crumbles. Historical knowledge thus presents a paradox: the more it is required the less reliable it has become. To reconcile this paradox that history is impossible but necessary Peter Charles Hoffer proposes a practical workable philosophy of history for our times: one that is robust and realistic and that speaks to anyone who reads, writes and teaches history. The philosophy of history that Hoffer supports in *The Historians Paradox* is driven by a continual and careful search for the authentic but without confining the real to a finite or closed set of facts. Hoffer urges us to think and live with a keen awareness that history is everywhere; to accept the impossibility of measuring its reliability but to never approach it unquestioningly. Covering a sweeping range of philosophies from ancient history to game theory, methodological approaches to writing history and the advantages and disadvantages of different strategies of argument Hoffer constructs a philosophy of history that is reasonable, free of fallacy and supported by appropriate evidence that is itself tenable. *The Historians Paradox* brings together accounts of actual historical events, anecdotes about historians, insights from philosophers of history and the personal experience of a long time scholar and teacher. Throughout Hoffer liberally spices the mixture with humor to create a philosophy of history for our times. publisher *The Historian's Toolbox* Robert C. Williams, 2024-09-19

Now in its fifth edition *The Historian's Toolbox* is designed to help students become skilled in the intellectual process and craft of history offering an overview of the field and techniques for reading and writing about history. The fifth edition expands the selection of tools available to students entering the workshop of history. These include new chapters on digital history, Indigenous peoples and gender history and new sections on the Voynich manuscript, LGBTQ history, slavery and a historian who survived the war in Ukraine. The book has been fully updated to address the possibilities and limits of computerized approaches to doing history with careful attention paid to the benefits and controversies of artificial intelligence chatbots and the internet. It demonstrates the continuing relevance of history in a cacophonous world of misinformation and censorship emphasizing critical thinking, facts and evidence as valuable means of understanding the past and shaping the future. Engaging and accessible this volume is ideal for undergraduate courses in historiography and historical methods. *The Historian's Toolbox* Robert Chadwell Williams, 2007

What Is History? Edward Hallett Carr,1967-10-12 Who is to say how things really were In formulating a modern answer to the question What is History Professor Carr shows that the facts of history are simply those which historians have selected for scrutiny Millions have crossed the Rubicon but the historians tell us that only Caesar's crossing was significant All historical facts come to us as a result of interpretative choices by historians influenced by the standards of their age Yet if absolute objectivity is impossible the role of the historian need in no way suffer nor does history lose its fascination With lucidity Carr casts a light on the proper function of the historian and the vital importance of history in modern society This is an admirably stimulating and intrepid book a bold excursion into a region of central importance where most contemporary philosophers and historians unaccountably either fear or disdain to tread Isaiah Berlin New Statesman

Writing the History of Mount Lebanon Mouannes Hojairi,2021-10-05 A meticulous deconstruction of Maronite history writing and the ways in which Lebanese nationalist myths have been invented and perpetuated by historians As a frequently

contested territory Mount Lebanon has an equally contested history one that is produced shaped and revised by as many players as those who molded the Lebanese state since its inception in 1920 The Lebanese Maronite Church has had more at stake in the process of history writing than any other group or institution It is arguably one of the most influential institutions in Lebanese history and definitely the most influential institution in the country at the moment of the state s birth Writing the History of Mount Lebanon traces the genealogy of Maronite identity by examining the historical traditions that shaped its contemporary manifestation It explores the presence of a tradition in Maronite Church historiography that was maintained by the historians of the Church whose claims and hypotheses ultimately defined the communal identity of the Maronites in Mount Lebanon and deeply influenced subsequent Lebanese national identity Rooted in a reexamination of the existing literature and bringing evidence to bear on this particular aspect of history writing in Lebanon it shows how early Maronite ecclesiastic historiography s plea for inclusion as a part of Catholic orthodoxy was transformed and recast in subsequent centuries by lay and secular historians into a demand for exclusion and exclusivity which in turn led to the rise of exclusivist political identities based on sectarian belonging in Mount Lebanon Ultimately Mouannes Hojairi shows how history writing is one of the main instruments in generating and perpetuating nationalist ideologies and how historians are central agents of nationality
