Smith,1985 **The British Army, the Gurkhas and Cold War Strategy in the Far East, 1947-1954** Raffi Gregorian,2002-05-10 This book argues that postwar Britain's imperial over extension has been exaggerated Britain developed and adjusted its defence strategy based upon the perceived Communist threat and available resources It was especially successful at adapting to meet the strategic and resource challenges from the Far East from 1947-54 There British and Gurkha forces were deployed only in contingencies that threatened vital British interests while the U S and Commonwealth allies were persuaded to accept key wartime missions thus preserving Britain's ability to fight in Western Europe *World War II in the Pacific* Stanley Sandler,2003-12-16 Stanley Sandler one of America's most respected and best known military historians has brought together over 300 entries by some 200 specialists in the field to create the first encyclopedia specifically devoted to the Pacific Theatre of World War II Extending far beyond battles and hardware the coverage ranges from high policy making grand strategy and the significant persons and battles of the conflict to the organization of the Allied and Japanese divisions aircraft armor artillery psychological warfare warships and the home fronts covering the interactions of each topic along the way *Imperial Warriors* Tony Gould,2000 A comprehensive history of the Gurkhas which remains to this day a unique and much loved regiment and which played a crucial role in the British Empire *Martial races* Heather Streets,2017-03-01 This book explores how and why Scottish Highlanders Punjabi Sikhs and Nepalese Gurkhas became identified as the British Empire's fiercest most manly soldiers in nineteenth century discourse As martial races these men were believed to possess a biological or cultural disposition to the racial and masculine qualities necessary for the arts of war Because of this they were used as icons to promote recruitment in British and Indian armies a phenomenon with important social and political effects in India in Britain and in the armies of the Empire *Martial Races* bridges regional studies of South Asia and Britain while straddling the fields of racial theory masculinity imperialism identity politics and military studies Of particular importance is the way it exposes the historical instability of racial categories based on colour and its insistence that historically specific ideologies of masculinity helped form the logic of imperial defence thus wedding gender theory with military studies in unique ways Moreover *Martial Races* challenges the marginalisation of the British Army in histories of Victorian popular culture and demonstrates the army's enduring impact on the regional cultures of the Highlands the Punjab and Nepal This unique study will make fascinating reading for higher level students and experts in imperial history military history and gender history
