S. Joint Forces Command -- Mission Accomplished?*

Joint Forces Staff College, 2014-08-29 On August 9 2010 the Secretary of Defense announced a number of cost cutting recommendations to include the closure of U S Joint Forces Command in Norfolk VA As rationale for the recommendation to close U S Joint Forces Command the Secretary opined the U S military has largely embraced jointness as a matter of culture and practice The Secretary s recommendation to close the sole combatant command charged with advocating for jointness indicates either that U S Joint Forces Command has served its purpose and accomplished its mission or the command has become such an expensive undertaking within the Department of Defense the closure is a consequence of financial reform This paper will examine the recommendation to close U S Joint Forces Command whether jointness has been embraced across the Services and ultimately will challenge the decision to close U S Joint Forces Command **Department of**

from a mechanical point of view It explores how the mechanical constraints placed on the jaw have contributed to the evolution of an efficient basic structure used by many mammals which precludes mechanical difficulties and uses a minimum amount of bone tissue Throughout the book the emphasis is on conceptual understanding with explanations linked together to form a complete story that can be applied to both fossil and extant mammals Summarising over forty years of research from one of the leading pioneers in 3D jaw mechanics this is a must have for anyone interested in mammalian jaw morphology
