**Dutch Neorealism, Cinema, and the Politics of Painting, 1927-1945** Stephanie Lebas Huber, 2024-08-12 This study offers a radically new perspective on Dutch Neorealism one that emphasizes the role of film as an apparatus the effects of which when emulated in painting can reproduce the affective experience of film watching More of a tendency than a tightly defined style or ism Neorealism is the Dutch variant of Magic Realism an uncanny mode of figurative painting identified with Neue Sachlichkeit in Germany and Novecento in Italy Best represented by the Dutch artists Pyke Koch Carel Willink Charley Toorop Raoul Hynckes Dick Ket and Wim Schuhmacher Neorealism as demonstrated in this book depicted societal disintegration and allegories of looming disaster in reaction to the rise of totalitarian regimes and eventually the Nazi Occupation of The Netherlands The degree to which these artists exhibited either revolutionary or reactionary sentiments usually corresponding with their political affiliation is one of the central problematics explored in this text The book will be of interest to scholars working in art history World War II history and film studies The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license     Bulletin (1901-195 ) Brooklyn Public Library, 1912     *Beyond the Return of Religion: Art and the Postsecular* Lieke Wijnia, 2019-08-26 Beyond the Return of Religion Art and the Postsecular explores the conceptual potential of the postsecular for investigations of late modern art and religion Indicating a public co existence and merging of religion and the secular the postsecular is approached as an alternative to the return of religion narrative Rather than framing artistic concerns with religion as a recurrence after temporary absence Lieke Wijnia shows how the postsecular allows for seeing the interaction between art and religion as an enduring albeit transforming relationship of mutual nature Whereas secularization theories are intrinsically connected to modernity the postsecular requires a pluralized perspective covering the processes of secularization diversification and spiritualization The postsecular reinforces the interconnectedness of these processes which are in turn embodied in the concept's interdisciplinary nature While this book predominantly focuses on visual art and its institutional context of the museum the postsecular has interdisciplinary relevance for broader artistic and academic disciplines     **de Kooning** Mark Stevens, Annalyn Swan, 2006-04-04 Winner of the Pulitzer Prize and National Book Critics Award Circle Award An authoritative and brilliant exploration of the art life and world of an American master Willem de Kooning is one of the most important artists of the twentieth century a true painter's painter whose protean work continues to inspire many artists In the thirties and forties along with Arshile Gorky and Jackson Pollock he became a key figure in the revolutionary American movement of abstract expressionism Of all the painters in that group he worked the longest and was the most prolific creating powerful startling images well into the 1980s The first major biography of de Kooning captures both the life and work of this complex romantic figure in American culture Ten years in the

making and based on previously unseen letters and documents as well as on hundreds of interviews this is a fresh richly detailed and masterful portrait The young de Kooning overcame an unstable impoverished and often violent early family life to enter the Academie in Rotterdam where he learned both classic art and guild techniques Arriving in New York as a stowaway from Holland in 1926 he underwent a long struggle to become a painter and an American developing a passionate friendship with his fellow immigrant Arshile Gorky who was both a mentor and an inspiration During the Depression de Kooning emerged as a central figure in the bohemian world of downtown New York surviving by doing commercial work and painting murals for the WPA His first show at the Egan Gallery in 1948 was a revelation Soon the critics Harold Rosenberg and Thomas Hess were championing his work and de Kooning took his place as the charismatic leader of the New York school just as American art began to dominate the international scene Dashing handsome and treated like a movie star on the streets of downtown New York de Kooning had a tumultuous marriage to Elaine de Kooning herself a fascinating character of the period At the height of his fame he spent his days painting powerful abstractions and intense disturbing pictures of the female figure and his nights living on the edge drinking womanizing and talking at the Cedar bar with such friends as Franz Kline and Frank O Hara By the 1960s exhausted by the feverish art world he retreated to the Springs on Long Island where he painted an extraordinary series of lush pastorals In the 1980s as he slowly declined into what was almost certainly Alzheimer s he created a vast body of haunting and ethereal late work *Dutch Design* Mienke Simon Thomas,2008-12-15 Mienke Simon Thomas details the groundbreaking accomplishments and popular products of Dutch design in *Dutch Design Culture* **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included Annual Report Rubber Research Institute of Malaya,1929 Issues for 1932 40 include Report of the London Advisory Committee for Rubber Research Ceylon and Malaya The Art of Building Auke Van Der Woud,2017-10-23 This title was first published in 2002 In the second half of the 18th century philosophy provided the fundamental characteristics of architecture The architects of the 19th century then introduced the empirical comparative study of buildings This phenomenon has usually been regarded exclusively in terms of historicism but this is to underestimate the fact that they were architects The problems for which they sought solutions did not belong to the past but were part of their own age or the future The architecture of the past was to

H. Dekker, 2024-04-04 This book gives you the historical sensation of coming face to face with the bodily expression and regulation of children's emotions over time The study does this by encouraging you to look through the eyes of well known artists like Albrecht Dürer Domenico Ghirlandaio Jan Steen Antony van Dyck Rembrandt and Titian in early modern Europe and Jean Baptiste Simon Chardin Thomas Lawrence Jean Honor Fragonard Philipp Otto Runge Willem Bartel van der Kooi Paul Gauguin Auguste Renoir and Jozef Israëls in the late 18th and 19th centuries These sources are supplemented by works from less famous artists as well as popular emblem books child advice manuals observations from the emerging child sciences and personal documents Jeroen Dekker observes children's emotions mainly in the child's world and in the domestic emotional space and connects them with history's ongoing underlying discourse on education and the emotions This discourse was developed by theologians philosophers and moralists like Augustine Aquinas Erasmus Descartes Jacob Cats John Locke and Jean Jacques Rousseau by Romantic educationalists like Friedrich Fröbel and Ellen Key and by scientists like Charles Darwin and William James who emphasized the biological instead of the moral fundament of children's emotions The story of children's emotions is told in the context of cultural movements like the Renaissance Humanism the Reformation the Enlightenment Romanticism and the starting Age of Child Science *Children's Emotions in Europe 1500 1900* crucially highlights the continuous co existence of regulation oriented and child oriented educational views on children's emotions
