Jordan Strategy For Adjustment And Growth Imfs Occasional Paper:

Jordan International Monetary Fund, 2004-05-04 This Selected Issues paper and Statistical Appendix on Jordan underlies stabilization and structural transformation of the economy Current fiscal policy appears to be broadly sustainable and should be sufficient to allow for the continued fall in the debt burden absent large external macroeconomic shocks Over the past decade Jordan has made commendable progress in replacing an informal family based social safety system with well defined and well targeted social protection institutions The government will need to remain committed to periodic increases of fuel prices to close the gap between domestic and international petroleum product prices *Research Activities of the IMF, January 1991-December 1999* International Monetary Fund, 2000-01-01 Research activity in the IMF emphasizes the links between the organization's policy and operational concerns The main objectives of research is IMF staff understanding of policy and operational issues relevant to the institution and to improve the analytical quality of the work prepared for management and the Executive Board and the advice provided to member countries The scope of research in the IMF is defined by the purposes and functions of the institution In order to foster innovation and ensure quality control the IMF makes much of its research available outside the institution and encourages staff to interact with academia and other research organizations through conferences seminars and occasional joint research projects The visiting scholar's program has also enhanced the quality of research done in the IMF This program brings in leading members of the economics profession from around the world to assist in the preparation of papers for the Executive Board and to conduct research on IMF related issues **Research Activities of the IMF, January 1991-December 1998** International Monetary Fund, 1999-09-24 A selective index of major research papers prepared by IMF staff in 1991 98 **Building on Progress** International Monetary Fund, 1996-11-04 Countries in the Middle East and North Africa region have unprecedented opportunities for transforming their economies through accelerated economic growth but the countries themselves must ensure the necessary conditions This study by the Middle Eastern Department focuses on four areas that are fundamental to growth enhancing structural changes improving the region's investment performance fiscal reform financial sector reform and trade liberalization **Business as Usual?** Katherine Blue Carroll, 2003-01-01 Since the Jordanian State's establishment in 1921 Jordan's economy has predominantly relied on the financial support of other countries Such external funding known as rent was especially abundant between 1973 and 1989 when Jordan enjoyed an influx of petrodollars from the Gulf states However during the mid 1980's sharply falling oil prices coupled with a cut off of Jordan's credit in world markets created a budgetary crisis that severely threatened Jordan's distributive political economy In her perspicacious examination Katherine Blue Carroll explores the dynamic link between Jordan's business community and the state between 1983 and 2000 a period when declining rents and economic reform challenged the traditional rent based economy The Jordan case serves as a prime example of how state business relations can be restructured to accommodate the demands of a market

economy By methodically examining the timing content and process of the change in state business relations in Jordan Carroll provides the scholarly community with a pertinent and valuable resource IEO Report on the Evaluation of IMF Support to Jordan Tsidi M. Tsikata, International Monetary Fund.
