Cros, 2013-06-01 A revealing account of an artist whose enduring obsession with chance and coincidence shaped both his life and work Marcel Duchamp illuminates one of the most important and influential figures in all of modern art Drawing on the artist's own correspondence as well as interviews Paris based curator and art critic Caroline Cros explores the creative processes behind Duchamp's works including his famous anti sculptures the Readymades the enigmatic Grand Verre and the seductive disturbing Etant Donn's as well as the often hostile reception he encountered in Paris and around the world Cros also examines Duchamp's work after he abandoned his art at the age of thirty six Notoriously Duchamp claimed that he would dedicate the remainder of his life to chess but here we learn of his ongoing contributions to the art world including his intense involvement in museums foundations and surrealist publications With two major Dada exhibitions planned for 2006 at the National Gallery of Art in Washington D C and the Museum of Modern Art in New York Marcel Duchamp will be this year's ultimate guide to the master of the movement **Children's Stories and 'Child-Time' in the Works of Joseph Cornell**

**and the Transatlantic Avant-Garde** Analisa Leppanen-Guerra, 2017-07-05 Focusing on his evocative and profound references to children and their stories Children's Stories and Child Time in the Works of Joseph Cornell and the Transatlantic Avant Garde studies the relationship between the artist's work on childhood and his search for a transfigured concept of time This study also situates Cornell and his art in the broader context of the transatlantic avant garde of the 1930s and 40s Analisa Leppanen Guerra explores the children's stories that Cornell perceived as fundamental in order to unpack the dense network of associations in his under studied multimedia works Moving away from the usual focus on his box constructions the author directs her attention to Cornell's film and theater scenarios explorations dossiers and book objects One highlight of this study is a work that may well be the first artist's book of its kind and has only been exhibited twice Untitled Journal d Agriculture Pratique presented as Cornell's enigmatic tribute to Lewis Carroll's Alice books

**Marcel Duchamp and the Architecture of Desire** Penelope Haralambidou, 2017-03-02 While much has been written on Marcel Duchamp one of the twentieth century's most beguiling artists the subject of his flirtation with architecture seems to have been largely overlooked Yet in the carefully arranged plans and sections organising the blueprint of desire in the Large Glass his numerous pieces replicating architectural fragments and his involvement in designing exhibitions Duchamp's

fascination with architectural design is clearly evident As his unconventional architectural influences Niceron Lequeu and Kiesler and diverse legacy Tschumi OMA Webb Diller Scofidio and Nicholson indicate Duchamp was not as much interested in built architecture as he was in the architecture of desire re constructing the imagination through drawing and testing the boundaries between reality and its aesthetic and philosophical possibilities Marcel Duchamp and the Architecture of Desire examines the link between architectural thinking and Duchamp s work By employing design drawing and making the tools of the architect Haralambidou performs an architectural analysis of Duchamp s final enigmatic work Given 1 The Waterfall 2 The Illuminating Gas demonstrating an innovative research methodology able to grasp meaning beyond textual analysis This novel reading of his ideas and methods adds to but also challenges other art historical interpretations Through three main themes allegory visuality and desire the book defines and theorises an alternative drawing practice positioned between art and architecture that predates and includes Duchamp Dressing and Undressing Duchamp Ingrid E. Mida,2022-08-25

Fashion is a subject that has long been marginalized in art history and in museums And yet one of the most well known artists in the twentieth century Marcel Duchamp created works that challenge the notion that fashion does not belong in the museum As well there is material evidence of his engagement with clothing as part of his oeuvre This book reveals that clothing and dressing are significant themes that recur in Duchamp s life and his work including his drawings his fashioning of his body his readymades and in his curatorial gestures In examining the items of clothing worn by Duchamp and the related traces of his wardrobe management Duchamp is unmasked as a dandy His waistcoat readymade series Made to Measure 1957 1961 is in fact a remarkable and deliberate effort to recalibrate the definition of the readymade to include clothing With this little studied readymade series Duchamp established a precedent for sartorial art as a valid form of artistic expression In considering the material traces of Duchamp s fashioning of his body and identity in his work and life this book makes a highly original contribution to the understanding of Duchamp s work as well as the significance of the clothed body in the vanguard of Modernism Ultimately this book explains the relevance of fashion in the museum to modern audiences today **Displaying the Marvelous** Lewis Kachur,2001 How the exhibition spaces of Surrealism anticipated installation art

**Dark Toys** David Hopkins,2021-01-01 A wide ranging look at surrealist and postsurrealist engagements with the culture and imagery of childhood We all have memories of the object world of childhood For many of us playthings and images from those days continue to resonate Rereading a swathe of modern and contemporary artistic production through the lens of its engagement with childhood this book blends in depth art historical analysis with sustained theoretical exploration of topics such as surrealist temporality toys play nostalgia memory and 20th century constructions of the child The result is an entirely new approach to the surrealist tradition via its engagement with childish things Providing what the author describes as a long history of surrealism this book plots a trajectory from surrealism itself to the art of the 1980s and 1990s through to the present day It addresses a range of figures from Marcel Duchamp Giorgio de Chirico Max Ernst Hans

Bellmer Joseph Cornell and Helen Levitt at one end of the spectrum to Louise Bourgeois Eduardo Paolozzi Claes Oldenburg Susan Hiller Martin Sharp Helen Chadwick Mike Kelley and Jeff Koons at the other Art and Artifice in Visual Culture Sonia Coman, Vasile-Ovidiu Prejmerean, Michael Yonan, 2024-12-30 This edited volume explores the notion of artifice in modern visual culture ranging from the eighteenth century to the present in countries around the globe Artifice has been regarded as a primarily Western phenomenon playing as it does a central role in European art theory since the Renaissance This volume proposes that artifice is better understood as a transcultural artistic phenomenon and requires far broader conceptualization across international contexts It acquaints readers with works of art visual modes of communication and concepts originating in France Germany the United States Japan and China and includes painting sculpture drawings prints photographs film and virtual reality augmented reality VR AR objects Contributors demonstrate how practices of artifice function as both symbol and form in parallel and divergent ways in multiple cultural settings The book will be of interest to scholars working in art history visual culture and material culture Criminal Ingenuity Ellen Levy, 2011-05-13 Poetry was declining Painting advancing we were complaining it was 50 recalled poet Frank O Hara in 1957 Criminal Ingenuity traces a series of linked moments in the history of this transfer of cultural power from the sphere of the word to that of the image Ellen Levy explores the New York literary and art worlds in the years that bracket O Hara's lament through close readings of the works and careers of poets Marianne Moore and John Ashbery and assemblage artist Joseph Cornell In the course of these readings Levy discusses such topics as the American debates around surrealism the function of the token woman in artistic canons and the role of the New York City Ballet in the development of mid century modernism and situates her central figures in relation to such colleagues and contemporaries as O Hara T S Eliot Clement Greenberg Walter Benjamin and Lincoln Kirstein Moore Cornell and Ashbery are connected by acquaintance and affinity and above all by the possession of what Moore calls criminal ingenuity a talent for situating themselves on the fault lines that fissure the realms of art sexuality and politics As we consider their lives and works Levy shows the seemingly specialized question of the source and meaning of the struggle for power between art forms inexorably opens out to broader questions about social and artistic institutions and forces the academy and the museum professionalism and the market and that institution of institutions marriage Celibacies Benjamin Kahan, 2013-11-25 In this innovative study Benjamin Kahan traces the elusive history of modern celibacy Arguing that celibacy is a distinct sexuality with its own practices and pleasures Kahan shows it to be much more than the renunciation of sex or a cover for homosexuality Celibacies focuses on a diverse group of authors social activists and artists spanning from the suffragettes to Henry James and from the Harlem Renaissance's Father Divine to Andy Warhol This array of figures reveals the many varieties of celibacy that have until now escaped scholars of literary modernism and sexuality Ultimately this book wrests the discussion of celibacy and sexual restraint away from social and religious conservatism resituating celibacy within a history of political protest and artistic experimentation Celibacies offers

an entirely new perspective on this little understood sexual identity and initiates a profound reconsideration of the nature and constitution of sexuality      *Collage in Twentieth-Century Art, Literature, and Culture* Rona Cran,2016-05-23

Emphasizing the diversity of twentieth century collage practices Rona Cran s book explores the role that it played in the work of Joseph Cornell William Burroughs Frank O Hara and Bob Dylan For all four collage was an important creative catalyst employed cathartically aggressively and experimentally Collage s catalytic effect Cran argues enabled each to overcome a potentially destabilizing crisis in representation Cornell convinced that he was an artist and yet hampered by his inability to draw or paint used collage to gain access to the art world and to show what he was capable of given the right medium Burroughs formal problems with linear composition were turned to his advantage by collage which enabled him to move beyond narrative and chronological requirement O Hara used collage to navigate an effective path between plastic art and literature and to choose the facets of each which best suited his compositional style Bob Dylan s self conscious application of collage techniques elevated his brand of rock and roll to a level of heightened aestheticism Throughout her book Cran shows that to delineate collage stringently as one thing or another is to severely limit our understanding of the work of the artists and writers who came to use it in non traditional ways      **Birds of a Feather** Mary Clare McKinley,2018-01-22

Between 1953 and 1966 New York assemblage artist Joseph Cornell created more than twenty works in homage to Juan Gris specifically inspired by the Cubist s collage masterpiece The Man at the Caf 1914 Cornell s Gris boxes have as their centerpiece the image of a bird the great white crested cockatoo whose delightful and erudite connections to the Cubist s oeuvre and to Cornell s own hobbies love of music and distinctive approach to modern art are comprehensively documented here for the first time      **aka Marcel Duchamp** Anne Collins Goodyear,James W.
