A Kind of Testament Witold Gombrowicz, 2007 A Kind of Testament is part autobiography and part justification of the life's work of one of Poland's most important novelists and playwrights Written in France in 1968 this personal testimony is more than just a life history or a critique of his work A Kind of Testament stands as a testament to how Gombrowicz came to be the person and writer that he was and overlap between the two Translating War Angela Kershaw, 2018-07-20 This book examines the role played by the international circulation of literature in constructing cultural memories of the Second World War War writing has rarely been read from the point of view of translation even though war is by definition a multilingual event and knowledge of the Second World War and the Holocaust is mediated through translated texts Here the author opens up this field of research through analysis of several important works of French war fiction and their English translations The book examines the wartime publishing structures which facilitated literary exchanges across national borders the strategies adopted by translators of war fiction the relationships between translated war fiction and dominant national memories of the war and questions of multilingualism in war writing In doing so it sheds new light on the political and ethical questions that arise when the trauma of war is represented in fiction and through translation This engaging work will appeal to students and scholars of translation cultural memory war fiction and Holocaust writing Andrey Bely Gerald Janecek, 2021-11-21 Andrey Bely novelist essayist

theoretician critic and poet was a central figure in the Russian Symbolist movement of the 1920s the most important literary movement in Russia in this century Bely articulated a Symbolist aesthetic and originated a new approach to the study of Russian metrics and versification giving rise to a new scholarly discipline that still thrives in the West Although regarded by some critics including Vladimir Nabokov as the author of the greatest Russian novel of this century Bely has been nearly forgotten in his native country for ideological reasons In the West he remains little known and generally under valued But with recent English translations of Kotik Letaev and his masterpiece Petersburg interest in Bely is increasing Janecek's book

brings together some of the best modern scholarship on Bely and the Russian Symbolist movement of the 1920s *Walt Whitman and the World* Gay Wilson Allen, Ed Folsom, 1995-06 Celebrating the various ethnic traditions that melded to create what we now call American literature Whitman did his best to encourage an international reaction to his work But even he would have been startled by the multitude of ways in which his call has been answered By tracking this wholehearted international response and reconceptualizing American literature *Walt Whitman and the World* demonstrates how various cultures have appropriated an American writer who ceases to sound quite so narrowly American when he is read into other cultures traditions The Truth about Poland Poland. Polish Government Information Center, 1949 The Ethics of the Poet Ute Stock, 2005 This study rehabilitates Tsvetaeva as a serious innovative ethical thinker who developed an ethics for the poet that could dispense with universal value guarantees For Tsvetaeva ethical judgements had to be individual rather than universal open to revision rather than permanent Examining her ideational background the study sheds new light on the pre exile years when Tsvetaeva suffered from a profound uncertainty about the moral nature and duty of the poet It identifies the experience of exile as a catalyst for the development of her ethical thought that culminated in *Iskusstvo pri svete sovesti* Considering Tsvetaeva's application of her ethics in her life this study reveals her emphasis on the personal to be the direct result of her ethical belief in individual judgements Her conscious effort persistently to counteract dominant political ideologies similarly stems from her ethical suspicion of any kind of claim on universal truth Finally the study assesses the significance of Tsvetaeva's suicide revealing it to be the inevitable terrifying consequence of her ethical self definition her commitment to individual freedom and the pursuit of higher truths **Re-Mapping Exile** Michael Boss, Irene Gilsenan Nordin, Britta Olinder, 2006-05-01 The essays in this collection combine historical cultural and literary analyses in their treatment of aspects of exile in Irish writing Some are structuralist in seeing exile as a physical state of being often associated with absence into which an individual willingly or unwillingly enters Others are poststructuralist considering the narration of exile as a celebration of transgressiveness hybridity and otherness This type of exile moves away from a political cultural economic idea of exile to an understanding of exile in a wider existential sense The volume presents readings of Irish literature history and culture that reflect some of the historical sociological psychological and philosophical dimensions of exile in the 1800s and 1900s The theme of exile is discussed in a wide range of texts including literature political writings and song writing either in works of Irish writers not normally associated with exile or in which new aspects of exile can be discerned The essays cover among others Butler D Arcy McGee Mulholland Joyce Hewitt Van Morrison Ni Chuilleanain Doyle and Banville **Polish Women, Solidarity and Feminism** Anna Reading, 1992-06-18 Examines Polish women's oppression before on the cusp and after the collapse of communism The book analyzes the relationship between Solidarity state capitalism nationalism and feminism by drawing on a wide variety of source material **An Artistic Exile** Geremie Barmé, 2002-12-03 Publisher description Alternative Modernities in French Travel Writing Gillian Jain, 2016-06-19 Ever

since human beings first travelled cities have constituted important material and literary destinations While the city has formed a key theme for scholars of literary fiction travellers modes of writing the city have been somewhat neglected by travel studies However travel writing with its attention to difference provides a rich source for the study of representational strategies and tactics in the modern city Tracing spatial practices of French travel writers in London and New York from 1851 to the 1980s this book contributes to a body of work that analyses travel and travel writing beyond the Anglophone context and engages a variety of travel writing in questions surrounding French modalities for negotiating and establishing a nexus of meanings for life in the modern city One of the central tenets of the book is that in the way its spaces are planned encountered and represented the city is operational in the formulation of identities and ideologies and the book's guiding question is how travel and travel writing allow for the exploration of urban modernity from a perspective of exchange Bringing together the strands of theory context and poetic analysis this book examines travel writing as a spatial practice of the modern city engaging urban space in questions of nationality power and legibility and opening avenues for the exploration of urban modernity from a position of alterity where alternative imaginative geographies of the city might emerge

Women in exile in early modern Europe and the Americas Linda Levy Peck, Adrianna E. Bakos, 2024-06-04 Exile its pain and possibility is the starting point of this book Women's experience of exile was often different from that of men yet it has not received the important attention it deserves Women in exile in early modern Europe and the Americas addresses that lacuna through a wide ranging geographical chronological social and cultural approach Whether powerful well to do or impoverished exiled by force or choice every woman faced the question of how to reconstruct her life in a new place These essays focus on women's agency despite the pressures created by political economic and social dislocation Collectively they demonstrate how these women from different countries continents and status groups not only survived but also in many cases thrived This analysis of early modern women's experiences not only provides a new vantage point from which to enrich the study of exile but also contributes important new scholarship to the history of women
