Journal Memories:

Memory Online Qi Wang, 2022-12-30 This book presents cutting edge research on memory in the age of the Internet and social media The empirical studies reported in the ten chapters address the influence of the digital age on remembering in three broad areas offloading memory and the associated costs benefits and boundary conditions autobiographical memory online and false memory at a time of fake news and misinformation These studies employ innovative and rigorous methodological approaches that are ecologically valid in the online context Their findings reveal complex and dynamic characteristics of human memory in a digitally mediated world that shapes our learning our sense of self and our beliefs and decision making Collectively the chapters in this volume provide rich theoretical insights into the workings and functions of memory This book ushers in a new era of research on memory in the age of digitization Memory Online will be a beneficial read for students and scholars of Psychology Cognitive Science Communication and Media Studies The chapters in this book were originally published as a special issue of Memory

Memories, Thoughts, and Emotions William Kessen, Andrew Ortony, Fergus Craik, 2013-02-01 For the past forty years the ideas and findings of George Mandler and George Mandler himself have been highly influential throughout the field of experimental psychology Not only has he helped to advance the study of cognition and emotion in many ways but he also offered assistance and encouragement to numerous young researchers who may expand on the knowledge acquired thus far The editors of this festschrift feel that one of the greatest strengths of Mandler's work is the blend of European theorizing and American empiricism This volume contains contributions from friends and colleagues who have been influenced in one way or another by this accomplished psychologist

True and False Recovered Memories Robert F. Belli, 2011-11-18 Beginning in the 1990s the contentious memory wars divided psychologists into two schools of thought that adults recovered memories of childhood abuse were generally true or that they were generally not calling theories therapies professional ethics and survivor credibility into question More recently findings from cognitive psychology and neuroimaging as well as new theoretical constructs are bringing balance if not reconciliation to this polarizing debate Based on presentations at the 2010 Nebraska Symposium on Motivation True and False Recovered Memories Toward a Reconciliation of the Debate assembles an expert panel of scholars professors and clinicians to update and expand research and knowledge about the complex interaction of cognitive emotional and motivational factors involved in remembering and forgetting severe childhood trauma Contrasting viewpoints elaborations on existing ideas challenges to accepted models and intriguing experimental data shed light on such issues as the intricacies of identity construction in memory post trauma brain development and the role of suggestive therapeutic techniques in creating false memories Taken together these papers add significant new dimensions to a rapidly evolving field Featured in the coverage The cognitive neuroscience of true and false memories Toward a cognitive neurobiological model of motivated forgetting The search for repressed memory A theoretical framework for understanding recovered memory experiences

Cognitive underpinnings of recovered memories of childhood sexual abuse Motivated forgetting and misremembering perspectives from betrayal trauma theory Clinical and cognitive psychologists on all sides of the debate will welcome True and False Recovered Memories as a trustworthy reference an impartial guide to ongoing controversies and a springboard for future inquiry
