*Journal of Men's Studies Volume 9 #1* Msp,1999-09-01      **Africa and its Historical and Contemporary Diasporas**

Gentry,2007-12-15 Introduction a woman did that Narratives of mothers monsters and whores Triple transgressions at Abu Ghraib Black widows in Chechnya Dying for sex and love in the Middle East Gendered perpetrators of genocide Gendering people s violence Conclusion let us now see bad women      Male Perspectives in Atwood's "Bluebeard's Egg" and Hazzard's The Transit of Venus Giada Goracci,2016-06-22 Postmodern revisions of fairy tales have influenced several discourses and disciplines especially during the second half of the twentieth century In particular during the course of postmodernism the rewriting of classic fairy tales has contributed to the subversion of their stereotypical structures thus advancing alternative re readings This work offers an investigation into gender discourse in two postmodern re writings of Bluebeard namely Margaret Atwood s Bluebeard s Egg and Shirley Hazzard s The Transit of Venus especially focusing on male queer perspectives that have not yet been taken into consideration Starting from an overview on the diverse conceptualisations of the terms gender and sexuality in modern and contemporary times this book analyses the birth and evolution of male studies and subsequently explores the ways in which they have influenced the interpretation of classical tales By means of an intertwined and shifting process which enables the characters of these contemporary revisions to disguise their identities within the pages and beyond their texts the figure of Bluebeard reveals himself as the in between pattern for contemporary gender conceptualisations      **Teaching Palahniuk: The Treasures of Transgression in the Age of Trump and Beyond** Christopher Burlingame,2022-05-10 While much has been written about Chuck Palahniuk and his body of work next to nothing has been written about when where and how it is necessary to teach Palahniuk This collection will reveal that teaching Palahniuk s work and the discursive dynamic of the classroom interactions create new opportunities for scholarship by both the faculty member and his or her students Despite early critical success with Fight Club Invisible Monsters and Choke Palahniuk s novels are increasingly dismissed for the very transgressive content that

makes them essential pedagogical tools in the Age of Trump where truth isn't truth and tribalism is stoked with claims of fake news. This collection aims to broaden the scholarship by examining underrepresented and unrepresented works from his oeuvre and situating them in the context of their pedagogical implications. In both form and content, the transgressive nature of Palahniuk's work demands critical thought and reflection capacities that are necessary for the preservation of a democratic society. Contributors take various approaches to address what students can learn about writing literature and society by reading and analyzing Palahniuk's texts. The collection will discuss the value of teaching Palahniuk innovations and various disciplinary contexts for teaching his works and reflections on some of those pedagogical opportunities. Through its multi-faceted discussion of Palahniuk and pedagogy, this collection will legitimize efforts to bring his work onto syllabi and into the classroom where it can enhance student engagement, create new avenues for interdisciplinary scholarship, and reinvigorate an expansion of the canon. It will also provide diverse frameworks for incorporating and interpreting Palahniuk's writing across disciplines. Finally, the collection will offer post-mortems from faculty members who have found the guts to teach Palahniuk and will offer insight into what students have gained and stand to gain from a more intensive Palahniuk pedagogy.

*Men, Masculinities and Honour-Based Abuse* Mohammad Idriss, 2019-12-06. This book explores the largely neglected relationship between men, masculinities, and honour-based abuse (HBA). There is a common misconception that HBA, whether physical violence, emotional abuse, or so-called honour killings, occurs only against women. This book addresses the gap in the current literature concerning the relationship between men, masculinities, and HBA. With contributions from an international and interdisciplinary range of both academics and professionals, the book examines HBA and forced marriages specifically from male victim perspectives, both in the UK and internationally. Providing a clear understanding of the main theoretical and sociological explanations of HBA against male victims, the book demonstrates that although men are indeed the main perpetrators of HBA, state agencies must address the fact that many men are also victims. This book is essential reading for students, academics, and practitioners alike.

**Men's Work and Male Lives** John Goodwin, 2018-12-20. First published in 1999, this volume took part in the emerging sociological debate on gender in the workplace by studying men's work, lives, gender roles, and psychological health through the gender lens. Recent changes in the labour market, not least the marked increase of women at work, have been argued to have led to a crisis of masculinity and a re-evaluation of men's roles. This book has four main aims: to establish that there is a real absence of an empirical understanding of men in British gender-based sociological research; to explore men's recent experiences of the British labour market; to explore how masculinity and work are linked and maintained by critically examining existing accounts of gender theory and feminism; and finally, to provide an empirical account of men's work and male lives via an analysis of existing data. The male workers were identified in the National Child Development Study 1991 and compared with male full-time workers and similar groups of women in the same study. Five areas of these men's lives were explored empirically: characteristics of male workers in NCDS5; men's

attitudes to work men and training experiences men and household work and finally men and mental ill health The book concludes that the nature of men s work needs to be reconsidered and that the nature of gender research particularly that relating to men needs to be expanded and made more explicit

**Re-Thinking Men** Anthony Synnott, 2016-04-08 Much writing on men in the field of gender studies tends to focus unduly almost exclusively on portraying men as villains and women as victims in a moral bi polar paradigm Re Thinking Men reverses the proclivity which ignores not only the positive contributions of men to society but also the male victims of life including the homeless the incarcerated the victims of homicide suicide accidents war and the draft and sexism as well as those affected by the failures of the health education political and justice systems Proceeding from a radically different perspective in seeking a more positive balanced and inclusive view of men and women this book presents three contrasting paradigms of men as Heroes Villains and Victims With the development of a comparative and revised gender perspective drawing on US Canadian and UK sources this book will be of interest to scholars across a range of social sciences

Cultural Studies and the 'Juridical Turn' Jaafar Aksikas, Sean Andrews, 2018-02-02 The relationship between culture and the law has become an emergent concern within contemporary Cultural Studies as a field but the recent focus has been largely limited to the role played by cultural representations and identity politics in the legitimization of legal discourse and policies While continuing this emphasis this collection also looks at the law itself as a cultural production tracing some of the specific contours of its function in the last three decades It argues that with the onset of neoliberal or late capitalism the law has taken on a new specificity and power leading to what we are calling the juridical turn where the presumed legitimacy of the law makes other forms of hegemonic struggle secondary The collection not only charts the law and cultural policy as they exert their powerful if often overlooked influence on every aspect of society and culture but it also seeks to define this important field of study and demonstrate the substantial role law plays in the production of our social and cultural worlds In this trailblazing collection of contributions by leading and emerging figures in the field of cultural legal studies chapters examine various ways in which this process is manifested such as U S legislation and Supreme Court Decisions on gay marriage immigration consumer finance welfare copyright and so called victim s rights along with international comparisons from Europe and Latin America It promises to be a pathbreaking analysis of our juridically determined conjuncture This book was originally published as a special issue of Cultural Studies

**A Brief History of Cyberspace** Huansheng Ning, 2022-04-05 With the widespread growth of the Internet a new space cyberspace has appeared and has

rapidly been integrated into every facet of life and work. It has effectively become the fourth basic living space for human beings. Although cyberspace has become a topic of increasing widespread concern, it is still difficult to understand cyberspace well because of its many definitions, vast and varied content, and differences with other similar spaces. *A Brief History of Cyberspace* attempts to establish a complete knowledge system about the evolution and history of cyberspace and cyber-enabled spaces, i.e., cyber-enabled physical space, cyber-enabled social space, and cyber-enabled thinking space. By providing a comprehensive overview, this book aims to help readers understand the history of cyberspace and lays a solid foundation for researchers and learners who are interested in cyberspace. The book has three main objectives: To provide a comprehensive understanding of the development of cyberspace ranging from its origin, evolutions, and research status to open issues and future challenges, as well as related hot topics in industry and academia; To examine cyber life, cyber syndrome, and health in addition to cyber-enabled spaces designed for better living; To describe cyberspace governance from the perspective of the individual, society, and national and international levels in order to promote a more profound and reasonable direction to the development of cyberspace. Consisting of 16 chapters, the book is divided into three parts. Chapter 1 introduces the origins and basic concept of cyberspace, cyber philosophy, and cyber logic to help readers have a general understanding of cyberspace. Chapters 2 through 7 discuss a wide variety of topics related to human behavior, psychology, and health to help people better adapt to cyberspace. Chapters 8 through 16 present the history of cyberspace governance and various social and culture aspects of cyberspace. Each chapter concludes with a discussion of future development.

**Female Masculinities and the Gender Wars** Finn Mackay, 2021-09-23 Thoughtful and often moving. Gaby Hinsliff, *The Guardian*. *Female Masculinities and the Gender Wars* provides important theoretical background and context to the gender wars or TERF wars, the fracture at the forefront of the LGBTQ international conversation. Using queer and female masculinities as a lens, Finn Mackay investigates the current generational shift that is refusing the previous assumed fixity of sex, gender, and sexual identity. Transgender and trans rights movements are currently experiencing political backlash from within certain lesbian and lesbian feminist groups, resulting in a situation in which these two minority communities are frequently pitted against one another or perceived as diametrically opposed. Uniquely, Finn Mackay approaches this debate through the context of female masculinity, butch, and transmasculine lesbian masculinities. There has been increasing interest in the study of masculinity influenced by a popular discourse around so-called toxic masculinity, the rise of men's rights activism, and theory and critical work on Trump's America and the MeToo movement. An increasingly important topic in political science and sociological academia, this book aims to break new ground in the discussion of the politics of gender and identity.

**ICGR 2020 3rd International Conference on Gender**

**Research** Dr Karen Jones, Professor Claire Collins, Professor Madeleine Davies, Professor Marina Della Giust, Professor Grace James, 2020-04-02      **The Politics of Gender and Education** S. Ali, S. Benjamin, M. Mauthner, 2003-11-25 What are the politics of gender within education How are the issues of gender being explored in diverse educational settings Does gender still matter in education This book draws together the work from an international array of authors working at the cutting edge of gender research in education From policy issues affecting single mothers to the incorporation of Southern learning into Northern contexts this collection provides a compelling argument for renewed engagement with gender issues at both macro and micro political levels within the full range of educational contexts from primary to higher education      Fanon Jinadu, 2021-12-24 First published in 1986 Fanon In Search of the African Revolution is different from other books on Fanon in that it approaches him as both a political philosopher and political sociologist of the African experience It suggests that Fanon's political writings be viewed in terms of his concern with how relations are structured in colonial and post colonial Africa and the implications of those structural arrangements for political conflict in Africa Fanon's attempt to explain the pathologies and contradictions of African politics in terms of class and the historical processes that influence and constrain class political behavior is provocative and insightful But the moral dimension that informs Fanon's theoretical perspectives is no less important if only because it attests to his strong advocacy of the need for revolutionary change as a condition for the restructuring of African political systems      **Women's Issues in Transportation** Susan Herbel, Danena Gaines, 2010 September 27 30 2009 Irvine California Title page      **Organizational Learning and Knowledge Management** James Y.L. Thong, Patrick Y.K. Chau, Kar Yan Tam, 2001-08-01 This issue is based on three articles presented at the Fourth Pacific Asia Conference on Information Systems held in Hong Kong from June 1 through 3 2000 The articles are concerned with various knowledge management issues in the Internet era First published in 2001 as Volume 11 of A JOURNAL OF ORGANIZATIONAL COMPUTING AND ELECTRONIC COMMERCE
