**Nests of the Gentry** Mary W. Cavender, 2007 This exploration of the cultural values of the provincial nobility also has implications for the broader study of the nobility in Europe **BOOK JACKET** **Air and Sea Power in World War I** Maryam Philpott, 2013-05-30 The Great War tore the fabric of Europe apart killing over 35 million men and challenging the notion of heroism in war **Air and Sea Power in World War I** focuses on the experience of World War I from the perspective of British pilots and sailors themselves to demonstrate that the army centric view of war studies has been too limited The Royal Flying Corps created in 1912 adapted quickly to the needs of modern warfare driven by the enthusiasm of its men In contrast the lack of modernisation in the Royal Navy despite the unveiling of HMS Dreadnought in 1906 undermined Britain's dominance of the seas By considering five key aspects of the war experience this book analyses how motivation was created and sustained What training did men receive and how effectively did this prepare them for roles that were predominantly non combative How was motivation affected by their individual relationship with weaponry development and how different was defensive service on the Home Front when in close proximity to ordinary civilian life Finally **Air and Sea Power in World War I** looks at the changing reputation of the services during and after the conflict and the extent to which these notions were created by the memoirs of pilots and sailors Featuring new primary source material including the journals of service men themselves this book will be essential reading for students and scholars of World War I and of Naval Aviation and Military History ***The Family Novel in Russia and England, 1800-1880*** Anna A. Rossbach, 2009-11-19 This book reveals that 1969-74 was a crucial period for the special relationship The Heath Government attempted to reverse Britain's decline as a great power by forging an American European special relationship out of the Anglo American relationship Simultaneously the Nixon Administration tried to recoup the global position of the United States **Pilgrims Society and Public Diplomacy, 1895-1945** Stephen Bowman, 2018-02-01 Drawing on rich archival research this book explores how the elite network of the Pilgrims Society whose members included J P Morgan and Andrew Carnegie attempted to influence the Anglo American relationship in the days before it became special ***Empire, Technology and Seapower*** Howard J. Fuller, 2014-01-03 This book examines British naval diplomacy from the end of the Crimean War to the American Civil War showing how the mid Victorian Royal Navy suffered serious challenges during the period Many recent works have attempted to depict the mid Victorian Royal Navy as all powerful innovative and even self assured In contrast this work argues that it suffered serious challenges in the form of expanding imperial commitments national security concerns precarious diplomatic relations with European Powers and the United States and technological advancements associated with the armoured warship at the height of the so called Pax Britannica Utilising a wealth of international archival sources this volume explores the introduction of the monitor form

of ironclad during the American Civil War which deliberately forfeited long range power projection for local coastal command of the sea It looks at the ways in which the Royal Navy responded to this new technology and uses a wealth of international primary and secondary sources to ascertain how decision making at Whitehall affected that at Westminster The result is a better balanced understanding of Palmerstonian diplomacy from the end of the Crimean War to the American Civil War the early evolution of the modern capital ship including the catastrophic loss of the experimental sail and turret ironclad H M S Captain naval power projection and the nature of empire technology and seapower This book will be of great interest to all students of the Royal Navy and of maritime and strategic studies in general      **Foreign Intervention, Warfare and Civil Wars**

Adam Lockyer,2017-09-01 This book examines the impact of foreign intervention in the course and nature of warfare in civil wars Throughout history foreign intervention in civil wars has been the rule rather than the exception The involvement of outside powers can have a dramatic impact on the course and nature of internal conflicts Despite this there has been little research which has sought to explain how foreign intervention influences the course of civil wars This book seeks to rectify this gap It examines the impact of foreign intervention on the warfare that characterises civil wars through by studying the cases of the Angolan and Afghan civil wars It investigates how foreign resources affect the military power of the recipient belligerent and examines how changes in the balance of capabilities influence the form of warfare that characterises a civil war Warfare in civil wars is often highly fluid with belligerents adapting their respective strategies in response to shifts in the balance of military capabilities This book shows how the intervention of foreign powers can manipulate the balance of capabilities between the civil war belligerents and change the dominant form of warfare The findings presented in this book offer key insights for policy makers to navigate the increasing internationalization of civil wars around the globe This book will be of much interest to students of civil wars intra state conflict war and conflict studies and security studies

**Transylvanian Review** ,1997      **Two Paths to Prosperity** Avner Greif,Joel Mokyr,Guido Tabellini,2025-11-04 How the social organization of Europe and China shaped their divergent economic and political trajectories over the past millennium In the eleventh century when Europe was still backward and poor China was a rich and sophisticated civilization Yet Europe became the birthplace of democracy and the Industrial Revolution driving the Great Enrichment while China stagnated until the end of the twentieth century and was always ruled by autocracies Two Paths to Prosperity traces the emergence of two very different social organizations in premodern China and Europe the clan and the corporation showing how they were key factors in the economic and political divergence of these two great civilizations In this landmark book three leading economists offer a bold new account of why Europe and China evolved along such different trajectories In the early Middle Ages public goods like risk sharing religious worship education and conflict resolution were provided by nonstate organizations in both societies China increasingly relied on kin based cooperation within clans while weaker kinship ties in Europe gave rise to corporations such as guilds universities and self governing towns Despite performing similar functions

clans and corporations were built on very different principles with lasting consequences until today Providing a novel answer to a fundamental question in economic and political history Two Paths to Prosperity shows how extended kinship in Chinese society facilitated the consolidation of autocracy and hindered innovation and economic development and how corporations in Europe influenced emerging state institutions and set the stage for the Industrial Revolution The Armenian Women's Movement in the Late Ottoman Empire Hasmik Khalapyan,2025-01-09 The last decades of the Ottoman Empire saw heated debates about and changes to the role of women in society This book analyses the history of the women s movement among Ottoman Armenians Examining debates on the role of women in the Armenian context Armenian women s access to education work and marriage rights it reveals how women were empowered by nationalist discourses and the wider movement for reform in the empire and the ways these limited or broadened women s activism Drawing from a wide array of archival primary source material it provides a comprehensive and comparative analysis of changes to the socio economic political cultural status of Ottoman Armenian women from end of the Tanzimat period to the outbreak of World War I

**Menzies Ascendancy** Zachary Gorman,2024-12-03 Was Menzies s unprecedented electoral success merely a matter of luck or did he make fortune bend to his will On 30 November 1954 Robert Menzies became Australia s longest serving prime minister Between the closely fought 1954 and 1961 elections the Coalition enjoyed a political dominance that allowed it to reshape the nation The period saw the creation of the Reserve Bank of Australia the signing of the landmark Commerce Agreement with Japan vast investment in Australia s universities the development of Canberra the

opening of Australia's first nuclear reactor forgotten but transformative healthcare reforms the abolition of the dictation test forward progress on Indigenous policy the signing of an enduring Antarctic Treaty and more Yet to critics this was a time when the opportunity for reform was wasted Has Menzies's deliberate emphasis on continuity over change obscured his achievements Is consolidated progress preferable to policy revolution And what does the Australian public want from its leaders All these issues are explored in the third of a four volume history of Menzies and his world based on conferences convened by the Robert Menzies Institute at the University of Melbourne Contributors include Robert Bowker Andrew Bragg Paul Brown Elizabeth Buchanan Selwyn Cornish Damien Freeman David Furse Roberts Anne Henderson Paul Kelly Sean Jacobs David Lee Ted Ling Lyndon Megarrity Greg Melleuish Andrew Norton Michael de Percy Paul Strangio and Stephen Wilks
