Parenting After the Death of a Child Jennifer L. Buckle, Stephen J. Fleming, 2011-01-19 The death of a child has a tremendous and overwhelming impact on parents and siblings completely altering the psychological landscape of the family In the aftermath of such a tragedy parents face the challenge of not only dealing with their own grief but also that of their surviving children How can someone attempt to cease parenting a deceased

child while maintaining this role with his/her other children. Is it possible for a mother or father to effectively deal with feelings of grief and loss while simultaneously helping their surviving children? Parenting After the Death of a Child: A Practitioner's Guide addresses this complex and daunting dilemma. Following on the heels of a qualitative research study that involved interviewing bereaved parents, both fathers and mothers, Buckle and Fleming have put together several different stories of loss and recovery to create an invaluable resource for clinicians, students, and grieving parents. The authors present the experience of losing a child and its subsequent impact on a family in a novel and effective way, demonstrating the strength and importance of their book for the counseling field. **Life Came to a Standstill** Gwendolyn

Broadmore, 2017-11-16 How does a parent live through the death of a child? This profound and poignant compilation of the courageous personal journeys of seven grieving mothers and one grieving sister offers a road map of how to cope with the anguish of traumatic, unexpected loss, giving inspiration for continuing to live. Each narrative lovingly remembers the deceased, honestly conveys the shock of death, and details the grief work that the survivors and their extended family members have done to move toward healing and make a new life without their loved one. Though these are stories of painful loss, they are also inspiring accounts of strength, hope, and love, lighting the way from the darkest sorrow to the first shimmer of hope. An extensive addendum includes helpful supplementary material with valuable professional insights and guidance to help you navigate when your once familiar world feels like an alien landscape. **Jane Brody's Guide to the Great Beyond** Jane Brody, 2009-02-17 From the beloved New York Times columnist, trusted authority on health, and bestselling author comes this complete guide to everything you need to know emotionally, spiritually, and practically to prepare for the end of life. An invaluable road map to putting your affairs in order or helping your loved ones do the same, this comprehensive book will answer every question you might have about what does and does not help smooth the transition between life and the Great Beyond. Wise, practical, and characteristically straightforward throughout, Brody advises on the intricacies of a well-thought-out and fully spelled-out living will that health care practitioners readily understand and how to designate a health care proxy, planning a funeral or memorial to ensure your wishes are followed, including tips on how to reduce expenses, discussing prognoses and treatment options with doctors, your options for controlling pain, shortness of breath, bed sores, and other physical symptoms, plus the facts on feeding tubes, receiving the support you need through hospice care, and suggestions for loved ones and friends who want to help. Lightening and enlightening your trials by incorporating spirituality into your life, understanding what happens physically and mentally when death is imminent, and recognizing when hand holding and reassurance, not food or drink or an oxygen mask or CPR, is the proper course of action, easing your way through the journey of grief by admitting the reality of the loss, showing your emotions, and allowing yourself the time you feel you need. No matter your age or current health, preparing for the inevitable when you are still fully in control of your faculties ensures that you'll be in a far better position to enjoy the time you have left. As Brody notes, "From the start, consider the finish." *The Jewish*
