Modern American Literature and Culture Tara Stubbs,Doug Haynes,2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational transatlantic and trans local studies to ask what happens when these same aspects become intrinsic to the critical narrative Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism transnationalism world system and trans localism as each has redefined the US and the world more generally This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship reflecting on the critical consequences of the spatial turn in American literary and cultural studies Spanning twentieth and twenty first century American poetry fiction memoir visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and

countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies William Blake and the Myth of America Linda Freedman, 2018-07-05 This volume tells the story of William Blake's literary reception in America and suggests that ideas about Blake's poetry and personality helped shape mythopoeic visions of America from the Abolitionists to the counterculture It links high and low culture and covers poetry music theology and the novel American writers have turned to Blake to rediscover the symbolic meaning of their country in times of cataclysmic change terror and hope Blake entered American society when slavery was rife and civil war threatened the fragile experiment of democracy He found his moment in the mid twentieth century counterculture as left wing Americans took refuge in the arts at a time of increasingly reactionary conservatism vicious racism pervasive sexism dangerous nuclear competition and an increasingly unpopular war in Vietnam the fires of Orc raging against the systems of Urizen Blake's America as a symbol of cyclical hope and despair influenced many Americans who saw themselves as continuing the task of prophecy and vision Blakean forms of bardic song aphorism prophecy and lament became particularly relevant to a literary tradition which centralised the relationship between aspiration and experience His interrogations of power and privilege freedom and form resonated with Americans who repeatedly wrestled with the deep ironies of new world symbolism and sought to renew a Whitmanesque ideal of democracy through affection and openness towards alterity **Noise, Water, Meat** Douglas Kahn, 2001-08-24 An examination of the role of sound in twentieth century arts This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism recorded sound noise silence the fluid sounds of immersion and dripping and the meat voices of viruses screams and bestial cries Focusing on Europe in the first half of the century and the United States in the postwar years Douglas Kahn explores aural activities in literature music visual arts theater and film Placing aurality at the center of the history of the arts he revisits key artistic questions listening to the sounds that drown out the politics and poetics that generated them Artists discussed include Antonin Artaud George Brecht William Burroughs John Cage Sergei Eisenstein Fluxus Allan Kaprow Michael McClure Yoko Ono Jackson Pollock Luigi Russolo and Dziga Vertov **"Strange Prophecies Anew"** Tony Trigilio, 2000 This book revives questions of religious and political authority in poetic prophecy It argues that modern prophecy operates within a dynamic of continuity and estrangement that combines immanent and transcendent modes of representation creating a poetry that revises the very tradition that authorizes it **Fieldworks** Lytle Shaw, 2013-01-22

Fieldworks offers a historical account of the social rhetorical and material attempts to ground art and poetry in the physicality of a site. Arguing that place oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography, Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies. Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester, Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place. Gary Snyder in his back to the land familial compound, Kitkitdizze Amiri Baraka in a black nationalist community in Newark, Robert Creeley and the poets of Bolinas, California in the capacious now of their poet run town. Turning to the work of Robert Smithson who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s, Shaw then traces the emergence of site specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities considering poets including Clark Coolidge, Bernadette Mayer and Lisa Robertson. By putting the poetics of place into dialog with site specificity in art, Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly. It is this dual sense of fieldwork that organizes Shaw's groundbreaking history of site specific poetry.

The Poetics of Scale Conrad Steel, 2024-02-19. Since the start of the twentieth century, poets have been irresistibly drawn to the image of the poem as a kind of data handling, a way of mediating between the divergent scales of aesthetics and infrastructure, language and technology. Conrad Steel shows how the history of poetry with its particular formal affordances and the particular hopes and fears we invest it with has always been bound up with our changing logistics of macroscale representation. *The Poetics of Scale* takes us back to the years before the First World War in Paris where the poet Guillaume Apollinaire claimed to have invented a new mode of poetry large enough to take on the challenges of the coming twentieth century. This history follows Apollinaire's ideas across the Atlantic and examines how and why his work became such a vital source of inspiration for American poets through the era of intensive American economic expansion and up to the present day. Threading together Apollinaire's work in the 1910s with three of his American successors, Louis Zukofsky in the 1930s, Allen Ginsberg in the 1950s and Alice Notley from the 1970s onward, it shows how poetry as a cultural technique became the crucial test case for the scale of our collective imagination.

Beatniks Alan Bisbort, 2009-11-25. This is a revealing look at the events and personalities that defined the Beat Generation, drawing on over three decades of research. *Beatniks: A Guide to an American Subculture* gets readers past the caricature of the beatnik as a goateed beret wearing bongo playing poseur, drawing on extensive research to show just how profound an impact the beats had on American culture, politics and literature. *Beatniks* conveys the complexity, influences, events and places that shaped the Beat Generation from the late 1940s to the cusp of the 1960s. The book also features a series of essays on specific aspects of the subculture as well as interviews with Beat Generation luminaries like Allen Ginsberg, Ann Charters,

Roy Harper and Michael McClure Throughout readers will meet an extraordinary gallery of people both famous Jack Kerouac William Burroughs Neal Cassady and lesser known but no less fascinating including Kenneth Patchen Lord Buckley Mort Sahl Jack Micheline Lew Welch Joan Vollmer Adams and Lenore Kandel Also included is a detailed glossary with the origins and meanings of the beat lingo *Subterranean Kerouac* Ellis Amburn, 1999-11-29 Drawing upon original interviews and his own relationship with Kerouac Ellis Amburn reveals an inner man who has not appeared in any previous biography a man torn by his conflicting desires and beliefs Subterranean Kerouac has been singled out as one of the most significant biographies to appear in years and it shows how Kerouac struggled throughout his life with poverty alcoholism and his doubts about his own lifestyle of substance abuse indolence and promiscuity
