The Fast Way to Learn Java GUI with PostgreSQL and SQLite Vivian Siahaan, Rismon Hasiholan Sianipar, 2020-01-15 This step by step guide to explore database programming using Java is ideal for people with little or no programming experience The goal of this concise book is not just to teach you Java but to help you think like a programmer Each brief chapter covers the material for one week of a college course to help you practice what you ve learned As you would expect this book shows how to build from scratch two different databases PostgreSQL and SQLite using Java In designing a GUI and as an IDE you will make use of the NetBeans tool In the first chapter you will learn How to install NetBeans JDK 11 and the PostgreSQL connector How to integrate external libraries into projects How the basic PostgreSQL commands are used How to query statements to create databases create tables fill tables and manipulate table contents is done In the first chapter you will learn How to install NetBeans JDK 11 and the PostgreSQL connector How to integrate external libraries into projects How the basic PostgreSQL commands are used How to query statements to create databases create tables fill tables and manipulate table contents is done In the second chapter you will learn querying data from the postgresql using jdbc including establishing a database connection creating a statement object executing the query processing the resultset object querying data using a statement that returns multiple rows querying data using a statement that has parameters inserting data into a table using jdbc updating data in postgresql database using jdbc calling postgresql stored function using jdbc deleting data from a postgresql table using jdbc and postgresql jdbc transaction In chapter three you will create a PostgreSQL database named School and its tables In chapter four you will study Creating the initial three table projects in the school database Teacher table TClass table and Subject table Creating database configuration files Creating a Java GUI for viewing and navigating the contents of each table Creating a Java GUI for inserting and editing tables and Creating a Java GUI to join and query the three tables In chapter five you will learn Creating the main form to connect all forms Creating a project will add three more tables to the school database the Student table the Parent table and Tuition table Creating a Java GUI to view and navigate the contents of each table Creating a Java GUI for editing inserting and deleting records in each table Creating a Java GUI to join and query the three tables and all six In chapter six you will

study how to query the six tables In chapter seven you will be shown how to create SQLite database and tables with Java In chapter eight you will be taught how to extract image features utilizing BufferedImage class in Java GUI Digital image techniques to extract image features used in this chapter are grascaling sharpening inverting blurring dilation erosion closing opening vertical prewitt horizontal prewitt Laplacian horizontal sobel and vertical sobel For readers you can develop it to store other advanced image features based on descriptors such as SIFT and others for developing descriptor based matching In chapter nine you will be taught to create Java GUI to view edit insert and delete Suspect table data This table has eleven columns suspect_id primary key suspect_name birth_date case_date report_date suspect_status arrest_date mother_name address telephone and photo In chapter ten you will be taught to create Java GUI to view edit insert and delete Feature_Extraction table data This table has eight columns feature_id primary key suspect_id foreign key feature1 feature2 feature3 feature4 feature5 and feature6 All six fields except keys will have a BLOB data type so that the image of the feature will be directly saved into this table In chapter eleven you will add two tables Police_Station and Investigator These two tables will later be joined to Suspect table through another table File_Case which will be built in the seventh chapter The Police_Station has six columns police_station_id primary key location city province telephone and photo The Investigator has eight columns investigator_id primary key investigator_name rank birth_date gender address telephone and photo Here you will design a Java GUI to display edit fill and delete data in both tables In chapter twelve you will add two tables Victim and Case_File The File_Case table will connect four other tables Suspect Police_Station Investigator and Victim The Victim table has nine columns victim_id primary key victim_name crime_type birth_date crime_date gender address telephone and photo The Case_File has seven columns case_file_id primary key suspect_id foreign key police_station_id foreign key investigator_id foreign key victim_id foreign key status and description Here you will also design a Java GUI to display edit fill and delete data in both tables Finally this book is hopefully useful and can improve database programming skills for every Java

PostgreSQL SQLite programmer American Book Publishing Record, 2003 **VISUAL C# .NET: A Step By Step, Project-Based Guide to Develop Desktop Applications** Vivian Siahaan, Rismon Hasiholan Sianipar, 2020-11-23 In chapter one you will learn to know the properties and events of each control in a Windows Visual C application You need to learn and know in order to be more familiar when applying them to some applications in this book In chapter two you will build a project so that children can practice basic skills in addition subtraction multiplication and division operations This Math Game project can be used to choose the types of questions and what factors you want to use This project has three timing options Random math problems using values from 0 to 9 will be presented Timing options are provided to measure accuracy and speed There are many controls used Two label controls are used for title information two for displaying scores There is a wide label in the middle of the form to display math questions And long skinny label is used as separator Two button controls are used to start and stop question and one button to exit the project There are three group control boxes The first group box

holds four check box controls that are used to select the type of questions The second group box holds eleven radio buttons that are used to select values that are used as factors in calculations The third group box contains three radio button controls for timing options A scroll bar control is used to change the time In chapter three you will build Bank Code game The storage box is locked and can only be opened if you enter the correct digit combination Combinations can be 2 to 4 non repetitive digits range of digits from 1 to 9 After a guess is given you will be notified of how many digits are right and how many digits are in the right position Based on this information you will give another guess You continue to guess until you get the right combination or until you stop the game On the left side of the form is a large picture box control On the right side two group box controls and two button controls are placed In the picture box a control panel is placed In the panel there are four label controls set the AutoSize property to False and nine button controls In the first group box control place three radio buttons In the second group box control a text box control is placed The picture box contains an image of bank and a panel The label controls in the panel are used to display the combinations entered the BorderStyle property set to FixedSingle to display the label size The nine buttons on the panel are used to enter combinations Radio buttons are used to set options The buttons one to start and stop the game and another to exit the project are used to control game operations The text box displays the results of the combinations entered In chapter four you will build Horse Racing game This is a simple game Up to 10 horses will race to the finish line You guessed two horses that you thought could win the race By clicking on the Start button the race will start All horses will race speed to get to the finish line Labels are used to display instructions and number of horses in a race Four button controls are used two buttons to change number of horses one button to start the game and one other button to stop the game The picture box control is used to load the horse image A timer control is used to update the horse s movement during the race In chapter five you will build Catching Ball game The bird flew and dropped ball from the sky Users are challenged to position man under the fallen ball to catch it Labels are used for instructions and to display game information remaining time number of balls captured and game difficulty level Two buttons are used to change the game difficulty level one button to start the game and another button to stop the game Picture box controls hold images for man bird and ball In chapter six you will build Smart Tic Tac Toe game That said this is the first game ever programmed on a computer and one that had been programmed by Bill Gates himself when he was a teenager while attending Lakeside School in Seattle The aim of this game is to win the game on a 3 x 3 grid with the victory of three identical symbols X or O on horizontal diagonal or vertical lines The players will play alternately In this game given two game options player 1 against player 2 or human player against computer A smart but simple strategy will be developed for computer logic to be a formidable opponent for humans In chapter seven you will build Fighting Plane program This program can be played by two human players or human player versus computer The controls of the player are done via the keyboard Player 1 presses A key to move up Z key to move down and S key to throw rudal When you choose Two players from the Options button this game

can be played by two human players Player 1 presses the same keys while player 2 presses key K to move up M to move down and key J to throw rudal All label controls are used for titles and provide scoring and game information The large panel Panel1 is the playing field Three button controls are used to start stop a program set options and exit the program One timer control is used to control game animation and another is used to represent the computer s decision process The second control panel Panel2 is used to select game options One group box contains radio buttons which are used to select number of players A group box contains radio buttons to select the level of difficulty of the game when playing against a computer A small button is used to close the options panel The default properties are set for one player games with the easiest game difficulty

Learning Sql A Step By Step Guide Using Oracle Introduction

In the digital age, access to information has become easier than ever before. The ability to download Learning Sql A Step By Step Guide Using Oracle has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Learning Sql A Step By Step Guide Using Oracle has opened up a world of possibilities. Downloading Learning Sql A Step By Step Guide Using Oracle provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Learning Sql A Step By Step Guide Using Oracle has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Learning Sql A Step By Step Guide Using Oracle. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Learning Sql A Step By Step Guide Using Oracle. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Learning Sql A Step By Step Guide Using Oracle, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of

the websites they are downloading from. In conclusion, the ability to download Learning Sql A Step By Step Guide Using Oracle has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
