Bernstein, 2006-02-01 Living in the Borderland addresses the evolution of Western consciousness and describes the emergence of the Borderland a spectrum of reality that is beyond the rational yet is palpable to an increasing number of individuals Building on Jungian theory Jerome Bernstein argues that a greater openness to transrational reality experienced by Borderland personalities allows new possibilities for understanding and healing confounding clinical and developmental enigmas There are many people whose experiences of reality is outside the mainstream of Western culture often they see themselves as abnormal because they have no articulated frame of reference for their experience The concept of the Borderland personality explains much of their experience In three sections this book examines the psychological and clinical implications of the evolution of consciousness and looks at how the new Borderland consciousness bridges the mind body divide Subjects covered include Genesis Evolution of the Western Ego Transrational Data in a Western Clinical Context Synchronicity Trauma and Borderland Transcendence Environmental Illness Complex Integration of Navajo and Western healing approaches for Borderland Personalities Living in the Borderland challenges the standard clinical model which views normality as an absence of pathology and which equates normality with the rational Jerome S Bernstein describes how psychotherapy itself often contributes to the alienation of Borderland personalities by misperceiving the difference between the pathological and the sacred The case studies included illustrate the potential this has for causing serious psychic and emotional damage to the patient This challenge to the orthodoxies and complacencies of Western medicine s concept of pathology will interest Jungian Analysts Psychotherapists Psychiatrists and other physicians as well as educators of children Jerome S Bernstein is a Jungian Analyst in private practice in Santa Fe New Mexico *shifting gears* nena oneill, 1974 **The Other 23 Hours** Larry Brendtro, 2017-07-05 Among other revolutionary developments of today s world is the so called knowledge explosion So much is being written so fast about so many things that it is becoming well nigh ir retrievable One consequently can never be sure that he knows what there is to know about many kinds of phenomena or types of problems existing in the modern world due to the chance that something exists in written form that simply cannot be found so bulky is the load of literature The common idea that only the sick child and never the well needs special emotional supports and helps from the adult is simply an error For the well child is not immune from pile ups of severe emotional intensity when overwhelmed by confusion and conflicts from within Certainly the normal kid can be expected to handle such crises either from within or without better than his sick peer on the average but that does not mean always and the critical issue for the well child is is he ready at the time they hit If not he needs quite unmistakably emotional first aid from the adult parent teacher camp counsellor or what have you who is in

charge of his life at that moment The reader will find that what the authors describe in *The Other 23 Hours* as the everyday requirement diet as far as child handling is concerned for their disturbed children is transferable to the normal crises of normal child hood

The Psychic's Handbook Julie Soskin, 2012-01-01 Once the seer the priestess and the sage were revered by their community Their roles were considered sacred the practising of an art requiring training and experience like any other art All these individuals tuned into their psycho spiritual powers on our behalf But each of us has always had the ability to draw upon these powers directly inside ourselves This book shows us not only how to exploit our psycho spiritual potential it also shows us how to navigate the different realms of inner experience that are our birthright Psycho spiritual powers can take time and expertise to discern especially for the novice How do we know what we are dealing with Does the information made available to us derive from the subtle energies around the body or does it come from some discarnate being Or perhaps from an alter ego the personification of hopes and fears from aspects of our projected selves This book is drawn from research and first hand experience from thousands of consultations and teaching sessions over many years In addition the author at the end of each chapter uses anecdotes to illustrate and enlighten the reader and these are sometimes humorous sometimes sad sometimes philosophical and always true Well implemented psychic and intuitive guidance can help to move the individual towards wholeness a new dawn based on working with the heart and the energy of unconditional love This in turn radiates out to affect the whole of our society Psycho spiritual powers enlarge our lives beyond measure Julie is preparing those who choose to raise their consciousness and see beyond the immediate The late Eileen Caddy author and co founder of the Findhorn Foundation

[Transforming Perspectives in Lifelong Learning and Adult Education](#) Laura Formenti, Linden West, 2018-09-29 Winner of the AAACE Cyril O Houle Award This book constructs a deepening interdisciplinary understanding of adult learning and imaginatively reframes its transformative aspects The authors explore the tension at the heart of current understanding of transformative adult

learning that while it can be framed as both easy and imperative personal transformation is in fact rooted in the context in which we live our stories and relationships At its core transformation is never easy nor always desirable and the authors thus draw on interdisciplinary and auto biographical inquiry to explore what it means to change our presuppositions and frames of meaning that guide our thinking Using their linguistic gendered academic and cultural differences the authors illuminate how the social contextual cultural cognitive and psychological dimensions of transformation intertwine In doing so they emphasise the importance of transformation as a contingent struggle for meaning and recognition social justice fraternity and the pursuit of truth This engaging book will be of interest to students and scholars of transformative learning and education
