It differs from a traditional language course in that it has been designed basically as a tool to help students learn to learn English. That is to say, the syllabus is not based on specific language content graded in terms of difficulty but it is composed of a series of practical activities to encourage students to learn English effectively and independently by choosing materials suited to their level of English and to their learning style. For this reason, this course can be taken by students with different levels of English as long as they are familiar with the basic structures of the language and can more or less communicate in English.
