L'écriture Et La Difference:

Writing and Difference, 1975 L'écriture Et la Différence Jacques Derrida, French Institute, 1967 **L'Ecriture et la Différence** Jacques Derrida, 2019-08-29T00:00:00+02:00 L'écriture et la différence Ce qui s'écrit ici différence marque l'étrange mouvement l'unité irréductiblement impure d'un différer d'un tour d'langage division inégalit éspacement dont l'économie excède les ressources d'éclaircissement du logos classique C'est ce mouvement qui donne une unité aux essais ici enchaînés Qu'ils questionnent l'écriture littéraire ou le motif structuraliste dans les champs de la critique des sciences de l'homme ou de la philosophie que par une lecture configurante ils en appellent Nietzsche ou Freud Husserl ou Heidegger Artaud Bataille Blanchot Foucault Jabès Levinas ils n'ont qu'un lieu d'insistance le point d'articulation d'obscure entre l'écriture et la différence peser sur cette articulation ils tentent de déplacer les deux termes Jacques Derrida 1930 2004 Philosophe majeur du XXe siècle initiateur de la déconstruction il est l'auteur d'une œuvre considérable dont publiés au Seuil La Dissémination 1972 Signé 1988 et Foi et savoir 2001 **Writing and Difference** Alan Bass, 1975 Maurice Blanchot and Fragmentary Writing Leslie Hill, 2012-07-05 Writing in fragments is often held to be one of the most distinctive signature effects of Romantic modern and postmodern literature But what is the fragment and what may be said to be its literary philosophical and political significance Few writers have explored these questions with such probing radicality and rigorous tenacity as the French writer and thinker Maurice Blanchot For the first time in any language this book explores in detail Blanchot's own writing in fragments in order to understand the stakes of the fragmentary within philosophical and literary modernity It attends in detail to each of Blanchot's fragmentary works *Awaiting Forgetting The Step Not Beyond* and *The Writing of the Disaster* and reconstructs Blanchot's radical critical engagement with the philosophical and literary tradition in particular with Hegel Nietzsche Heidegger Heraclitus Levinas Derrida Nancy Mallarmé Char and others and assesses Blanchot's account of politics Jewish thought and the Shoah with a view to understanding the stakes of fragmentary writing in Blanchot and within philosophical and literary modernity in general **Derrida and Disinterest** Sean Gaston, 2005-04-14 Disinterest has been a major concept in Western philosophy since Descartes Its desirability and importance have been disputed and its definition reworked by such pivotal figures as Nietzsche Shaftesbury Locke and Kant In this groundbreaking book Sean Gaston looks at the treatment of disinterest in the work of two major modern Continental philosophers Jacques Derrida and Emmanuel Levinas He identifies both as part of a tradition obscured since the eighteenth century that takes disinterest to be the opposite of self interest rather than the absence of all interest Such a tradition locates disinterest at the centre of thinking about ethics The book argues that disinterest plays a significant role in the philosophy of both thinkers and in the dialogue between their work In so doing it sheds new light on their respective contributions to moral and political philosophy Moreover it traces the history of disinterest in Western philosophy from Descartes to Derrida taking contributions and in the work of major philosopher in both the analytic Anglo American and Continental traditions Locke Shaftesbury Hume Smith

Nietzsche Kant Hegel Heidegger Derrida and Disinterest offers a new reading of Derrida a stimulating account of the role and importance of disinterest in the history of Western philosophy and a provocative and original contribution to Continental ethics *Repetition, Difference, and Knowledge in the Work of Samuel Beckett, Jacques Derrida, and Gilles Deleuze* Sarah Gendron, 2008 Repetition Difference and Knowledge dialogues with novels theatre philosophy and literary theory in order to explore how three thinkers Samuel Beckett Jacques Derrida and Gilles Deleuze employ repetition as a means with which to radically unsettle some of the most fundamental notions of the human experience among them time presence originality and being Due to its interdisciplinary scope and its focus on repetition as an epistemological concept this book will attract a broad audience of academic specialists across the humanities from the fields of literary criticism philosophy French studies and poststructural studies Its simplicity of style deliberate avoidance of complex jargon and clarity of argument particularly when dealing with complicated theoretical ideas and texts also makes it an invaluable tool for use in both graduate and undergraduate level literature and philosophy courses Repetition Difference and Knowledge provides experienced and beginning scholars alike with greater insight into the works of Beckett Derrida and Deleuze and into the role that repetition has played and continues to play in determining how we read our world and come to meaning **Foucault's Orient** Marnia Lazreg, 2017-10-01 Foucault lived in Tunisia for two years and travelled to Japan and Iran more than once Yet throughout his critical scholarship he insisted that the cultures of the Orient constitute the limit of Western rationality Using archival research supplemented by interviews with key scholars in Tunisia Japan and France this book examines the philosophical sources evolution as well as contradictions of Foucault's experience with non Western cultures Beyond tracing Foucault's journey into the world of otherness the book reveals the personal political as well as methodological effects of a radical conception of cultural difference that extolled the local over the cosmopolitan *Autopsia* Marius Timmann Mjaaland, 2008 There are certain things that can be explained and certain things that cannot be explained This book is about the latter It is a book about death how death interrupts and influences the reflection on the self It is a book about God a detailed and critical discussion on how Kierkegaard and Derrida apply the concept of God in their philosophical reflections The most groundbreaking analysis concerns the famous passage on the self A A in *The Sickness unto Death* where the author combines logical rhetorical and dialectical means to establish a new perspective on Kierkegaard's thinking in general The Cartesian doubt then constitutes a common trait for his detailed and rigorous analysis of Derrida and Kierkegaard on death madness faith and rationality showing how they both seek to break up the Hegelian *Aufhebung* from within but still remain dependent on Hegel After Kierkegaard and Derrida the certainty and total uncertainty of death and of God as infinite other gives the self a basic though non foundational responsibility The significance of this responsibility of this other of this death requires sustained and thorough consideration Where others mark a conclusion this book therefore marks a point of departure reflecting on oneself at the graveside of a dead man thus introducing an *Autopsia* *The Theory of Difference* Douglas L. Writing and Difference Jacques

Derrida, 2021-01-27 First published in 1967 Writing and Difference a collection of Jacques Derrida's essays written between 1959 and 1966 has become a landmark of contemporary French thought In it we find Derrida at work on his systematic deconstruction of Western metaphysics The book's first half which includes the celebrated essay on Descartes and Foucault shows the development of Derrida's method of deconstruction In these essays Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought one of his main targets being the way in which structuralism unwittingly repeats metaphysical concepts in its use of linguistic models The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language finally showing metaphysics to be constituted by this exclusion These essays on Artaud Freud Bataille Hegel and Lévi Strauss have served as introductions to Derrida's notions of writing and difference the untranslatable formulation of a nonmetaphysical concept that does not exclude writing for almost a generation of students of literature philosophy and psychoanalysis Writing and Difference reveals the unacknowledged program that makes thought itself possible In analyzing the contradictions inherent in this program Derrida goes on to develop new ways of thinking reading and writing new ways based on the most complete and rigorous understanding of the old ways Scholars and students from all disciplines will find Writing and Difference an excellent introduction to perhaps the most challenging of contemporary French thinkers challenging because Derrida questions thought as we know it

Phenomenology World-Wide Anna-Teresa

Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's

geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Heidegger in Question Robert Bernasconi, 2022-05-09 Robert Bernasconi explores in the context of Heidegger's thought a number of questions of far reaching concern what is the role of literary examples within philosophy Is art dead What is the relation of art to nature Is there a place for the idea of a people in art and literary theory and in philosophy Is the history of philosophy to be written as a narrative What is the status of ethics within philosophy What place does philosophy give to praxis What is the place today of the belief in the nobility of the philosophical life What is the relation of politics to thought Reflecting a dominant concern of recent Heidegger scholarship the focal point of a number of the essays is the relation of Heidegger's own politics to his thought In addition to this examination of what appears to compromise Heidegger's philosophy Bernasconi explores its relation to the further possibilities which that thought has opened in the writings of Arendt Gadamer Levinas and Derrida

The Trace of God Edward Baring, Peter E. Gordon, 2014-11-05 Derrida's writings on the question of religion have played a crucial role in the transformation of scholarly debate across the globe The Trace of God provides a compact introduction to this debate It considers Derrida's fraught relationship to Judaism and his Jewish identity broaches the question of Derrida's relation to the Western Christian tradition and examines both the points of contact and the silences in Derrida's treatment of Islam

Derrida and the Writing of the Body Jones Irwin, 2016-04-22 Michel Foucault refers to 1965-1970 as in philosophical terms the five brief impassioned jubilant enigmatic years This book reinterprets Jacques Derrida's work from this period most especially in *L'écriture et la Différence* Writing and Difference and argues that a transformation takes place here which has been marginalized in readings of his work to date Irwin follows with a look at how the grammatological opening becomes crucial for Derrida's work in the 1970s and beyond incorporating one of his last readings of embodiment from 2000 By drawing our attention to the politics of desire and sexuality this groundbreaking book engages with the work of key continental theorists including Artaud Bataille Nietzsche Heidegger Habermas and Cixous whilst also examining Derrida's relationship with Plato and feminist theory It will appeal to a wide range of readers within the social sciences and philosophy particularly those with interests in gender and sexuality social theory continental thought queer studies and literary theory

Derrida, Literature and War Sean Gaston, 2009-06-23 Derrida Literature and War argues for the importance of the relation between absence and chance in Derrida's work in thinking today about war and literature Sean Gaston starts by marking Derrida's attempts to

resist the philosophical tradition of calculating on absence as an assured resource while insisting on the mis chances of the chance encounter Gaston re examines the relation between the concept of war and the chances of literature by focusing on narratives of conflict set during the Napoleonic wars These chance encounters or duels can help us think again about the sovereign attempt to leave the enemy nameless or to name what cannot be named in the midst of wars without end His study includes new readings of a range of writers including Aristotle Hume Rousseau Schiller Clausewitz Thackeray Tolstoy Conrad Freud Heidegger Blanchot Foucault Deleuze and Agamben Offering an authoritative reading of Derrida s oeuvre and new insights into a range of writers in philosophy and literature this is a timely and ambitious study of philosophy literature politics and ethics

Palimpsestic Memory Max Silverman, 2013-02-01 The interconnections between histories and memories of the Holocaust colonialism and extreme violence in post war French and Francophone fiction and film provide the central focus of this book It proposes a new model of palimpsestic memory which the author defines as the condensation of different spatio temporal traces to describe these interconnections and defines the poetics and the politics of this composite form In doing so it is argued that a poetics dependent on tropes and techniques such as metaphor allegory and montage establishes connections across space and time which oblige us to perceive cultural memory not in terms of its singular attachment to a particular event or bound to specific ethno cultural or national communities but as a dynamic process of transfer between different moments of racialized violence and between different cultural communities The structure of the book allows for both the theoretical elaboration of this paradigm for cultural memory and individual case studies of novels and films
