Lectures On The I Ching:

Lectures on the I Ching Richard Wilhelm, 2014-07-14 Wilhelm frequently wrote and lectured on the Book of Changes supplying guidelines to its ideas and ways of thinking Collected here are four lectures he gave between 1926 and 1929 The lectures are significant not only for what they reveal about Chinese tradition and culture but also for their reflections of the scholarly and cultural milieu prevalent in Germany during that time Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Understanding the I Ching Hellmut Wilhelm, Richard Wilhelm, 1995 The West's foremost translator of the I Ching Richard Wilhelm thought deeply about how contemporary readers could benefit from this ancient work and its perennially valid insights into change and chance For him and for his son Hellmut Wilhelm the Book of Changes represented not just a mysterious book of oracles or a notable source of the Taoist and Confucian philosophies In their hands it emerges as it did for C G Jung as a vital key to humanity's age old collective unconscious Here the observations of the Wilhelms are combined in a volume that will reward specialists and aficionados with its treatment of historical context and that will serve also as an introduction to the I Ching and the meaning of its famous hexagrams

Baynes, **Yijing Wondering and Wandering** Jane Schorre,Carrin Dunne,2004 A unique contemplation of Yijing I Ching In the first part Wondering Jane Schorre ponders the meaning of the hexagrams taking into consideration their arrangement their relationships as thirty two reflecting pairs and their characters the Chinese names Along her way she retells selections from the classics of Laotse and Zhuangzi for illustration and clarification In the second part Wandering Carrin Dunne carries the meditation further wandering through the labyrinth of trigrams nuclear trigrams and line texts exploring psychological and spiritual meaning in the individual lines and their movements Along her way her discovery of the foursomes leads to a kaleidoscopic view of Yijing as a whole and to a new approach a key not the key to meaning in Yijing **Spiritual Mathematics** John Dunne-Brady,2014-02-13 This book opened an entirely new vista for organizing and using basic numbers It investigated standard linear numbers 1 2 3 4 5 and how they adversely affected our thinking and actions It carefully described a circular number system in which numbers were placed on concentric circles rather than on straight lines This new arrangement might very differently and beneficially affect our daily thought processes and activities The key discovery involved a series of ten mandalas circular patterns made from everyday numbers The book correlated these new breakthroughs with ancient spiritual patterns and practices found in the I Ching Yoga Kabala and in both Pagan and Christian mysteries These older teachings included the chakras tree of life tarot cards and sacraments Spiritual Mathematics gave a scientific explanation for many spiritual values and sacred phenomena It also emphasized the underlying spiritual realities encountered within modern scientific dogmas Organizational Change Series Hellmut Wilhelm,1973 **The Yijing and Chinese Politics** Tze-ki Hon,2012-02-01 This book is the first comprehensive study of Yijing Book of Changes commentary during the Northern Song period showing how it reflects a coming to terms with major political and social changes Seen as a transitional period in China s history the Northern Song 960 1127 is often described as the midpoint in the Tang Song transition or as the beginning of Song Ming Neo Confucianism Challenging this traditional view Tze ki Hon demonstrates the complexity of the Northern Song by breaking it into three periods characterized by alternately the reestablishment of civil governance large scale reforms and a descent into factional rivalry To illustrate the distinct characteristics of these three periods Hon compares commentaries by Hu Yuan Zhang Zai and Cheng Yi with five other Yijing commentaries highlighting the broad parameters as well as the specific content of an extremely important world

of discourse the debate on literati activism These differing views on the literati's role in civil governance prove how lively diverse and intense Northern Song intellectual life was while also reminding us how important it is to understand the history of the period on its own terms

Bollingen William McGuire, 1989-10-21 This lively intimate sometimes disrespectful but always knowledgeable history of the Bollingen Foundation confirms its pervasive influence on American intellectual life Conceived by Paul and Mary Mellon as a means of publishing in English the collected works of C G Jung the Foundation broadened to encompass scholarship and publication in a remarkable number of fields Here are wonderful portraits of the central figures including the Mellons Jung himself Heinrich Zimmer Joseph Campbell D T Suzuki Natacha Rambova Vladimir Nabokov Gershom Scholem Herbert Read and Kurt and Helen Wolff

A Companion to Yi jing Numerology and Cosmology Bent Nielsen, 2013-04-15 Translations of the Yi jing into western languages have been biased towards the yili meaning and pattern tradition whereas studies of the xiangshu image and number tradition which takes as its point of departure the imagery and numerology associated with divination and its hexagrams trigrams lines and related charts and diagrams has remained relatively unexplored This major new reference work is organised as a Chinese English encyclopedia arranged alphabetically according to the pinyin romanisation with Chinese characters appended A character index as well as an English index is included The entries are of two kinds technical terms and various other concepts related to the image and number tradition and bio bibliographical information on Chinese Yi jing scholars Each entry in the former category has a brief explanation that includes references to the origins of the term cross references and a reference to an entry giving a more comprehensive treatment of the subject

Sonic Transformations of Literary Texts Siglind Bruhn, 2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny
