**Disciplinary and Dissent in Cultural Studies** Cary Nelson,Dilip Gaonkar,2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly Disciplinary and Dissent in Cultural Studies answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to Disciplinary and Dissent in Cultural Studies include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle with cultural studies in disciplines like
