Literary habits naturally give way to literary affections Once upon a time a carpenter entered a forest and happened upon a wolf wearing a feathered cap Quick whose side are you on If you don t know we suggest reading a hearty round of fairytales Stories provide a roadmap for life This is because stories are life But oftentimes it s easiest to understand where we are when we can look through other eyes from the perspective of someone else living somewhere else somewhen else For those beginning to read for the first time or those beginning to read again The Book Tree will drop golden apples in your lap until you can climb high enough to pick for yourself     *Captives of Time* Malcolm Bosse,1989 Orphaned by the brutal murder of their parents Anne and her gentle but mute brother suffer great hardships as they travel across a dangerous pestilence ridden Europe to their uncle an armorer and clockmaker and after his death to a distant city to deliver the commissioned plans of his precious clock     The Core: Teaching Your Child the Foundations of Classical Education Leigh A. Bortins,2010-06-08 In the past correct spelling the multiplication tables the names of the state capitals and the American presidents were basics that all children were taught in school Today many children graduate without this essential knowledge Most curricula today follow a haphazard sampling of topics with a focus on political correctness instead of teaching students how to study Leigh Bortins a leading figure in the homeschooling community is having none of it She believes that there are core areas of knowledge that are essential to master Without knowing the multiplication tables children can t advance to algebra Without mastery of grammar students will have difficulty expressing themselves Without these essential building blocks of knowledge students may remember information but they will never possess a broad and deep understanding of how the world works In *The Core* Bortins gives parents the tools and methodology to implement a rigorous thorough and broad curriculum based on the classical model including Rote memorization to cement knowledge Systematic learning of geography historical facts and timelines Reading the great books and seminal historical documents instead of adaptations and abridged editions Rigorous training in math and the natural sciences     **It's a**
