## **Johns Riser Choreography:**

**Choral Conducting and the Construction of Meaning** Liz Garnett, 2017-07-05 It is a truism in teaching choral conducting that the director should look like s he wishes the choir to sound The conductor s physical demeanour has a direct effect on how the choir sings at a level that is largely unconscious and involuntary It is also a matter of simple observation that different choral traditions exhibit not only different styles of vocal production and delivery but also different gestural vocabularies which are shared not only between conductors within that tradition but also with the singers It is as possible to distinguish a gospel choir from a barbershop chorus or a cathedral choir by visual cues alone as it is simply by listening But how can these forms of physical communication be explained Do they belong to a pre cultural realm of primate social bonding or do they rely on the context and conventions of a particular choral culture Is body language an inherent part of musical performance styles or does it come afterwards in response to music At a practical level to what extent can a practitioner from one tradition mandate an approach as good practice and to what extent can another refuse it on the grounds that we don t do it that way This book explores these questions at both theoretical and practical levels It examines textual and ethnographic sources and draws on theories from critical musicology and nonverbal communication studies to analyse them By comparing a variety of choral traditions it investigates the extent to which the connections between conductor demeanour and choral sound operate at a general level and in what ways they are constructed within a specific idiom Its findings will be of interest both to those engaged in the study of music as a cultural practice and to practitioners involved in a choral conducting context that increasingly demands fluency in a variety of styles     *The Show Choir Handbook* Alan L. Alder, Thalia M. Mulvihill, 2016-07-08 With the popularity of television shows such as Glee American Idol and The Voice show choirs have become a vibrant component of college and high school music programs Music teachers must not only know how to teach choral singing for popular music but also be versed in show design and production In *The Show Choir Handbook* Alan L Alder and Thalia M Mulvihill address both song technique and show presentation giving show choir directors the full set of tools they need for successful performances *The Show Choir Handbook* is a resource for current and future music educators who administer show choirs With most literature on the topic either out of date or focused on the teaching techniques limited to vocal jazz drawing on the choral genre s origins as swing choirs instructors are in dire need of a resource that addresses music produced by publishers and choral arrangers     [John Jacobson's Riser Choreography](#) John Jacobson, 1993 Movement enhances even the simplest of musical settings It can bring energy to a dynamic show choir number or simple elegance to a beautiful concert piece without your choir ever leaving the risers John Jacobson s ideas for staging and choreography on choral risers have been compiled in this easy to use resource for the beginning or veteran choral director Covering basic formations visual effects and simple gestures that enhance the lyrics this practical guide will help you incorporate all kinds of staging into your performance Watch the companion video for the complete visual effect
