Joined in Discipleship Mark G. Toulouse, 1992 This new edition of a popular reference work explores Disciples faith and beliefs A Study Guide of Joined in Discipleship, the Maturing of an American Religious Movement William N. McCutchen, 1992 The Stone-Campbell Movement Michael W. Casey, Douglas Allen Foster, 2002 The religious reform tradition known as the Stone Campbell movement came into being on the American frontier in the early decades of the nineteenth century Named for its two principal founders Barton W Stone and Alexander Campbell its purpose was twofold to restore the church to the practice and teaching of the New Testament and by this means to find a basis for reuniting all Christians Today there are three major branches of the Stone Campbell tradition the Christian Church Disciples of Christ Churches of Christ and Christian Churches Churches of Christ This volume brings together twenty six essays drawn from the significant scholarship on the Stone Campbell Movement that has flourished over the past twenty years Reprinted from diverse scholarly journals and concentrating on historiographic issues the essays consider such topics as the movement s origins its influence on the presidency its presence in Britain and its multicultural aspects In their introduction Casey and Foster reveal the connections between this scholarship and larger issues of American history religion and culture They note that David Edwin Harrell Jr and Richard T Hughes both of whom are represented in the collection have provided competing paradigms of the social and intellectual history of the movement While Harrell defends the legitimacy of the sectarian non institutional Churches of Christ Hughes legitimizes the current progressive movement found in Churches of Christ Casey and Foster propose six additional historiographic constructs as alternatives to those of Harrell and Hughes and assess each paradigm s implications for the scholarship of the movement The first major survey of research on the Stone Campbell movement in a quarter of a century this book will also serve as an invaluable resource for scholars of American religious movements in general The Editors Michael W Casey is professor the communication at Pepperdine University He is the author of *The Battle Over Hermeneutics in the Stone Campbell Movement 1800 1870 and Saddlebags City Streets and Cyberspace A History of Preaching in the Churches of Christ* Douglas A Foster is associate professor of church history and director of the Center for Restoration Studies at Abilene Christian University He is author of *Will the Cycle Be Unbroken Churches of Christ Face the Twenty First Century* and co author of *The Crux of the Matter Crisis Tradition and the Future of Churches of Christ* The Contributors Peter Ackers Louis Billington Monroe Billington Paul M Blowers Michael W Casey Anthony L Dunnavant David B Eller Philip G A Griffin Allwood Jean F Hankins David Edwin Harrell Jr Nathan O Hatch L Edward Hicks Richard T Hughes Deryck W Lovegrove John L Morrison Russ Paden Paul D Phillips William C Ringenberg Stephen Vaughn Earl Irvin West Mont Whitson Glenn Michael Zuber **The Stone-Campbell Movement** Leroy Garrett, 2002 **Calvin's Theology and Its Reception** J. Todd Billings, I. John Hesselink, 2012-09-28 J Todd Billings and I John Hesselink have compiled an essential collection of essays for the study of John Calvin s theology Leading Calvin scholars

examine the early and late reception history of Calvin's fundamental teachings including reflections on the contemporary possibilities and limitations in developing Calvin's thought Contributors include Timothy Hessel Robinson Michael S Horton Mark Husbands David Little Suzanne McDonald Jeannine E Olson Sue A Rozeboom and Carl R Trueman Disciples and Theology Stephen Sprinkle, 1999

Of Borders and Margins Daisy L. Machado, 2003-03-13 The Christian Church Disciples of Christ has an uneasy relationship with its Hispanic constituency Machado probes the history of this tension by examining the Disciples interaction with Hispanics in Texas around the turn of the 20th century The Church's inability to develop significant ties with Hispanics resulted in the creation of a small church that exists on both the geographical and denominational margins of the Christian Church

The Cost of Unity Lawrence A. Q. Burnley, 2008 This work focuses on African Americans and the Disciples of Christ Like other Protestant organizations in the United States the Christian Church was involved in the establishment of schools for African Americans in the South in the years following the end of the Civil War The most widely read books offering an interpretation of the history of this church tend to relegate the role of black people to passive recipients of white benevolence and largesse in this process of education reform This book examines the agency of African Americans in the founding of educational institutions for blacks associated with the Christian Church The philosophical discourse within the Christian Church concerning the purpose type and control of these schools is examined as well as the prevailing racial assumptions and attitudes that informed each of these areas The author argues that African Americans within the Christian Church played an active role both in cooperating with Disciples mission agencies and acting independent of these agencies in the conceptualization and founding of schools for their communities In addition contrary to Disciples reformers claim of being motivated by their desire to elevate the Negro race the nearly exclusive application of the industrial model of education in schools established by the Disciples of Christ mission agencies for African Americans reflects an intentional effort by whites within this movement to encumber African American efforts to achieve socioeconomic and political advancement autonomy and self determination Finally the conservative approach to schooling for African Americans was largely the result of northern Disciples acquiescence to the demands of Southern members of the church for the sake of maintaining unity within the national church

One Lord, One Faith, Second Edition Rex A. Koivisto, 2009-01-01 One Lord One Faith is a plea and plan to re envision the Church as a broad cross denominational community with a shared faith in the Christ of the Gospel It both affirms the place and inevitability of individual denominational traditions and also provides a grid from which to distinguish those denominational traditions from the core of historical orthodoxy shared by the entire Christian community The book seeks to distinguish denominationalism from sectarianism and identifies sectarianism as the true enemy of historic catholicity
