This Sacred Earth Roger S. Gottlieb, 2003-11-07 Updated with nearly forty new selections to reflect the tremendous growth and transformation of scholarly theological and activist religious environmentalism, the second edition of *This Sacred Earth* is an unparalleled resource for the study of religion's complex relationship to the environment.

The Solution For Black America: Emmanuel Barbee, 2010-02-10 *The Solution For Black America: Reclaiming, Rebuilding and Restoring The Urban Ghettos In America* explains my biography and the purpose of this book, which is to promote my non-profit faith-based organization in every ghetto in America. My non-profit organization is twofold: one is to recruit prospective readers and two is to seek Single Black Mothers who reside in the ghetto that might want to use the services we will offer. My organization will provide resources to help low-income mothers with their children from birth until they complete High School. My organization will also help our young Black Men to avoid the streets and be productive citizens. I lay everything out in detail in my book. If the black community support me and accept the principles behind this movement, then I will move my services from behind a computer into every ghetto in America. I will provide employment, community resources, and online support groups.

A Greener Faith Roger S. Gottlieb, 2009-10 world making political agenda that far exceeds interest group politics applied to forests and toxic incinerators. Rather, religious environmentalism offers an all-inclusive vision of what human beings are and how we should treat each other and the rest of life. Gottlieb analyzes the growing synthesis of the movement's religious, social, and political aspects as well as the challenges it faces in consumerism, fundamentalism, and globalization.

The Whole Child Seamus Carey, 2003 *The Whole Child* is a beautifully written book combining classic philosophical themes like wonder and happiness with modern parenting virtues like courage, compassion, integrity, and discipline. Seamus Carey uses anecdotes from his own experience as a parent, some amusing and some poignant, to illustrate philosophical concepts. The result is a rare work as valuable to the serious student of philosophy as it is to Carey's fellow parents. Carey argues that parents need to rediscover the sense of wonder, the ontological depth with which children experience life, and offers suggestions for how this recovery might take place. In so doing, Carey uncovers standards and ideas for raising children that reach beyond those typically considered by the modern family.

Visionary Women Writers of Chicago's Black Arts Movement Carmen L. Phelps,2013 A disproportionate number of male writers including such figures as Amiri Baraka Larry Neal Maulana Karenga and Haki Madhubuti continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement Though there has arisen an increasing amount of scholarship that recognizes leading women artists activists and leaders of this period these new perspectives have yet to recognize adequately the ways women aspired to far more than a mere dismantling of male oriented ideals In *Visionary Women Writers of Chicago s Black Arts Movement* Carmen L Phelps examines the work of several women artists working in Chicago a key focal point for the energy and production of the movement Angela Jackson Johari Amiri and Carolyn Rodgers reflect in their writing specific cultural local and regional insights and demonstrate the capaciousness of Black Art rather than its constraints Expanding from these three writers Phelps analyzes the breadth of women s writing in BAM In doing so Phelps argues that these and other women attained advantageous and unique positions

to represent the potential of the BAM aesthetic even if their experiences and artistic perspectives were informed by both social conventions and constraints In this book Phelps s examination brings forward a powerful and crucial contribution to the aesthetics and history of a movement that still inspires **Awake to the Moment** Laurel C. Schneider,Stephen G. Jr. Ray,2004-12-01 Most introductory textbooks in theology see their primary task as explaining Christian doctrines that no one quite understands anymore While this is one of theology s jobs it is by no means the only nor even the most important one Theology has also been called to change the world to help people connect deeply rooted beliefs about the world s source and goal to questions of personal meaning and communal thriving Theology is here to help us make sense of the complex flawed world into which we ve been thrust and to assist us in our attempt to love our neighbors and live toward the common good For more than forty years the Workgroup on Constructive Theology has brought the liberal and liberationist theological traditions into creative encounter with lived human experience In this introduction to the methods and tasks of theology they invite a new generation of readers many who will have little or no exposure to Christian doctrine to see theology as a partner in the struggle for a better world They demonstrate how theological ideas have legs playing themselves out not only in religious communities but in the public square as well Theology the authors tell us is constructive when it joins in God s work of building human lives and human societies Readers will learn to think about all of life in light of their religious commitments and to see theology as an essential tool for a life well lived Progressive Community Organizing Loretta Pyles,2013-07-24 The second edition of Progressive Community Organizing offers a concise intellectual history of community organizing and social movements while also providing practical tools geared toward practitioner skill building Drawing from social constructionist feminist and critical traditions Progressive Community Organizing affirms the practice of issue framing and offers two innovative frameworks that will change the way students of organizing think about their work Progressive Community Organizing is ideal for both undergraduate and graduate courses focused on community theory and practice community organizing community development and social change and service learning The second edition presents new case studies including those of a welfare rights organization and a youth led LGBTQ organization There are also new sections on the capabilities approach queer theory the Civil Rights movement and the practices of self inquiry and non violent communication Discussion of global justice has been expanded significantly and includes an account of a transnational action research project in post earthquake Haiti Each chapter contains discussion questions written and web resources and a list of key terms a full free access companion website is also available for the book **The Routledge Companion to the Study of Religion** , *After Trump* Donald Heinz,2020-03-18 A black social gospel movement arose after the Civil War to mitigate the broken promises of reparations and the reestablishment of white supremacy After the Gilded Age a new social gospel arose in the early twentieth century that brought together Christian proclamation and an ethic of social justice that became liberal Protestantism s distinctive contribution to world Christianity leaving residues in the New Deal and the Great Society

In the face of poverty and bondage in the 1960s Martin Luther King Jr led a second wave of the black social gospel movement and died for it as prophets do It birthed new liberation movements on many fronts Again things fell apart as the Reagan Revolution massively redistributed wealth and social benefits upward and late capitalism flourished In this environment tax cuts for the wealthy and massive inequalities grew and President Trump inherited the resentments of the Christian Right and the opportunism of economic conservatives Would a recurring social gospel have made a difference After Trump American Christianity faces another crisis of decision Will the strange God of the Bible be re called will the churches re live as social movements that bring good news to all the people will American Christianity re contest the public square and proclaim a new social gospel for our times This book is an invitation and a manifesto

Postcolonial Imagination and Feminist

Theology Pui-lan Kwok,2005-01-01 The burgeoning field of postcolonial studies argues that most theology has been formed in dominant cultures laden intrinsically with imperializing structures An essential task facing theology is thus to decolonize the mind and free Christianity from colonizing bias and structures Here in this truly groundbreaking study highly respected feminist theologian Kwok Pui lan offers the first full length theological treatment of what it means to do postcolonial feminist theology She explains her methodological basis and explores several specific topics including Christology pluralism and creation

The Oxford Handbook of Religion and Ecology Roger S. Gottlieb,2006-11-09 The last two decades have seen the emergence of a new field of academic study that examines the interaction between religion and ecology Theologians from every religious tradition have confronted world religions past attitudes towards nature and acknowledged their own faiths complicity in the environmental crisis Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings The proposed handbook will serve as the definitive overview of these exciting new developments Divided into three main sections the books essays will reflect the three dominant dimensions of the field Part one will explore traditional religious concepts of and attitudes towards nature and how these have been changed by the environmental crisis Part II looks at larger conceptual issues that transcend individual traditions Part III will examine religious participation in environmental politics

Toward a New Socialism

Anatole Anton,Richard Schmitt,2007-01-01 Toward a New Socialism offers a critical analysis of capitalism s failings and the imminent need for socialism as an alternative form of government This book demonstrates that capitalism is destructive and limiting to the many ongoing campaigns to increase freedom equality and security Dr Richard Schmitt joins with Dr Anatole Anton to compile a volume of essays exploring the benefits and consequences of a socialist system as an avenue of increased human solidarity and ethical principle The essays offer a new definition of socialism by investigating the theories and

principles of socialism its influence on social institutions and its role in work dynamics Raising important and unavoidable questions for contemporary society *Toward a New Socialism* is a vital resource for scholars of political theory and the globalization movement as well as a necessary read for every citizen under capitalism **Political and Spiritual** Roger S. Gottlieb, 2014-10-23 This book gathers a variety of illuminating essays by an internationally known scholar of religion and ecology New writings on technology facing death and an intellectual autobiography continue Gottlieb's unique ability to connect collective struggles for a just and caring society with personal strivings for wisdom and compassion *Racing to Justice* John A. Powell, 2012-09-06 Renowned social justice advocate John A. Powell persuasively argues that we have not achieved a post racial society and that there is much work to do to redeem the American promise of inclusive democracy Culled from a decade of writing about social justice and spirituality these meditations on race identity and social policy provide an outline for laying claim to our shared humanity and a way toward healing ourselves and securing our future *Racing to Justice* challenges us to replace attitudes and institutions that promote and perpetuate social suffering with those that foster relationships and a way of being that transcends disconnection and separation
