Jonathan Worth A Biography Of A Southern Unionist:

Jonathan Worth Richard L. Zuber, 1965 In 1896 the Great Brain of Adenville Utah is almost twelve years old and more mischievous than ever in his practical jokes and schemes against everyone in town **Jonathan Worth** Richard L. Zuber, 1965 Jonathan Worth lawyer businessman public financier and finally governor of North Carolina typified the Union advocate of the antebellum South This skillful biography explores in detail Worth's efforts to avoid secession in 1861 his lack of enthusiasm for the Civil War and his rejection of the reconstruction proposals Originally published in 1965 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Dictionary of North Carolina Biography** William S. Powell, 2000-11-09 The most comprehensive state project of its kind the Dictionary provides information on some 4 000 notable North Carolinians whose accomplishments and occasional misdeeds span four centuries Much of the bibliographic information found in the six volumes has been compiled for the first time All of the persons included are deceased They are native North Carolinians no matter where they made the contributions for which they are noted or non natives whose contributions were made in North Carolina *The Origins of the Southern Middle Class, 1800-1861* Jonathan Daniel Wells, 2005-11-16 With a fresh take on social dynamics in the antebellum South Jonathan Daniel Wells contests the popular idea that the Old South was a region of essentially two classes planters and slaves until after the Civil War He argues that in fact the region had a burgeoning white middle class including merchants doctors and teachers that had a profound impact on southern culture the debate over slavery and the coming of the Civil War Wells shows that the growth of the periodical press after 1820 helped build a cultural bridge between the North and the South and the emerging southern middle class seized upon northern middle class ideas about gender roles and reform politics and the virtues of modernization Even as it sought to emulate northern progress however the southern middle class never abandoned its attachment to slavery By the 1850s Wells argues the prospect of industrial slavery in the South threatened northern capital and labor causing sectional relations to shift from cooperative to competitive Rather than simply pitting a backward slave labor agrarian South against a progressive free labor industrial North Wells argues that the Civil War reflected a more complex interplay of economic and cultural values **A Man of Bad Reputation** Drew A. Swanson, 2023-08-29 Five years after the Civil War North Carolina Republican state senator John W Stephens was found murdered inside the Caswell County Courthouse Stephens fought for the rights of freedpeople and his killing by the Ku Klux Klan ultimately led to insurrection Governor William W Holden's impeachment and the early unwinding of Reconstruction in North Carolina In recounting Stephens's murder the subsequent investigation and court proceedings and the long delayed confessions that revealed what actually happened at the courthouse in 1870 Drew A Swanson tells a story of race politics and social power shaped by

violence and profit The struggle for dominance in Reconstruction era rural North Carolina Swanson argues was an economic and ecological transformation Arson beating and murder became tools to control people and landscapes and the ramifications of this violence continued long afterward The failure to prosecute anyone for decades after John Stephens s assassination left behind a vacuum as each side shaped its own memory of Stephens and his murder The malleability of and contested storytelling around Stephens s legacy presents a window into the struggle to control the future of the South

The 4th North Carolina Cavalry in the Civil War Neil Hunter Raiford,2015-09-03 In April 1862 the Civil War was entering its second year and North Carolina was rallying to supply more troops for the Confederacy The Partisan Ranger Act passed by the Confederate Congress on April 21 prompted local leaders to recruit companies of irregular soldiers for service in the Confederate Army Seven such companies were banded together into a regiment to form the 4th North Carolina Cavalry a true cross section of North Carolina it contained soldiers from the largest urban areas and smallest rural areas from fifteen counties This history of the 4th North Carolina Cavalry is based largely on primary source material the official records letters diaries and recollections of the soldiers The 4th North Carolina saw action in North Carolina Virginia Maryland and Pennsylvania and was a part of General Lee s Army of Northern Virginia The roster comprises a large part of the book and provides biographical genealogical and military information about each soldier

Radical Reform Deborah Beckel,2010-12-08 Radical Reform describes a remarkable chapter in the American pro democracy movement It portrays the largely unknown leaders of the interracial Republican Party who struggled for political civil and labor rights in North Carolina after the Civil War In so doing they paved the way for the victorious coalition that briefly toppled the white supremacist Democratic Party regime in the 1890s Beckel provides a nuanced assessment of the distinctive coalitions built by black and white Republicans as they sought to outmaneuver the Democratic Party She demonstrates how the dynamic political conditions in the state from 1850 to 1900 led reformers of both races to force their traditional society toward a more radical agenda By examining the evolution of anti elitist politics and organized labor in North Carolina Beckel brings a new understanding to party factionalism of the 1870s and 1880s As racial conditions deteriorated across America in the 1890s North Carolina Republicans forged a fragile coalition with Populists While this interracial pro democracy movement proved triumphant by 1894 it carried the seeds of its ultimate destruction

Reconstructing Appalachia Andrew L. Slap,2010-05-28 Families communities and the nation itself were irretrievably altered by the Civil War and the subsequent societal transformations of the nineteenth century The repercussions of the war incited a broad range of unique problems in Appalachia including political dynamics racial prejudices and the regional economy Andrew L Slap s anthology Reconstructing Appalachia reveals life in Appalachia after the ravages of the Civil War an unexplored area that has left a void in historical literature Addressing a gap in the chronicles of our nation this vital collection explores little known aspects of history with a particular focus on the Reconstruction and post Reconstruction periods Acclaimed scholars John C Inscoe

Gordon B McKinney and Ken Fones Wolf are joined by up and comers like Mary Ella Engel Anne E Marshall and Kyle Osborn in a unique volume of essays investigating postwar Appalachia with clarity and precision. Featuring a broad geographic focus, these compelling essays cover postwar events in Georgia, Kentucky, North Carolina, Tennessee, West Virginia, and Pennsylvania. This approach provides an intimate portrait of Appalachia as a diverse collection of communities where the values of place and family are of crucial importance. Highlighting a wide array of topics including racial reconciliation, tension between former Unionists and Confederates, the evolution of post-Civil War memory, and altered perceptions of race, gender, and economic status, *Reconstructing Appalachia* is a timely and essential study of a region rich in heritage and tradition.

Writings of a Rebel: Colonel Samuel Walkup, 1818-1876 (2021-11-02). Lawyer, planter, and politician Samuel Hoey Walkup (1818-1876) led the 48th North Carolina Infantry in the Civil War. A devout Christian and Whig nationalist, he opposed secession until hostilities were well underway, then became a die-hard Confederate, serving in the Army of Northern Virginia from the Seven Days battles through Appomattox. Presenting Walkup's complete and annotated writings, this composite biography of an important but overlooked Southern leader reveals an insightful narrator of his times. Having been a pre-war civilian outside the West Point establishment, he offers a candid view of Confederate leadership, particularly Robert E. Lee and A. P. Hill. Home life with his wife Minnie Parmela Reece Price and the enslaved members of their household was a complex relationship of cooperation and resistance, congeniality and oppression. Walkup's story offers a cautionary account of misguided benevolence supporting profound racial oppression. *A Traitor and a Scoundrel* (Michael Thomas Smith, 2003). In 1856, Benjamin Hedrick broke with his white North Carolinian peers by taking an antislavery position on the question of the incorporation of the territories. This biography tells the story of how he developed that position, the loss of his position as a professor of chemistry, and his subsequent exile. *Henry Wilson and the Era of Reconstruction* (John L. Myers, 2009-07-29). Already a leader of the Republican party when the Civil War began, Henry Wilson had distinguished himself as the most important Congressional figure on military and antislavery and pro-black legislation during the war. During the Era of Reconstruction, Wilson fought to protect the rights of the newly freed slaves, but he was opposed to the severe punishment of Confederate leaders and initially tried to be conciliatory toward President Johnson's lenient policies. Soon, Wilson joined others in promoting Congress's own Reconstruction program, including the 14th and 15th Amendments, the Military Reconstruction Acts, and the impeachment of the President. He became the Republican Party's most frequently used campaign speaker. Long recognized as a spokesman for labor, he was also the foremost national politician promoting the cause of prohibition. He wrote the most authoritative three-volume work on the causes of the Civil War from the northern viewpoint. He was also a frequent contributor to the era's most influential religious periodical. In 1872, Wilson was rewarded for his political activities when he was nominated and elected as the country's vice president. *A Hero to His Fighting Men* (Peter R. DeMontravel, 1998). In this reassessment of the career of Nelson A. Miles, which he began as a volunteer officer in the Civil War, the author suggests that comments made

by his enemies influenced the way Miles's career has been viewed by historians and tries to readdress this **Confederate Conscription and the Struggle for Southern Soldiers** John M. Sacher, 2021-12-08 Winner of the Jules and Frances Landry Award Finalist for the 2022 Gilder Lehrman Lincoln Prize In April 1862 the Confederacy faced a dire military situation Its forces were badly outnumbered the Union army was threatening on all sides and the twelve month enlistment period for original volunteers would soon expire In response to these circumstances the Confederate Congress passed the first national conscription law in United States history This initiative touched off a struggle for healthy white male bodies both for the army and on the home front where they oversaw enslaved laborers and helped produce food and supplies for the front lines that lasted till the end of the war John M Sacher's history of Confederate conscription serves as the first comprehensive examination of the topic in nearly one hundred years providing fresh insights into and drawing new conclusions about the southern draft program Often summarily dismissed as a detested policy that violated states rights and forced nonslaveholders to fight for planters the conscription law elicited strong responses from southerners wanting to devise the best way to guarantee what they perceived as shared sacrifice Most who bristled at the compulsory draft did so believing it did not align with their vision of the Confederacy As Sacher reveals white southerners desire to protect their families support their communities and ensure the continuation of slavery shaped their reaction to conscription For three years Confederates tried to achieve victory on the battlefield while simultaneously promoting their vision of individual liberty for whites and states rights While they failed in that quest Sacher demonstrates that southerners response to the 1862 conscription law did not determine their commitment to the Confederate cause Instead the implementation of the draft spurred a debate about sacrifice both physical and ideological as the Confederacy's insatiable demand for soldiers only grew in the face of a grueling war Encyclopedia of the Reconstruction Era Richard Zuczek, 2006-08-30 Reconstruction sought to bring order from the tremendous social political economic physical and constitutional changes wrought by secession and the Civil War changes that included the abolition of slavery the expansion of governmental power and constitutional jurisdiction the rise of the Republican Party the explosion of northern industry and the national market and the appearance of a social dynamism that supported struggles by new social groups for political and civil equality In American history Reconstruction is the term applied to the period 1862-1877 when the United States sought to bring order from the tremendous social political economic physical and constitutional changes wrought by secession and the Civil War The decision by eleven southern states to attempt secession and reject the national government and the decision by the federal government under President Abraham Lincoln to deny that attempt and enforce federal law unleashed forces that forever changed the American Republic These changes included the abolition of slavery the expansion of governmental power and constitutional jurisdiction the rise of the Republican Party the explosion of northern industry and the national market and the appearance of a social dynamism that supported struggles by new social groups for political and civil equality No one

anticipated the totality the viciousness and the intensity of the civil war and as a result no one was prepared to deal with its consequences Topics covered include who should direct Reconstruction how the federal government treated conquered states their governments and their soldiers the role of the freed people in the new republic and how the war altered the Constitution the party system and the American economy among many others Many entries describe and analyze the lives careers and impacts of the individuals North and South black and white who shaped the course of Reconstruction including the following Ames Adelbert Bruce Blanche K Douglass Frederick Gordon John B Hancock Winfield S Howard Oliver O Pinchback Pinckney B S Revels Hiram R Sheridan Philip H Wade Benjamin F Other entries deal with broad topics and themes related to Reconstruction and its consequences including the following Abolition of Slavery Black Politicians Black Suffrage Bloody Shirt Economic Policies Race Riots Reconstruction Theories of Scandals During Reconstruction State Constitutional Conventions Violence During Reconstruction Still other entries cover a wide variety of events groups acts agencies and amendments that were part of the story of Reconstruction including the following American Indians Bureau of Refugees Freedmen and Abandoned Lands Compromise of 1877 Democratic Party Fourteenth Amendment Joint Committee on Reconstruction Loyalty Oaths Military Reconstruction Acts Stalwarts Tenure of Office Act Among the more than 270 entries are 11 that discuss the course and consequences of Reconstruction in each of the former Confederate states and 6 that discuss the outcome and significance of the presidential and key congressional elections held between 1864 and 1876 The encyclopedia also offers a timeline of Reconstruction a bibliography of print and electronic information resources a selection of primary documents a table of important dates numerous illustrations and a detailed subject index

The Making of a Confederate William L. Barney, 2007-11-14 Despite the advances of the civil rights movement many white southerners cling to the faded glory of a romanticized Confederate past In *The Making of a Confederate* William L Barney focuses on the life of one man Walter Lenoir of North Carolina to examine the origins of southern white identity alongside its myriad ambiguities and complexities Born into a wealthy slaveholding family Lenoir abhorred the institution opposed secession and planned to leave his family to move to Minnesota in the free North But when the war erupted in 1860 Lenoir found another escape route he joined the Confederate army an experience that would radically transform his ideals After the war Lenoir like many others embraced the cult of the Lost Cause refashioning his memory and beliefs in an attempt to make sense of the war its causes and its consequences While some Southerners sank into depression aligned with the victors or fiercely opposed the new order Lenoir withdrew to his acreage in the North Carolina mountains There he pursued his own vision of the South's future one that called for greater self sufficiency and a more efficient use of the land For Lenoir and many fellow Confederates the war never really ended As he tells this compelling story Barney offers new insights into the ways that selective memory informs history through Lenoir's life readers learn how individual choices can transform abstract historical processes into concrete actions

The Mind of the Master Class Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 *The Mind of the*

Master Class tells of America's greatest historical tragedy. It presents the slaveholders as men and women, a great many of whom were intelligent, honorable, and pious. It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves. The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society. Blending classical and Christian traditions, they forged a moral and political philosophy designed to sustain conservative principles in history, political economy, social theory, and theology while translating them into political action. Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours, beginning with the virtues and failings of their own society and culture.

Reconstruction Richard Zuczek, 2015-11-10

Composed by the leading historians in the field, this single volume encyclopedia on Reconstruction delivers the most concise, focused, and readable reference work available to educators and students. In many ways, the Civil War destroyed the American South: the Democratic Party and slavery with much of the nation left in ruins. What was to become of former slaves and of former confederates? Yet the unprecedented turmoil that followed the war presented the United States with great opportunities. How America tried to solve the problems and take advantage of opportunities after the Civil War is the focus of this encyclopedia, which provides the core elements necessary for researching and understanding the complex period in U.S. history known as Reconstruction. The volume offers a concise introduction to and chronology of the Reconstruction period, scores of entries composed by subject experts, and an appendix that features key primary documents. The entries have been carefully chosen for their importance and relevance, are written in language accessible to high school students, and supply useful references for further investigation. This volume will be indispensable for research into Reconstruction and affords anyone studying the United States during this period insight and perspective, whether the topic be African American history, the Civil War, Abraham Lincoln, or the coming of sharecropping.

Blood and War at My Doorstep Brenda Chambers McKean, 2011-03-22

Between these pages, the reader will learn that North Carolina citizens did not idly stand by as their soldiers marched off to war. The women worked themselves into patriotic exhaustion through Aid Societies. Civilians with different means of support, from the lower class to the plantation mistress, wrote the governor complaining of hoarding, speculation, the tithe, bushwhackers, unionism, conscription, and exemptions. Never before had so many died due to guerilla warfare. Unknown before, starving women with weapons stormed the merchant or warehouses in search for food. Others turned to smuggling, spying, or nature's oldest profession. Information from period newspapers as well as mostly unpublished letters tell their stories.
