Jordans Palestinian Challenge 1948 1983 A Political History:

Jordan's Palestinian Challenge, 1948-1983 Clinton Bailey, 2019-03-04 Two thirds of all Palestinians are Jordanian citizens living on the East and West Banks a sizable number also reside and work in various parts of the Arabian Peninsula With the questions of ultimate sovereignty over the West Bank and the Gaza Strip attracting much international attention since Israel's occupation of these areas in 1967 the solution to the Palestinian question is often seen as entirely dependent on Palestinian relations with Israel despite the fact that only one third of the Palestinians live in the occupied territories In contrast Palestinian relations with the Arab states including Jordan are generally portrayed as a sideshow to the main theater of conflict This book examines the thirty five year struggle between the Hashimite monarchy and the forces of Palestinian nationalism over the future identity and perhaps location of those two thirds of the Palestinian people who have been Jordanian subjects since 1948 Dr Bailey bases his study on open sources reports appearing in the Arab Israeli and world press in addition to academic studies and published memoirs of persons involved in the events described providing an accurate portrayal of the significant developments in Jordan's Palestinian challenge over the past thirty five years

Clea Lutz Hupp, 2014-02-28 US foreign policy in the Middle East has faced a challenge in the years since World War II balancing an idealistic desire to promote democracy against the practical need to create stability Here Cleo Bunch puts a focus on US policy in Jordan from the establishment of the state of Israel in 1948 to 1970 and the run up to Black September These years saw a phase where the Middle East became a stage on which Cold War rivalries were played out as the US was keen to encourage and maintain alliances in order to counteract Soviet influence in Egypt and Syria Bunch s analysis of US foreign policy and diplomacy vis a vis Jordan will appeal to those researching both the history and the contemporary implications of the West s foreign policy in the Middle East and the effects of international relations on the region **Gender and Nation Building in the Middle East** Elise G. Young, 2011-11-30 From Mandate Palestine to refugee camps in Jordan today generations of Palestinians have been affected by the reach of the state into their everyday lives Here Elise Young offers an analysis of the politics of state building in the Middle East viewed through the lens of health Young argues that gendered raced and classed constructions of health as evidenced in malaria eradication campaigns and the regularization of midwifery are central to such state building processes She draws on archival documents to uncover British medical administration and American involvement during the Mandate and in depth oral histories of Palestinian women refugees in Jordan Making a powerful case for an alternative historiography of the region this book will be invaluable for all those interested in Middle East history and politics nationalism gender public health and refugees *Home and Homeland* Linda L. Layne, 2019-01-15 In this provocative examination of collective identity in Jordan Linda Layne challenges long held Western assumptions that Arabs belong to easily recognizable corporate social groups Who is a true Jordanian Who is a true Bedouin These questions according to Layne are examples of a kind of pigeonholing that has distorted the reality of Jordanian national politics In developing an alternate approach she shows that the fluid social identities of Jordan emerge from an ongoing dialogue among tribespeople members of the intelligentsia Hashemite rulers and Western social scientists Many commentators on social identity in the Middle East limit their studies to the village level but Layne s goal is to discover how the identity building processes of the locality and of the nation condition each other She finds that the tribes creates their own cultural homes through a dialogue with official nationalist rhetoric and

Jordanian urbanites while King Hussein in turn maintains the idea of the homeland in many ways that are powerfully influenced by the tribespeople. The identities so formed resemble the shifting irregular shapes of postmodernist landscapes but Hussein and the Jordanian people are also beginning to use a classically modernist linear narrative to describe themselves. Layne maintains however that even with this change Jordanian identities will remain resistant to all or nothing descriptions. Linda L Layne is Alma and H Erwin Hale Teaching Professor of Humanities and Social Sciences in the Department of Science and Technology Studies at Rensselaer Polytechnic Institute. My Voice Is My Weapon David A. McDonald, 2013-11-06 David A McDonald presents an ethnographic study of the role of music and musicians in the Palestinian struggle for self determination.

Violence, Nonviolence, and the Palestinian National Movement Wendy Pearlman, 2011-10-24 Why do some national movements use violent protest and others nonviolent protest? Wendy Pearlman shows that much of the answer lies inside movements themselves. Nonviolent protest requires coordination and restraint which only a cohesive movement can provide. When by contrast a movement is fragmented factional competition generates new incentives for violence and authority structures are too weak to constrain escalation. Pearlman reveals these patterns across one hundred years in the Palestinian national movement with comparisons to South Africa and Northern Ireland. To those who ask why there is no Palestinian Gandhi Pearlman demonstrates that nonviolence is not simply a matter of leadership. Nor is violence attributable only to religion, emotions or stark instrumentality. Instead a movement's organizational structure mediates the strategies that it employs. By taking readers on a journey from civil disobedience to suicide bombings this book offers fresh insight into the dynamics of conflict and mobilization.

Colonial Effects Joseph A. Massad, 2001-09-11 Colonial Effects analyzes the creation and definition of modern Jordanian identity. Massad studies two key institutions: the law and the military and uses them to create an original and precise analysis of the development of Jordanian national identity in the postcolonial period. Joseph A Massad engages recent scholarly debates on nationalism and richly fulfills the analytical promise of Michel Foucault's insight that modern institutions and their power to have productive not merely repressive or coercive capacities though Massad also stresses their continued repressive function. His argument is advanced by a consideration of evidence including images produced by state tourist agencies aimed at attracting Western visitors, the changing and precarious position of women in the newly constructed national space and such practices as soccer games, music, songs, food, clothing and shifting accents and dialects.

Abdullah al-Tall -- Arab Legion Officer Ronen Yitzhak, 2012-06-25 Reviews al Tall's military political biography.

during the years he served as an officer in the Arab Legion and those he spent in political exile in Egypt This book helps to understand al Tall s personality his contribution to the success of the Arab Legion in the 1948 war and his part in the assassination of King Abdullah **Routledge Companion to the Israeli-Palestinian Conflict** Asaf Siniver,2022-10-27

This Companion explores the Israeli Palestinian conflict from its inception to the present day demonstrating the depth and breadth of the many facets of the conflict from the historical political and diplomatic to the social economic and pedagogical aspects The contributions also engage with notions of objectivity and bias and the difficulties this causes when studying the conflict in order to reflect the diversity of views and often contentious discussion surrounding this conflict The volume is organized around six parts reflecting the core aspects of the conflict historical and scholarly context of the competing narratives contemporary evolution of the conflict and its key diplomatic junctures key issues of the conflict its local dimensions international environment of the conflict the other images of the conflict as reflected in public opinion popular culture the boycott divestment and sanctions BDS movement and academia and pedagogy Providing a comprehensive approach to the Israeli Palestinian conflict this companion is designed for academics researchers and students interested in the key issues and contemporary themes of the conflict **Right-sizing the State** Brendan O'Leary,Ian Lustick,Thomas M. Callaghy,2001 Strategic decisions to reduce the size scope or ambitions of organizations including states in order to enhance future prospects are among the most difficult and least well understood choices made in collective life This volume makes a bold effort to identify the conditions in which less really is more Each contributor to the volume analyzes the possibilities for institutional redesign including state contraction for responding effectively to destabilizing and often violence laden conflicts Among the countries discussed in detail are Turkey Pakistan Morocco Congo Jordan Indonesia Russia and the former Soviet Union Iraq and India An impressive array of experts assess strategies that go against the grain strategies to righsize and even downsize states by changing their external and internal borders Typically this means opposing prevailing prejudices against partition and seraratist solutions as well as paying high political costs in the short run for more manageable political problems in the long run Understanding the conditions under which such strategies can be entertained and successfully implemented is as difficult and as important as making this kind of option available to beleaguered states in a complex and rapidly changing world Jordanian-Israeli Relations Mutayyam al O'ran,2008-11-14 This book charts Jordanian Israeli relations from a Jordanian perspective since 1994 and explores the reasons as to why a warmer peace hasn t developed as a product of the peacebuilding process **Palestinians Born in Exile** Juliane Hammer,2009-08-17 In the decade following the 1993 Oslo Peace Accords some 100 000 diasporic Palestinians returned to the West Bank and Gaza Among them were children and young adults who were born in exile and whose sense of Palestinian identity was shaped not by lived experience but rather through the transmission and re creation of memories images and history As a result returning to the homeland that had never actually been their home presented challenges and disappointments for these young Palestinians who found

their lifeways and values sometimes at odds with those of their new neighbors in the West Bank and Gaza This original ethnography records the experiences of Palestinians born in exile who have emigrated to the Palestinian homeland Juliane Hammer interviews young adults between the ages of 16 and 35 to learn how their Palestinian identity has been affected by living in various Arab countries or the United States and then moving to the West Bank and Gaza Their responses underscore how much the experience of living outside of Palestine has become integral to the Palestinian national character even as Palestinians maintain an overwhelming sense of belonging to one another as a people **From Resilience to Revolution**

Sean L. Yom, 2015-12-01 Based on comparative historical analyses of Iran Jordan and Kuwait Sean L Yom examines the foreign interventions coalitional choices and state outcomes that made the political regimes of the modern Middle East A key text for foreign policy scholars From Resilience to Revolution shows how outside interference can corrupt the most basic choices of governance who to reward who to punish who to compensate and who to manipulate As colonial rule dissolved in the 1930s and 1950s Middle Eastern autocrats constructed new political states to solidify their reigns with varying results Why did equally ambitious authoritarians meet such unequal fates Yom ties the durability of Middle Eastern regimes to their geopolitical origins At the dawn of the postcolonial era many autocratic states had little support from their people and struggled to overcome widespread opposition When foreign powers intervened to bolster these regimes they unwittingly sabotaged the prospects for long term stability by discouraging leaders from reaching out to their people and bargaining for mass support early coalitional decisions that created repressive institutions and planted the seeds for future unrest Only when they were secluded from larger geopolitical machinations did Middle Eastern regimes come to grips with their weaknesses and build broader coalitions **The Middle East**, 1989 Inter-Arab Alliances Curtis R. Ryan, 2009-01-04

There is a method to the apparent madness of Arab politics In a region where friends can become enemies and enemies become friends seemingly at the drop of the hat Curtis Ryan argues that there is logic to be found Through fourteen years of field research and interviews with key policy makers Ryan examines the remarkably stable Jordan as a microcosm of the region's politics He traces the last four decades of Jordanian foreign policy in an attempt to better understand what seems like chaos What Ryan finds is an approach that is fundamentally different from alliances made in the West in both how and why they are made With governmental change and upheaval occurring on a seemingly regular basis Arab nations approach diplomacy with much different means and potential ends The impact of this diplomacy is arguably the most immediate in the world today as conflict with words and conflict with weapons are sometimes separated by mere days The topic of international relations in the Arab world is as complex as it is important Ryan gives the reader the theoretical background and shows its direct applicability through the foreign policy of Jordan Greater Syria Daniel Pipes, 1992-03-26 While for many years scholars and journalists have focused on the more obvious manifestations of political life in the Middle East one major theme has been consistently neglected This is Pan Syrian nationalism the dream of creating a Greater Syria out of an

area now governed by Syria Lebanon Israel Jordan and Turkey Though not nearly as well known as Arab or Palestinian nationalism and hardly studied in depth Pan Syrianism has had a profound effect on Middle Eastern politics since the end of World War I In Greater Syria the noted Middle East scholar Daniel Pipes provides the first comprehensive account of this intriguing important and little understood ideology
