historical research with a series of astute close readings *The Novelty of Newspapers* breaks down the assumed divide between the epoch's literature and journalism and demonstrates that newsprint was integral to the development of the novel

of marketing their literary works to expanding audiences of readers worldwide Despite an over determined print space altered by the rise of new kinds of consumers and transformations of accepted habits of reading publishing and writing the changes in British and American publishing at the turn of the twentieth century inspired an exciting new period of literary invention and experimentation in the adventure genre and the greater part of that invention and experimentation was happening in the magazines
