**Innocent Subjects** Terese Jonsson, 2020-12-20 In a time of intensified global white supremacist and patriarchal violence anti racist feminist movements and analyses have never been more vital Women of colour are at the forefront of these struggles worldwide but are white feminists really by their side Despite a rich history of Black and postcolonial critiques of racist and imperial feminist politics racism still exists within contemporary British feminism To explain why Terese Jonsson examines the history of feminism over the last forty years She argues that Black feminism s role in shaping the movement has been marginalised through narratives which repeatedly position white women at the centre of the story from the women s liberation movement in the 1970s to today Analysing the ways in which whiteness continues to pervade feminist literature as well as feminist debates in the liberal media Jonsson demonstrates that despite an increased attention to race intersectionality and difference stories told by white feminists are shaped by their desire to maintain an innocent position towards racism *CLA Journal* College Language Association (U.S.), 1996 *The Physiology of Sexist and Racist*

*Oppression* Shannon Sullivan, 2015-07-01 While gender and race often are considered socially constructed this book argues that they are physiologically constituted through the biopsychosocial effects of sexism and racism This means that to be fully successful critical philosophy of race and feminist philosophy need to examine not only the financial legal political and other forms of racist and sexism oppression but also their physiological operations Examining a complex tangle of affects emotions knowledge and privilege *The Physiology of Sexist and Racist Oppression* develops an understanding of the human body whose unconscious habits are biological On this account affect and emotion are thoroughly somatic not something mental or extra biological layered on top of the body They also are interpersonal social and can be transactionally transmitted between people Ranging from the stomach and the gut to the hips and the heart from autoimmune diseases to epigenetic markers Sullivan demonstrates the gastrointestinal effects of sexual abuse that disproportionately affect women often manifesting as IBS Crohn s disease or similar functional disorders She also explores the transgenerational effects of racism via epigenetic changes in African American women who experience much higher pre term birth rates than white women do and she reveals the unjust benefits for heart health experienced by white people as a result of their racial privilege Finally developing the notion of a physiological therapy that doesn t prioritize bringing unconscious habits to conscious awareness Sullivan closes with a double barreled approach for both working for institutional change and transforming biologically unconscious habits *The Physiology of Sexist and Racist Oppression* skillfully combines feminist and critical philosophy of race with the biological and health sciences The result is a critical physiology of race and gender that offers new strategies for fighting male and white privilege **Postcolonialism and Migration in French Comics** Mark McKinney, 2021-01-14

**Performing Postracialism** Philip S.S. Howard,2023-02-14 Blackface instances in which non Black persons temporarily darken their skin with make up to impersonate Black people usually for fun and frequently in educational contexts constitutes a postracialist pedagogy that propagates antiblack logics In *Performing Postracialism* Philip S S Howard examines instances of contemporary blackface in Canada and argues that it is more than a simple matter of racial misrepresentation The book looks at the ostensible humour and dominant conversations around blackface arguing that they are manifestations of the particular formations of antiblackness in the Canadian nation state and its educational institutions It posits that the occurrence of blackface in universities is not incidental and outlines how educational institutions responses to blackface in Canada rely upon a motivation to protect whiteness *Performing Postracialism* draws from focus groups and individual interviews conducted with university students faculty administrators and Black student associations along with online articles about blackface to provide the basis for a nuanced examination of the ways that blackface is experienced by Black persons The book investigates the work done by Black students faculty and staff at universities to challenge blackface and the broader campus climate of antiblackness that generates it *The Journal of African Travel-writing* ,1999 **People of Color in the United States** Kofi Lomotey,Pamela Braboy Jackson,Muna Adem,Paulina X. Organization of American historians,2000      **The World of Prostitution in Late Imperial Austria** Nancy Meriwether Wingfield,2017 This study of prostitution addresses issues of female agency and experience as well as contemporary fears about sexual coercion and the forced movement of girls women and police surveillance Rather than treating prostitutes solely as victims or problems to be solved as so often has been the case in much of the literature Nancy M Wingfield seeks to find the historical subjects behind fin de si cle constructions of prostitutes to restore agency to the women who participated in commercial sex illuminate their quotidian experiences and to place these women some of whom made a rational economic decision to sell their bodies in the larger social context of late imperial Austria Wingfield investigates the interactions of both registered and clandestine prostitutes with the vice police and other supervisory agents including physicians and court officials as well as with the inhabitants of these women s world including brothel clients and madams and pimps rather than focusing top down on the state constructed apparatus of surveillance Close reading of a broad range of primary and secondary sources shows that some prostitutes in late imperial Austria took control over their own fates at least as much as other working class women in the last decades before the end of the Monarchy And after 1918 bureaucratic transition did not necessarily parallel political transition Thus there was no dramatic change in the regulation of prostitution in the successor states Legislation which changed regulation only piecemeal after the war often continued to incorporate forms of control reflecting continuity in attitudes about women s sexuality      An Impossible Dream? Sharon A. Stanley,2017 Contemporary debate over the legacy of racial integration in the United States rests between two positions that are typically seen as irreconcilable On one side are those who argue that we must pursue racial integration because it is an essential component of racial justice On the other are those who question the ideal of integration and suggest that its pursuit may damage the very population it was originally intended to liberate In *An Impossible Dream* Sharon A Stanley shows that much of this apparent disagreement stems from different understandings of the very meaning of integration In response she offers a new model of racial integration in the United States that takes seriously the concerns of longstanding skeptics including black power activists and black nationalists Stanley reformulates integration to de emphasize spatial mixing for its own sake and calls instead for an internal psychic transformation on the part of white Americans and a radical redistribution of power The goal of her vision is not simply to mix black and white bodies in the same spaces and institutions but to dismantle white supremacy and create a genuine multiracial democracy At the same time however she argues that achieving this model of integration in the contemporary United States would be extraordinarily challenging due to the poisonous legacy of Jim Crow and the hidden self reinforcing nature of white privilege today Pursuing integration against a background of persistent racial injustice might well exacerbate black suffering without any guarantee of achieving racial justice or a worthwhile form of integration As long as the future of integration remains uncertain its pursuit can neither be prescribed as a moral obligation nor rejected as intrinsically indefensible In *An Impossible Dream* Stanley dissects this vexing moral and political quandary

Berman, 2002 The brash young artist James Ensor painted *Christ's Entry into Brussels in 1889* during a period of extraordinary artistic and political fomentation in his native Belgium It is one of the most dazzling innovative and perplexing paintings created in Europe in the late nineteenth century rivaling any work of its period in audacity and ambition Huge in scale complex in design and execution and brimming with social commentary the startling canvas presents a scene filled with clowns masked figures and barely visible amid the swirling crowds the tiny figure of Christ on a donkey entering the city of Brussels This insightful volume examines the painting in light of Belgium's rich artistic social political and theological debates in the late nineteenth century and in the context of James Ensor's exceptional career in order to decipher some of the painting's messages and meanings *Rebels*

*Imprisoned by the Past* Prof. Jeffrey L. Kirchmeier, 2014-12-31 *Imprisoned by the Past* Warren McCleskey and the American Death Penalty connects the history of the American death penalty to the case of Warren McCleskey By highlighting the relation between American history and an individual case *Imprisoned by the Past* provides a unique understanding of the big picture of capital punishment in the context of a compelling human story McCleskey's criminal law case resulted in one of the most important Supreme Court cases in U.S. legal history where the Court confronted evidence of racial discrimination in the administration of capital punishment The case marks the last that the Supreme Court realistically might have held that capital punishment violates the Eighth Amendment of the U.S. Constitution As such the constitutional law case also created a turning point in the death penalty debate in the country The book connects McCleskey's case as well as his life and crime to the issues that have haunted the American death penalty debate since the first executions by early settlers and that still affect the legal system today *Imprisoned by the Past* ties

together three unique American stories in U S history First the book considers the changing American death penalty across centuries where drastic changes have occurred in the last fifty years Second the book discusses the role that race played in that history And third the book tells the story of Warren McCleskey and how his life and legal case brought together the other two narratives
