Journal of Central European Affairs ,1954 **International Bibliography of Historical Sciences** ,1966 Verzeichnis der exzerpierten Zeitschriften 1926 p XXXI LXVII ICBAE 2022 Bima Cinintya Pratama, Sarkar Kabir, Hassan Mohammad Kabir, Rizal Yaya, Salina Kassim, Judit Kovács, Naelati Tubastuvi, Tiara Pandansari, Azmi Fitriati, Wida Purwidiyanti, Suryo Budi Santoso, 2022-08-23 The 3rd International Conference of Business Accounting and Economics ICBAE 2022 continued the agenda to bring together researchers, academics, experts and professionals in examining selected themes by applying multidisciplinary approaches. This conference is the third intentional conference held by the Faculty of Economics and Business Universitas Muhammadiyah Purwokerto and it is a bi-annual agenda of this faculty. In 2022, this event will be held on 10-11 August at the Faculty of Economics and Business Universitas Muhammadiyah Purwokerto. The theme of the 3rd ICBAE UMP 2022 is Innovation in Economic Finance Business and Entrepreneurship for Sustainable Economic Development. It is expected that this event may offer a contribution for both academics and practitioners to conduct research related to Business Accounting and Economics Related Studies. Each contributed paper was refereed before being accepted for publication. The double-blind peer review was used in the paper selection. *Proceedings of the International Conference on Strategic and Global Studies (ICSGS 2024)* Ibrahim Kholilul Rohman, Wu Zhaoyang, Mohammad Izdiyan Muttaqin, Ismail Suardi Wekke, Irene Sondang Fitritinia, 2025-01-31 This is an open access book. The pandemic turned to endemic has pushed many countries in the world to digitalize almost all sectors in order to accelerate the development. Every crisis moment creates momentum of opportunity to revive and reawaken the hidden potencies of nations. Instead of given thought about the digital culture, the social changes rapidly occurred. The discourses of digital security, cyber threats, monetization, crypto, currency, big data, internet of things, IoT, artificial intelligence, AI, and social media had taken us concern about future generations. The very existence of AI application distorts the academic world too where the difference of human and bot could hardly determine. Chat GPT also opened academic eyes where the human analytics skill would perish against the advancement of technology that could provide more precise answers despite lack of wisdom. Alipay has turned MSMEs to wider market and reach even small villagers to allow opportunity reach them. Gojek eases the burden of stagnancy in making affordable and comfortable public transportation where at the same time reduce the traffic frequency. Would everyone be fitted with the recent situation or still some country left behind? Whereas for some parts of the world, the very basic needs like electricity, elementary education, clean water, healthy food, and secure shelter are still luxurious and hard to access for certain part of the world. The gap disparity remains and recent world order is not everyone's favor or answer for all problems. Meanwhile, the attack of HAMAS to the Israeli shocked the world when the Operation Aqsa Flood launched in 7th of October 2023 days gone by the casualties mounted and the psychology of Palestinian disturbed to the extent incurable. Worse things worst Iran retaliates Israel after the attack to its consulate in Syria. The international society and global politics failed to show

solidarity amidst the humanitarian catastrophe in Palestine where Western alliance continuously rejected the cease fire in the UNGA The US as the global power failed to show its quality as the world leader which prove the political constellation moved to the multipolarity The injustice still persists and the voice to transform world order in UN resonates The consequence lies on the transformation of global security where each nations pursue its own weaponization to ensure its national survival and well being in the face of uncertainty and unpredictable threats The opportunity arises in the sector of global halal industry The player is not only Muslim countries but non Muslim countries are taking part The industry expanded from food to banking and financial system as well as tourism and fashion Countless exhibition in regards with halal industry appeared and triggered more expansion in market as the global expense in halal industry significantly increased This conference will become the melting pot of brilliant idea and push forward the solution to the global problem by making strategic decision into useful resource for all to solve the matters [Index of Economic Articles in Journals and Collective Volumes](#) ,2003

The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe Liviu Damşa,2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property *The EU-NATO Relationship* Martin Reichard,2016-02-17 The EU NATO relationship continues to develop at a time of significant change for both organizations Post 9 11 NATO embarked on a fundamental transformation recasting itself as an organization with global strategic reach and interest focused less on Europe than ever before At the same time the EU is also becoming a more global political actor Consequently there is growing evidence that over time the EU will take the primary place in providing military security in Europe This volume combines political and legal methods to provide a comprehensive analysis of the current and likely future relationship between the EU and NATO The work will be of interest to all those interested in the development of these two major organizations and international security more generally whether from a political or legal perspective [Index of Economic Articles in Journals and Collective Volumes](#)

American Economic Association,1995 [Migrant Integration Between Homeland and Host Society Volume 1](#) Agnieszka Weinar,Anne Unterreiner,Philippe Fargues,2017-05-23 This book provides a theoretical framing to analyse and examine the interaction between origin and destination in the migrant integration process Coverage offers a set of concrete conceptual tools which can be operationalised when measuring integration This title is the first of two complementary volumes each of

which is designed to stand alone and provide a different approach to the topic Here the chapters offer a detailed look at integration across eight key areas labour education language and culture civic and political participation housing social ties religion and access to citizenship Readers are presented with an examination into the globally available knowledge on interactions between emigration diaspora policies on one hand and integration policies on the other Migrants actively belong to two places the land they left behind and the home they are seeking to build This book gives an insightful argument for the need to include information about countries and communities of origin when examining integration which is often overlooked It will appeal to academics policymakers integration practitioners civil society organisations as well as students Overall the chapters establish a cohesive analytical framework to this important topic A complementary volume Migrant Integration between Homeland and Host Society Volume 2 How countries of origin impact migrant integration outcomes an analysis edited by A Di Bartolomeo S Kalantaryan J Salamonska and P Fargues builds upon this foundation and presents an empirical approach to migrant integration Serials Catalog: Titles, A-N Iowa State University. Library,1985 **Financial and Trade Globalization, Greener Technologies and Energy Transition** Magdalena Radulescu,Enzo Barberio Mariano,Umer Shahzad,Diogo Ferraz,2023-02-09 Challenges of Pharmacoeconomics in Global Health Arena Mihajlo (Michael) Jakovljevic,Nick Verhaeghe,Kyriakos Souliotis,2019-03-01 The pace of globalization has significantly accelerated since the end of the Cold War Era in 1989 These changes profoundly affected health care systems worldwide Health policy makers increasingly started facing new harsh challenges in their uneasy task to provide universal health coverage and decent equity of access to medical services Among the most prominent demand side issues are extended longevity joined with population aging rise of non communicable diseases and growing patient expectations Supply side causes are gains in societal welfare and living standards technological innovation in medicine and continuing rapid urbanization in developing world regions Successful insurance based risk sharing agreements made drug dispensing and medical service provision cheap or virtually free at the point of consumption in most OECD and many middle income countries Coupled with massive build up of workforce capacities and strengthening of primary care and hospital networks all these factors contributed to the supplier induced demand phenomenon There is straightforward historical evidence of long term growth in pharmaceutical and overall health spending both in absolute and GDP% terms worldwide The accumulated constraints deriving from skyrocketing costs of care were felt in many areas of clinical medicine even among the richest societies Cardinal examples of expensive and hardly affordable therapeutic areas are orphan drugs indicated to treat rare diseases and targeted biologicals used in autoimmune disorders and cancer Last but not least is troubled and frequently denied access to even essential generic pharmaceuticals still taking place in many nations This appears to be particularly the case among the world s poor and underserved citizens residing in rural and suburban areas of low and middle income countries To a large extent these difficulties are worsened by lack of evidence based resource allocation strategies and less sustainable financing strategies *The*

Department of State,1966 *The End of Empire in French West Africa* Tony Chafer,2002-06-01 In an effort to restore its world power status after the humiliation of defeat and occupation France was eager to maintain its overseas empire at the end of the Second World War Yet just fifteen years later France had decolonized and by 1960 only a few small island territories remained under French control The process of decolonization in Indochina and Algeria has been widely studied but much less has been written about decolonization in France s largest colony French West Africa Here the French approach was regarded as exemplary that is a smooth transition successfully managed by well intentioned French politicians and enlightened African leaders Overturning this received wisdom Chafer argues that the rapid unfurling of events after the Second World War was a complex piecemeal and unpredictable process resulting in a successful decolonization that was achieved largely by accident At independence the winners assumed the reins of political power while the losers were often repressed imprisoned or silenced This important book challenges the traditional dichotomy between imperial and colonial history and will be of interest to students of imperial and French history politics and international relations development and post colonial studies
