*Journal of Central European Affairs*, 1954      Integrity, Transparency and Corruption in Healthcare & Research on Health, Volume II Kıymet Tunca Çalıyurt, 2023-11-02 This book continues the discussion from Volume I on the risks organizations face in order to succeed with a special focus on the challenges brought on by the COVID 19 virus crisis Taking on an interdisciplinary focus the book brings together research from academics and practitioners from all over the world Topics considered range from corruption in the health sector and COVID 19 eHealth efforts of countries during the pandemic and fiscal policies and transparency in data sharing for effective management of the pandemic to a path forward to achieve health for all      Illiberal Constitutionalism in Poland and Hungary Tímea Drinóczi, Agnieszka Bień-Kacała, 2021-09-15 This book theorizes illiberal constitutionalism by interrogation of the Rule of Law democratic deterioration and the misuse of the language and relativization of human rights protection and its widespread emotional and value oriented effect on the population The work consists of seven Parts Part I outlines the volume s ambitions and provides an introduction Part II discusses the theoretical framework and clarifies the terminology adopted in the book Part III provides an in depth insight into the constitutional identity of Poles and Hungarians and argues that an unbalanced constitutional identity has been moulded throughout Polish and Hungarian history in which emotional traits of collective victimhood and collective narcissism and a longing for a charismatic leader have been evident Part IV focuses on the emergence of illiberal constitutionalism and based on both quantitative and qualitative analyses argues that illiberal constitutionalism is neither modern authoritarianism nor authoritarian constitutionalism This Part contextualizes the issue by putting the deterioration of the Rule of Law into a European perspective Part V explores the legal nature of illiberal legality when it is at odds and in compliance with the European Rule of Law illiberal democracy focusing on electoral democracy and legislative processes and illiberalization of human rights Part VI investigates whether there is a clear pattern in the methods of remodeling or distancing from constitutional democracy how it started consolidated and how its results are maintained The final Part presents the author s conclusions and looks to the future The book will be an invaluable resource for scholars academics and policy makers interested in Constitutional Law and Politics      **Index of Economic Articles in Journals and Collective Volumes** American Economic Association, 1995      **Index of Economic Articles in Journals and Collective Volumes**, 2003

Challenges of Pharmacoeconomics in Global Health Arena Mihajlo (Michael) Jakovljevic, Nick Verhaeghe, Kyriakos Souliotis, 2019-03-01 The pace of globalization has significantly accelerated since the end of the Cold War Era in 1989 These changes profoundly affected health care systems worldwide Health policy makers increasingly started facing new harsh challenges in their uneasy task to provide universal health coverage and decent equity of access to medical services Among the most prominent demand side issues are extended longevity joined with population aging rise of non communicable diseases and growing patient expectations Supply side causes are gains in societal welfare and living standards technological innovation in medicine and continuing rapid urbanization in developing world regions Successful insurance based risk sharing agreements made drug dispensing and medical service provision cheap or virtually free at the point of consumption in most OECD and many middle income countries Coupled with massive build up of workforce capacities and strengthening of primary care and hospital networks all these factors contributed to the supplier induced demand phenomenon There is straightforward historical evidence of long term growth in pharmaceutical and overall health spending both in absolute and GDP% terms worldwide The accumulated constraints deriving from skyrocketing costs of care were felt in many areas of clinical medicine even among the richest societies Cardinal examples of expensive and hardly affordable therapeutic areas are orphan drugs indicated to treat rare diseases and targeted biologicals used in autoimmune disorders and cancer Last but not least is troubled and frequently denied access to even essential generic pharmaceuticals still taking place in many nations This appears to be particularly the case among the world s poor and under served citizens residing in rural and suburban areas of low and middle income countries To a large extent these difficulties are worsened by lack of evidence based resource allocation strategies and less sustainable financing strategies **European Access** ,2002
