Journal Of Modern History Volume 47 No 1:

Historicism, the Holocaust, and Zionism Steven T. Katz, 1992 Of the 12 well crafted essays in this volume the most useful are those dealing with the Holocaust Choice Especially recommended for college level students of Jewish history and culture The Bookwatch This is a critical exploration of the most repercussive topics in modern Jewish history and thought A sequel to Katz's National Jewish Book Award winning study Post Holocaust Dialogues this book identifies the main issues in the contemporary Jewish intellectual universe and outlines a larger more synthetic understanding of contemporary Jewish existence

The Latest Catastrophe Henry Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today's historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately *The Latest Catastrophe* shows how historians at times against their will have themselves become actors in a history still being made

Crimes against History Antoon De Baets, 2018-12-13 *Crimes against History* takes a global approach to the extreme forms of censorship to which history and historians have been subjected through the ages The book opens by considering the varieties of censorship from suppression dismissal and defamation to persecution and murder Part I Kill switch tells the tragic story of how the censorship of history has sometimes turned into deadly crimes against history with chapters looking at topics such as historians and archivists being killed for political reasons attacks by political leaders on historians iconoclastic breaks with the past and fake news Part II Fragile freedom reverses the perspective and examines how the censorship of history has backfired Chapters consider the subversive power of historical analogies and resistance to the censorship of history The book also contains a Provisional memorial for history producers killed for political reasons from ancient times until 2017 It is a double tribute to the history producers who were killed and to those who mustered the courage to resist the blows of censorship

The Restoration of Israel Gerhard Falk, 2006 The restoration of Israel to the Holy Land was originally an English Protestant idea Jewish Zionism came later and succeeded only because of the Holocaust The principal impetus for the promotion of a Jewish return to Zion was religious and began with the translation of the Bible from the Hebrew to English

by Tindale Because literature in the English language depicted Jews almost always in an unfavorable light both British and American religious and political leaders were ambivalent about Jews Nevertheless the religious impulse to restore Israel became political in the twentieth century and succeeded with the establishment of the Jewish state in 1948 *Radical Betrayal* Anders W. Edwardsson, 2023-12-05 In *Radical Betrayal* Anders W Edwardsson delivers a provocative examination of how both liberal and neoconservative forces have undermined American exceptionalism the belief in America's unique character and role in world history Tracing the evolution of American national identity from its founding through the present day Edwardsson argues that the post World War II era has witnessed a gradual erosion of the principles that once defined the American experiment From Woodrow Wilson's progressive idealism to Franklin Roosevelt's New Deal from Lyndon Johnson's Great Society to George W Bush's democratization agenda Edwardsson methodically chronicles how political leaders have dramatically expanded federal power and global interventionism in ways that contradict America's founding vision The author demonstrates how both parties have contributed to what he sees as America's decline liberals through welfare state expansion and neoconservatives through misguided foreign wars Most provocatively Edwardsson argues that Donald Trump's presidency represented a potential return to traditional American principles before being undermined by establishment forces He warns that continued abandonment of American exceptionalism threatens not only the nation's prosperity but its very survival as a unified republic Whether you agree with his analysis or not Edwardsson's sweeping historical narrative challenges readers to reconsider the forces shaping American politics and identity in an increasingly polarized age If you enjoyed *The Case for Nationalism* by Rich Lowry *The Dying Citizen* by Victor Davis Hanson or *America in Retreat* by Bret Stephens you'll love *Radical Betrayal* **Hannah Arendt's Response to the Crisis of Her Times** Anthony Court, 2008 *Empire, Technology and Seapower* Howard J. Fuller, 2014-01-03 This book examines British naval diplomacy from the end of the Crimean War to the American Civil War showing how the mid Victorian Royal Navy suffered serious challenges during the period Many recent works have attempted to depict the mid Victorian Royal Navy as all powerful innovative and even self assured In contrast this work argues that it suffered serious challenges in the form of expanding imperial commitments national security concerns precarious diplomatic relations with European Powers and the United States and technological advancements associated with the armoured warship at the height of the so called Pax Britannica Utilising a wealth of international archival sources this volume explores the introduction of the monitor form of ironclad during the American Civil War which deliberately forfeited long range power projection for local coastal command of the sea It looks at the ways in which the Royal Navy responded to this new technology and uses a wealth of international primary and secondary sources to ascertain how decision making at Whitehall affected that at Westminster The result is a better balanced understanding of Palmerstonian diplomacy from the end of the Crimean War to the American Civil War the early evolution of the modern capital ship including the catastrophic loss of the experimental sail and turret ironclad H M S Captain naval

power projection and the nature of empire technology and seapower This book will be of great interest to all students of the Royal Navy and of maritime and strategic studies in general *Islam and The English Enlightenment* Zulfiqar Ali Shah,2022-06-02 Never before to my knowledge has the cross fertilisation of Western and Islamic ideas been so encyclopedically documented as it is here In reading Islam and the English Enlightenment you will never see the relationship between Islam and the West in the same way again ROBERT F SHEDI NGER Professor of Religion Luther College Dr Zulfiqar Ali Shah s *Islam and the English Enlightenment* is one of the most profoundly enlightening books I have read in years Dr Shah compellingly demonstrates that the thinkers of English Enlightenment were undeniably indebted to Islamic sciences and thought and that the foundational principles of rationalist thought scientific inquiry and religious toleration were deeply anchored in the Islamic tradition KHALED ABOU EL FADL Omar Azmeralda Alfi Distinguished Professor of Law UCLA School of Law This is a book that anyone interested in stepping outside a Eurocentric view of the rise of the West and of the modern age must read MICHAEL A GILLESPIE Professor of Political Science Philosophy Duke University Dr Shah convincingly demonstrates the central role that Islam played in shaping the values and ideas of the Enlightenment reformers such as John Locke and Isaac Newton who had helped to produce the modern world GERALD MACLEAN Emeritus Professor University of Exeter *Marianne Moore and the Archives* Jeff Westover,2024-05-09 *Marianne Moore and the Archives* features new archival research to explore the work of a major American modernist poet providing innovative approaches to Moore s career as it is documented in her archives in Philadelphia This volume is also the first that draws upon the Marianne Moore Digital Archive MMDA **The Uses of Space in Early Modern History** P. Stock,2015-03-18 While there is an growing body of work on space and place in many disciplines less attention has been paid to how a spatial approach illuminates the societies and cultures of the past Here leading experts explore the uses of space in two respects how space can be applied to the study of history and how space was used at specific times **Yearbook** National Education Association of the United States. Barrett,2007-05-25 At the height of the Cold War the US sought to maintain power and influence in the Greater Middle East the region from Morocco to India in the context of a growing threat from Russia and the decline of British imperialism This original and important study illuminates this tense period in international relations offering many new insights into the global situation of the 1950s and 1960s Roby Barrett

casts fresh light on US foreign policy under Eisenhower and Kennedy illuminating the struggles of two American administrations to deal with massive social economic and political change in an area sharply divided by regional and Cold War rivalries With a dramatic backdrop of revolutionary Arab nationalism Zionism indigenous Communism teetering colonial empires unstable traditional monarchies oil territorial disputes and the threat of Soviet domination of the region this book vividly highlights the fundamental similarities between the goals and application of foreign policy in the Eisenhower and Kennedy administrations as well as the impact of British influence on the process Drawing on extensive research in archives and document collections from Kansas to Canberra as well as numerous interviews with key policy makers and observers from both the Eisenhower and Kennedy administrations Roby Barrett explores the application of the Cold War containment policy through economic development and security assistance Within the broader context of the global Cold War struggle the Greater Middle East also held the potential as the flashpoint for nuclear war and Barrett analyses fully the implications of this for international relations In the process this book draws some unexpected conclusions arguing that Eisenhower s policies were ultimately more successful than Kennedy s and offers an important and revisionist contribution to our understanding of the Cold War and the Middle East
