Journal of Stephen Reynolds: 1823-1829 Stephen Reynolds, 1989 **Anahulu: The Anthropology of History in the Kingdom of Hawaii, Volume 1** Patrick Vinton Kirch, Marshall Sahlins, 1994-07 Combining archaeology and social anthropology this historical and archaeological two volume set constructs an integrated history of the Anahulu Valley in northwestern Oahu that traces the cultural transformation in a typical local center of the Hawaiian Kingdom founded by Kamehame Volume one is a historical ethnography and volume two is an archaeology of history *Work, Class, and Power in the Borderlands of the Early American Pacific* Evan Lampe, 2013-12-12 This book traces the history of working people who helped establish the foundation of the American empire in the Pacific from its origins after the American Revolution to its coming of age in the 1840s and 1850s Beginning with the expeditions of the Columbia and the Lady Washington Lampe argues that the early American Pacific can best be considered through the interaction of four major locations connected through the networks of trade the merchant ship the Northwest Coast Honolulu and Canton Guangzhou In each of these locations the labors of a diverse population of working people was harnessed in the critical labors of empire building including the transportation of goods The central question that the consideration of working people in the Pacific economy during this period is Lampe argues the role of power applied on these laborers by an international capitalist class emerging alongside the Pacific commercial empires Lampe also finds that this power was not uncontested and emerged in response to the activities of labor Working people on the ship and in the port cities found ways to secure their piece of the profitable trade often through illicit means *Native American Whalemen and the World* Nancy Shoemaker, 2015-04-27 In the nineteenth century nearly all Native American men living along the southern New England coast made their living traveling the world's oceans on whaleships Many were career whalemen spending twenty years or more at sea Their labor invigorated economically depressed reservations with vital income and led to complex and surprising connections with other Indigenous peoples from the islands of the Pacific to the Arctic Ocean At home aboard ship or around the world Native American seafarers found themselves in a variety of situations each with distinct racial expectations about who was Indian and how Indians behaved Treated by their white neighbors as degraded dependents incapable of taking care of themselves Native New Englanders nevertheless rose to positions of command at sea They thereby complicated myths of exploration and expansion that depicted cultural encounters as the meeting of two peoples whites and Indians Highlighting the shifting racial ideologies that shaped the lives of these whalemen Nancy Shoemaker shows how the category of Indian was as fluid as the whalemen were mobile **Beyond Hawai'i** Gregory Rosenthal, 2018-05-04 In the century from the death of Captain James Cook in 1779 to the rise of the sugar plantations in the 1870s thousands of Kanaka Maoli Native Hawaiian men left Hawai'i to work on ships at sea and in na aina e foreign lands on the Arctic Ocean and throughout the Pacific Ocean and in the equatorial islands and California Beyond Hawai'i tells the stories of these forgotten indigenous workers and how their labor

shaped the Pacific World the global economy and the environment Whether harvesting sandalwood or bird guano hunting whales or mining gold these migrant workers were essential to the expansion of transnational capitalism and global ecological change Bridging American Chinese and Pacific historiographies Beyond Hawai i is the first book to argue that indigenous labor more than the movement of ships and spread of diseases unified the Pacific World **Colonizing Hawai'i** Sally Engle Merry,2020-12-08 How does law transform family sexuality and community in the fractured social world characteristic of the colonizing process The law was a cornerstone of the so called civilizing process of nineteenth century colonialism It was simultaneously a means of transformation and a marker of the seductive idea of civilization Sally Engle Merry reveals how in Hawai i indigenous Hawaiian law was displaced by a transplanted Anglo American law as global movements of capitalism Christianity and imperialism swept across the islands The new law brought novel systems of courts prisons and conceptions of discipline and dramatically changed the marriage patterns work lives and sexual conduct of the indigenous people of Hawai i Veterans Affairs Medical and Regional Office Center, Tripler Army Medical Center, Oahu ,1995 **Supplements To Malden Island's History** Steve Dehner,2018-04-17 *Inventing Politics* Juri Mykkanen,2003-05-31 How did early nineteenth century foreigners understand Hawaiian chiefly politics What kinds of cultural resources did Hawaiians themselves have to make sense of their own structures of domination and those of the West What was the outcome in political terms of the encounter between Hawaiians and foreigners To answer these questions this volume takes readers on an ethnographic journey through Hawaii s early contact period It begins by exploring the translation work done by American Protestant missionaries who played a central role in bridging cultural differences between Hawaiians and Westerners Evangelicalism and liberal capitalism set the stage for constructing political images of a pagan society and the present work follows the subsequent evolution and transformation of these images Inventing Politics is a theoretical statement of a new kind of political anthropology Through an extensive use of primary sources including many contemporary Hawaiian language newspapers and dictionaries it argues that what informs our current understanding of politics was already present in the early nineteenth century encounters between Hawaiians and foreigners a reading that translates seemingly apolitical events into the language of politics and speaks to the fundamental question of whether politics is a functional aspect of every society or an invention based on specific cultural meanings and interests **Exploring and Expanding Literacy Histories of the United States** Samuel DeJulio,Leah Durán,2024-08-26 Exploring and Expanding Literacy Histories of the United States brings together new scholarship and critical perspectives hitherto missing from dominant narratives to offer a racially ethnically and linguistically diverse record of the history of American reading instruction This book addresses the many important developments in the history of literacy in the United States that occurred outside of mainstream public education in marginalized communities in and outside of traditional school contexts Instead of a top down approach of prominent thinkers and theorists the book intends to cover key blind spots including literacy education

in Indigenous nations and how marginalized groups have fought for access to education by applying a critical lens to the under recognized histories of literacy This volume is essential reading for courses on History of Reading Education and Foundations of Literacy **The Hawaiian Journal of History** ,1996 Shipwrecked in Paradise Paul F.
