**Journal d'un animal marin** René Depestre, 1964      *Journal d'un animal marin*, 1963      **A History of Literature in the Caribbean** A. James Arnold, Julio Rodriguez-Luis, J. Michael Dash, 1994-09-06 This history for the first time charts the literature of the entire Caribbean the islands as well as continental littoral as one cultural region It breaks new ground in establishing a common grid for reading literatures that have been kept separate by their linguistic frontiers Readers will have access to the best current scholarship on the evolution of popular and literate cultures in the various regions since their earliest emergence The History of Literature in the Caribbean brings together the most distinguished team of literary Caribbeanists ever assembled cutting across ideological commitments and critical methods Differences in point of view between individual contributors are left intact here as the sign of the colonial inheritance of the region Introductions and conclusions to the various sections of the History written by the respective subeditors set them in proper perspective The unique synoptic aspect of the History lies in its comprehensiveness and its range which are unequaled Contributors A James Arnold Julio Rodriguez Luis H Lopez Morales Maria Elena Rodriguez Castro Silvio Torres Saillant Seymour Menton Ian I Smart Efrain Barradas Raquel Chang Rodriguez Carlos Alonso Ivan A Schulman W L Siemens William Luis Gustavo Pellon Emilio Bejel Sandra M Cypess Peter Earle Adriana Mndez Rodenas J Michael Dash Ulrich Fleischmann Maximilien Laroche Rgis Antoine Lon Franois Hoffmann Randolph Hezekiah Bridget Jones F I Case Marie Denise Shelton Beverly Ormerod J Michael Dash Jack Corzani Anthea Morrison Juris Silenieks Frantz Fanon Vere Knight      **Literature and Ideology in Haiti, 1915-1961** J. Michael Dash, 1981-06-18      **Encyclopedia of Latin American Literature** Verity Smith, 1997-03-26 A comprehensive encyclopedic guide to the authors works and topics crucial to the literature of Central and South America and the Caribbean the Encyclopedia of Latin American Literature includes over 400 entries written by experts in the field of Latin American studies Most entries are of 1500 words but the encyclopedia also includes survey articles of up to 10 000 words on the literature of individual countries of the colonial period and of ethnic minorities including the Hispanic communities in the United States Besides presenting and illuminating the traditional canon the encyclopedia also stresses the contribution made by women authors and by contemporary writers Outstanding Reference Source Outstanding Reference Book      **Le Robinson hollandais, ou, Journal d'un marin naufragé** George C. Verenet, 1824      *Exile and Post-1946 Haitian Literature* Martin Munro, 2013-08-15 Exile and Post 1946 Haitian Literature provides readers with an excellent introduction to recent Haitian literature one of the richest literary traditions in the Americas Martin Munro focuses on works written after 1946 a period in which exile has become the dominant theme in Haitian literature Using this notion of Haitian writing as a literature of exile Munro analyzes key novels by the most important figures of each generation of the past sixty years including Jacques Stephen Alexis Ren Depestre mile Ollivier Dany Laferriere and Edwidge Danticat      **Shaping and Reshaping the Caribbean** Martin Munro, 2000 The current drive in Caribbean literary studies stresses similarities and

points of convergence between the various islands of the archipelago and their authors the fundamental aim of which is to move closer to an all encompassing theory of Caribbeanness Martin Munro challenges this movement and through a study of the work of Aime Cesaire and Rene Depestre proposes an alternative vision of the present and future of Caribbean literature The main areas of inquiry are how these two Caribbean writers construct their sense of themselves how they relate to the Caribbean and to the wider world and how they have been influenced by the historical and cultural particularities of their respective islands Aime Cesaire s sense of self and of the Caribbean is essentially shaped around the circuit triangulaire the model of Africa Europe Caribbean interdependencies ultimately inherited from the time of the slave trade Munro shows how Cesaire views the Caribbean as a deeply traumatic insubstantial space how he looks to Africa for his lost sense of self and how Europe is seen at once as the malevolent colonial power and also the home of poetry and learning Rene Depestre s Caribbean shape is quite different Africa is relatively absent in Depestre s work Europe is not presented as a threat and Depestre unlike Cesaire sees in the Caribbean an energy and a creativity brought about by the historical fusion of disparate cultures An important factor in shaping Depestre s model of Caribbeanness is his long exile from Haiti and Depestre s experience of exile is analysed in detail The combination of broad contextualization diverse theoretical approaches and close analysis of these important writers work produces a strong argument against attempts to view and read writing from the Caribbean as one literature Difference and diversity it is argued predominate as Caribbean writing embraces the new century and the whole notion of Caribbeanness undergoes further processes of highly creative splintering and reshaping

VERENET,1830      **Haiti and the United States** J. Michael Dash,2016-07-27 Imaginative literature argues Michael Dash does not merely reflect but actively influences historical events He demonstrates this by a close examination of the relations between Haiti and the United States through the imaginative literature of both countries The West s mythification of Haiti is a strategy used to justify either ostracism or domination a process traced here from the nineteenth century until it emerges with a voyeuristic fierceness in the 1960s In an effort to resist these stereotypes Haitian literature becomes a subversive manoeuvre permitting Haitians to rewrite themselves The Unites States invented Haiti as a land of savagery and mystery a source of evil and shame Weaving together text and historical context Dash discusses the durability of these images which continue to shape official policy and popular attitudes today      *The Cambridge Companion to Modern French Culture* Nicholas Hewitt,2003-09-11 France entered the twentieth century as a powerful European and colonial nation In the course of the century her role changed dramatically in the first fifty years two World Wars and economic decline removed its status as a world power whilst the immediate post war era was marked by wars of independence in its colonies Yet at the same time in the second half of the century France entered a period of unprecedented growth and social transformation Throughout the century and into the new millennium France retained its former international reputation as a centre for cultural excellence

and innovation and its culture together with that of the Francophone world reflected the increased richness and diversity of the period This 2003 Companion explores this vibrant culture and includes chapters on history language literature thought theatre architecture visual culture film and music and discuss the contributions of popular culture Francophone culture minorities and women **Sens et présence du sujet poétique**, 2006-01-01 Proposant comme objet commun d'interrogation le sens et la présence du sujet poétique tel qu'il se manifeste ou se refuse d'être ou d'être prouvé ou s'échappe dans la production poétique de la France et du monde francophone depuis 1980 le présent volume réunit un nombre considérable d'études et de réflexions qui partent de divers postulats penchants ou postures d'écriture englobent bien des courants et des clivages dont s'alimentent encore fructueusement aujourd'hui mais non sans les contester ou les réorienter poétiquement et penser la critique De l'absence la présence de la froide objectivation dispositive aux troublants sursauts et silences de l'instance subjective de la négativité du rejet la palpitation difficilement localisable du sujet ou du surjet le lecteur est convié à savourer un très large et très riche éventail d'approches qui convergent toutes sur la même problématique en clairant avec finesse l'étonnante pluralité d'enjeux autour desquels s'articulent la poétique et ses particularités sa haute pertinence

**André Bazin's Film Theory** Angela Dalle Vacche, 2020 Through metaphors and allusions to art science and religion Andr Bazin s writings on the cinema explore a simple yet profound question what is a human For the famous French film critic a human is simultaneously a rational animal and an irrational being Bazin s idea of the cinema is a mind machine where the ethical implications have priority over aesthetic issues And in its ability to function as an art form for the masses cinema is the only medium that can address an audience at the individual and community levels simultaneously the audience sees the same film but each individual relates to the narrative in a different way In principle cinema can unsettle our routines in productive ways and expand our sense of belonging to a much larger picture By arguing that this dissident Catholic s worldview is anti anthropocentric Angela Dalle Vacche concludes that Andr Bazin s idea of the cinema recapitulates the histories of biological evolution and modern technology inside our consciousness Through the projection of recorded traces of the world onto a brain like screen the cinema can open viewers up to self interrogation and empathy towards Otherness Bazin was neither a spiritualist nor an animist or a pantheist yet his film theory leads also to ideas of a more cosmological persuasion through editing and camera movement cinema explores our belonging to a vast universe that extends from the microbes of the microscope to the stars of the telescope Such ideas of connectedness coupled with Bazin s well known emphasis of realism form the foundation for his film theory s embrace of Italian neorealism Choosing to avoid a quantitative naturalism based on accumulation of details Bazin s theory instead promotes the kind of cinema that celebrates perceptual displacement the objectification of human behavior and one s own critical self awareness
